## **German Unification An Example For Korea:**

**German Unification, an Example for Korea?** Heiner Flassbeck, Gustav Adolf Horn, 1996 This book attempts to assess the impact of a unification of Korea taking into account the economic development of both its countries This is done assuming that Korea applies the same approach as Germany After reviewing the German method the authors discuss some scenarios for a possible Korean unification

**The Quality of Democracy in Korea** Hannes B. Mosler, Eun-Jeung Lee, Hak-Jae Kim, 2017-11-15 This edited volume assesses the quality of democracy in the Republic of Korea three decades after its formal democratization in 1987 It has been argued that Korea's two subsequent power turnovers prove that its democracy has been successfully consolidated despite its tremendous progress however recent developments show signs of deterioration and retreat Therefore drawing on the recent quality of democracy literature this volume sets out to answer the question Where does Korea's democratic quality stand today The three chapters in first section of the book focus on aspects related to the presidency political parties and organized labor also including the perspective of governance and human security as well as on the rule of law regarding the role and function of the prosecution This is followed by a set of four chapters in section two that address the dimensions of democratic quality such as participation freedom equality and responsiveness The final third section includes contributions on related inter Korean policy issues This book is an invaluable resource for political and social scientist working on democratic quality and at the same for scholars in Asian or Korean Studies at faculty level as well as on graduate student level

**The Search for a Unified Korea** Eui-Gak Hwang, 2010-03-11 North Korea's brinkmanship diplomacy has continued to disturb the world with its seemingly reckless missile testing as the country's leader Kim Jong Il is rumored to be terminally ill with pancreatic cancer North Korea appears to be in a state of serious internal crisis not only because its dictatorial system albeit skillful and ruthless leadership is inherently unstable if not skillful and ruthless leadership but also because the main pillar of Kim Jong Il's legitimacy is rapidly eroding due to both mass starvations and the exodus of grassroots and mass exodus of the North Korean people into nearby regions The main objective of this book is to explore the probability of North Korea's implosion and second to search for a feasible way for Korean reunification as a possible consequence of a big bang event on the peninsula The geopolitics of the Korean Peninsula is historically very complicated as Korea is bordered and surrounded by four big powers namely China Russia Japan and the United States Each country has its own varying degrees of political economic and military stakes with respect to the Korean Peninsula Thus the Land of the Morning Calm has remained divided since 1945 mainly as a result of the domain war among these super powers As the North nears a turning point however there is a new possibility for the two Koreas to reunite if the international environments work in their favor and if both countries are well prepared to assume reunification

*Korea Briefing* David R. McCann, Asia Society, 1997 This text examines a period of far reaching change in the two Koreas Chapters on recent events the state of current economic political and international relations and the directions of bellwether reforms in language policy

and education are at the core of the study      **Korea Briefing** Kongdan Oh,Ralph C. Hassig,2016-09-16 This text examines a period of far reaching change in the two Koreas Chapters on recent events the state of current economic political and international relations and the directions of bellwether reforms in language policy and education are at the core of the study

*South Korean Engagement Policies and North Korea* Key-young Son,2006-11-22 A fresh historical and theoretical exploration of the much debated but still elusive question of the Korean divide In contrast to much of the literature on the divide which deals with state building on the two sides of the Demilitarized Zone this book sheds light on the slow but steady process of homogenization between the two estranged peoples as accelerated after the end of the Cold War and especially after the inauguration of President Kim Dae jung in 1998 Providing immense empirical detail as well as theoretical debate on the ideas in policy shaping in South Korea the book presents a rich history of enemies and covers issues including an overview of the structural shift and the rise and fall of identity groups in South Korea history of enemy making and peace building North Korea s external relations with the US Japan and Europe Hyundai s groundbreaking cross border tourism and other economic cooperation projects the lingering nuclear weapons crises By focusing on the question of identities the book presents a new approach on one of the most important legacies of the Cold War and threat to peace in the contemporary world the divided Korean peninsula As such it fills a major gap in the literature utilizing new theoretical and empirical frameworks to deal with the Korean division and its future implications in East Asia      *Toward Normalizing U.S.-Korea Relations* Edward A. Olsen,2002 Considering the future of U S Korea relations Edward Olsen first provides a rich assessment of the political economic and strategic factors that have shaped and flawed U S policy toward the Korean peninsula since World War II Olsen suggests that the prospect of permanent separation has become integral to U S policy toward both Korean states Offering counterintuitive recommendations for reinvigorating the in due course paradigm his analysis is firmly grounded in the current debate about the course of U S foreign policy in general and in particular its role in the East Asian context      North Korea and Economic Integration in East Asia Yeongseop Rhee,Patrick Messerlin,2019-06-27 Throughout North Korea s history it has regarded external relations with suspicion and as a potential threat to its regime With North Korea working towards denuclearization there is now hope for an economic opening This book examines the external economic strategies that North Korea may consider for its reforms and development which are related to the East Asian economic integration process This book emphasizes that considering theoretical factors as well as conditions of the North Korean economy economic opening and integration should have high priority anteceding or at least being parallel to economic reforms and transformation Also among various alternative strategies for achieving the goal of economic reform and development based on economic opening the utilization of East Asian regional economic integration framework would be the best option for North Korea because this framework can provide an opportunity for North Korea to overcome structural problems in its external economic relations and to circumvent political conflicts thus leading to a smoother rapprochement

