Crime and Madness in Modern Austria

Rebecca S. Thomas, 2021-02-03 This collection of essays explores the changing history rhetoric politics and representation of crime and madness in modern Austria From the emergence of Viennese modernism to the post modern moment the myths metaphors and realities of crime and madness have unfolded in the shadow of larger cultural questions regarding cultural norms gender war and national identity Historically based contributions illuminate such diverse cultural realities as the evolution of psychiatry as medical practice asylum practices in the early twentieth century and Austrian participation in and responses to terror and war crimes From these investigations proceeds the clear insight that cultural responses to crime and madness are often steeped in mythmaking as much as objective policy and practice Conversely literary and metaphorical representations of crime and madness reveal attitudes and cultural realities about the Austrian society that produced them and which they reflect Specialists from the fields of Austrian history literature and culture studies have collaborated to produce this truly interdisciplinary volume which responses to crime and madness are often steeped in mythmaking as much as objective policy and practice Conversely literary and metaphorical representations of crime and madness reveal attitudes and cultural realities about the Austrian society that produced them and which they reflect

Modern Austrian Prose Paul

F. Dvorak, 2001 The sixteen articles compiled here are devoted to individual prose works published after 1970 that reflect the Austrian tradition within the field of German literature The works treated include those of the popular and widely recognisable names of world renowned writers such as Peter Handke Thomas Bernhard Ingeborg Bachmann and Nobel Prize winner Elias Canetti as well as of less well known figures Collectively these authors display a distinctly Austrian point of view they are the literary voice of modern day Austria a country whose cultural and artistic achievements are often too casually subsumed under the more general German rubric The authors and their works clearly demonstrate that Austria has made and continues to make a unique contribution to modern German language literature and to world literature that is greatly disproportionate to its modest size and population The essays in this volume have been written by experts in the field of Austrian cultural and literary studies With but one exception the works they present are readily available in English translation The essays reveal a variety of interpretative perspectives but all share the common goal of explicating a single literary text for a diverse readership interested in the modern literary scene
