Gererzahlungen Von Der Alhambra:

Tales from the Alhambra Washington Irving, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1917 edition Excerpt Begmo of prince Omeo at KameC HERE was once a Moorish king of Granada who had but one son whom he named Ahmed to which his courtiers added the surname of al Kamel or the Perfect from the signs of super excellence which they perceived in him in his very infancy The astrologers predicted everything in his favour that could make a perfect prince and a prosperous sovereign One cloud only rested upon his destiny Unless he could be kept from falling in love until he was of mature age he would run great perils To prevent this danger the king wisely determined to rear him in a seclusion where he would never see a woman For this purpose he built a beautiful palace on the brow of the hill above the Alhambra in the midst of delightful gardens but surrounded by lofty walls being in fact the same palace known at the present day as the Generalife In this palace the youthful prince was shut up and entrusted to the care of Eben Bonabben one of the wisest and dryest of Arabian sages who had passed the greatest part of his life in Egypt studying hieroglyphics and making researches among the tombs and pyramids and who saw more charms in an Egyptian mummy than in a living beauty The prince grew up in the seclusion of the palace and its gardens under the vigilant care of Eben Bonabben who sought to instruct him in the abstruse lore of Egypt But in this he made little progress and it was soon evident that he had no turn for philosophy He was however amazingly ductile for a youthful prince ready to follow any advice and always guided by the last counsellor He suppressed his yawns and listened patiently to the long and learned discourse of Eben Bonabben from which he imbibed a smattering of various kinds of knowledge