towards economic opening This book is timely as it shows how a new economic recovery strategy on the Korean Peninsula may be accomplished **Korea Update** ,1995 **The End of North Korea** Nick Eberstadt,1999 Prolonging North Korea's life may actually increase the costs and the dangers of its inevitable demise **Transnational Encounters between Germany and Korea** Joanne Miyang Cho, Lee M. Roberts, 2017-10-15 This book examines the history of the German Korean relationship from the late nineteenth to the twenty first century focusing on the nations varied encounters with each other during the last years of the Yi dynasty the Japanese occupation of Korea the Cold War and the post Cold War era With essays from a range of internationally respected scholars this collection moves between history diplomacy politics education migration literature cinema and architecture to uncover historical and cultural intersections between Germany and Korea Each nation has navigated the challenges of modernity in different ways and yet traditional East West dichotomies belie the deeper affinities between them This book points to those affinities focusing in particular on the past and present internal divisions that perhaps make Germany and Korea as similar as Germany and Japan *Korean Nationalism Betrayed* Joong-Seok Seo, 2007-11-01 Written by Joong Seok Seo an eminent Korean historian and a thinker of rare originality this book examines the tumultuous history of modern Korea from the perspective of nationalism Based on the author's extensive research and wide ranging experience the book goes to the heart of critical questioning about the political uses and abuses of nationalism by the ruling elites of post liberation Korea Indeed *Korean Nationalism Betrayed* fills a yawning gap in the Western understanding of the authoritarian political structure of South Korea 1948-1988 that manipulated and distorted nationalism by identifying it with ultra right anti communism The author provides a set of thought provoking and compelling arguments against the assumptions of the Cold War attributing the continued climate of tension and antagonism between the two Koreas to the tenacity of a Cold War mind set He traces the root of the tragedy of national division to the failure of Korean nationalism and puts forward a compelling case for overcoming the legacy of polarized ideological stance based on Cold War ideology and embracing a policy of reconciliation and cooperation by both sides **Japan's Asia Policy** Wolf Mendl, 2002-09-11 This volume provides a timely and expert analysis of Japan's Asia policy as the country continues to address the future through trying to cope with the burden of a chequered past Dr Mendl locates his exposition of Japan's policy towards both North East and South East Asia in a full historical and cultural context and importantly takes due account of the underlying and potent factor of national identity in shaping international outlook He begins his study with a discussion of the enigma of Japanese policy expressed in debate over whether or not that policy expresses a calculated grand design A corresponding enigma emerges in Dr Mendl's exposition of Japan's policy towards a part of the world with which it shares a geographical location and a measure of identity but one which he maintains cannot be separated from its engagement at the global level In exploring the theme of how Japan is confronted by the problem of reconciling its relations with Asia with pursuing a global role in uncharted post Cold War waters Dr Mendl makes a lucid and scholarly contribution

to the debate about Japan's place in a world which it has helped to shape through its economic performance and example

Korea and Globalization James B. Lewis, Amadu Sesay, 2013-07-04 Korea faces two challenges in the twenty first century unification and globalization Both entail problems of economic political and cultural integration In the past Koreans successfully unified in various forms and globalized in many ways This book is a study of the theme of globalization addressing various aspects of Korea's integration into the global community from a social scientific or humanistic perspective This investigation begins with a focus on contemporary South and North Korea the globalized southern daily life South Korean labour as a global player the southern development state and the cultural division that poses the greatest threat to reunification Moving outwards in concentric circles chapters address Korea's connections with its region and Koreans contributions to the wider world Relations with Japan Korea's most difficult bilateral relationship are surveyed to identify both patterns and images The thirteenth century Tripitaka Koreana is the most complete collection of Buddhist scripture in Chinese and its recent digitization points towards a renaissance of this world religion South Korea's pursuit of a Nobel Prize in Literature is put in perspective when one considers Korean contribution to the pre modern Sinitic literary world South Korea may owe its existence to the United Nations but since entering the UN in 1991 it has taken to heart the altruistic urge of global peacekeeping

