**Unification** International Monetary Fund,1990-12-04 This paper discusses comparison of economic and social indicators in the year 1988 between Federal Republic of Germany FRG and German Democratic Republic GDR The budgetary costs of unification will be substantially larger than initially envisaged Moreover if one adds to the budget the increases in government debt related to equalization paper a portion of the old enterprise debt on the books of the banks The Trust Fund has been assigned a task of enormous scope and complexity the privatization restructuring and in some cases liquidation of 8000 enterprises with 4 million employees Even taking care of the short run financial problems of these enterprises has proved daunting the more fundamental task will be near impossible to achieve with any rapidity It is clearly essential to the success of economic integration that capital allow east rather than labor flowing west and that income growth and new opportunities are enough to meet reasonable aspirations on the part of the residents of East Germany **Truth** ,1902
