This book presents a clear and precise overview of the key aspects of German business law. It was written by attorneys involved in the daily practice of business law in Germany and is aimed at people who wish to orient themselves quickly in which it impacts business pursuant to the German legal system and the manner in which establishment operations and liquidations are conducted. The first section of the book is devoted to an explanation of the major issues to be considered in acquiring or establishing a business in Germany, whereas the second section focuses on areas of special consideration. In both sections, special attention has been paid to highlighting and explaining the differences between the German legal system and that of the United States, though the intention is to provide information that will prove valuable to all foreigners, particularly business men and women and lawyers advising clients with an interest in doing business in Germany. Though it is the object of this book to present readers with a general orientation and the foundation for making informed decisions concerning business transactions in Germany, it cannot possibly function as a substitute for case-specific professional advice, and by no means purports to do so. Those readers who wish to follow up on any decisions they may have formed on the basis of the material presented here are well advised to seek the guidance of qualified attorneys and tax advisors before entering into any binding obligations.