*North Korea in the World Economy* Eun Kwan Choi, E. Han Kim, Yesook Merrill, 2003-08-29 Mention North Korea to people today and they will conjure up many unflattering images particularly in the wake of George W Bush denouncing the state as part of an axis of evil Despite this cold war type rhetoric the state of North Korea has begun to recognise the difficult challenges that it faces and is now trying to get to grips with them systematically This book brings together a selection of many of the world experts on the North Korean economy and covers such important issues as possible unification with South Korea the significance of China's economic success Europe and the United States roles in North Korea North Korea in the World Economy provides an accessible well written and comprehensive account of this unique country and its economy It will be extremely interesting not only for students and academics with an interest in Korean studies international finance and transition economies but also for anyone with an

interest in international economics      **Avoiding the Apocalypse** Marcus Noland, 2000-06-01 On the Korean peninsula one of the greatest success stories of the postwar era confronts a famine ridden and possibly nuclear armed totalitarian state The stakes are extraordinarily high for both North and South Korea and for countries such as the United States that have a direct stake in these affairs This study the most comprehensive volume to date on the subject examines the current situation in the two Koreas in terms of three major crises the nuclear confrontation between the United States and North Korea the North Korean famine and the South Korean financial crisis The future of the peninsula is then explored under three alternative scenarios successful reform in North Korea collapse and absorption as happened in Germany and muddling through in which North Korea supported by foreign powers makes ad hoc regime preserving reforms that fall short of fundamental transformation      Basic Reading on Korean Unification Huh Moon Young, Cha Moon Seok, Jeong Young Tai, Jung Hyun Soo, Kang Gu Sup, Kwon Oh Kook, Kwon Young Kyong, Park Jong Chul, Son Gi Woong, Yeo In Kon, Korea Institute for National Unification (South Korea), 2013-04-10 Education to Strengthen our Capabilities for Peaceful Unification The 20th century was an era of extremes that was marked by several ideological confrontations and wars It was a long age of persecution and patience especially on the part of the Koreans Nevertheless the ideology that drove the world into chaos and the leaders who led the hostile inter Korean relations are now fading from the center stage of history On December 17 2011 Kim Jong Il died after ruling North Korea with blood and iron politics for 37 years The global community is now expecting significant changes within the North Korean regime the relations between the two Koreas and the East Asian order The year 2015 will mark the 70th anniversary of the Korean division which occurred in three overlapping phases territorial regime and emotional The first phase territorial division was introduced on August 15 1945 when Soviet and U S forces divided the peninsula along the 38th parallel The second phase regime sovereignty division was established with the formation of two separate governments on the Korean Peninsula the Republic of Korea ROK was founded on August 15 1948 and the Democratic People's Republic of Korea DPRK was established on September 9 1948 The division was finalized as it reached the third phase emotional division of people following the North Korean invasion of the South on June 25 1950 and the subsequent three year fratricidal war Are we prepared to undertake unification and maintain peace on the Korean Peninsula This issue is not only a national one that North and South Korea should resolve on their own but it is also an international issue in which the interests of four relevant countries nations the U S China Japan and Russia are at stake For this reason peaceful unification requires the proper environment capability and will from all parties For the time being we lack all three elements as there are multiple levels of discord In the global environment competition is emerging between the hegemonic power in naval warfare the U S and the leading power in ground warfare China Within the Korean Peninsula there is increased distrust due to North Korea's provocative actions including two nuclear tests the sinking of a South Korean naval ship and the shelling of a South Korean island There is discord even within South Korean society ideological conflicts between the conservatives and liberals regional

confrontation between the southeastern and southwestern regions generation gaps resulting from a rapid transition to an information oriented society and class conflicts that have emerged from neo liberalism and the collapse of the middle class

Then What are the steps that we should take to make way for peaceful unification We must first properly prioritize the issues at hand The top priority should be given to national harmony then international cooperation and finally rapprochement on the Korean Peninsula This is attributed to the fact that South Korean society characterized by internal organization and preparedness is the cornerstone of a peaceful unification consequently public education on unification is crucial Despite the progress made thus far unification education still has some shortcomings Until this point in time education on unification has strengthened a negative image of the North Korean situation leading to arguments for the deferral of national unification and an increased number of people against it Governmental programs that were intended to promote unification policies have also taken a passive or even a critical approach on the issue due to its controversial nature I would like to acknowledge that although multiple researchers compiled this book after much discussion and thorough review it still has some shortcomings that will be address in the next edition Finally I d like to express my deepest gratitude to the National Unification Advisory Council and the Unification Education Council for providing the videos and resources for our research

A Troubled Peace  
Chae-Jin Lee,2006-03-17 In A Troubled Peace Professor Chae Jin Lee reviews the vicissitudes of U S policy toward South and North Korea since 1948 when rival regimes were installed on the Korean peninsula He explains the continuously changing nature of U S Korea relations by discussing the goals the United States has sought for Korea the ways in which these goals have been articulated and the methods used to implement them Using a careful analysis of declassified diplomatic documents primary materials in English Korean Japanese and Chinese and extensive interviews with American and Korean officials Lee draws attention to a number of factors that have affected U S policy the functions of U S security policy in Korea the role of the United States in South Korea s political democratization President Clinton s policy of constructive engagement toward North Korea President Bush s hegemonic policy toward North Korea and the hexagonal linkages among the United States China Japan Russia and the two Koreas Drawing on concepts of containment deterrence engagement preemption and appeasement Lee s balanced and thoughtful approach reveals the frustrations of all players in their attempts to arrive at a modicum of coexistence His objective comprehensive and definitive study reveals a dynamic and incredibly complex series of relationships underpinning a troubled and tenuous peace
