Germany And The European Community

G. Hellmann

Germany And The European Community:

West Germany and the European Community Werner J. Feld, 1981 **The Federal Republic of Germany and the European Community (RLE: German Politics)** Simon Bulmer, William Paterson, 2014-12-17 Originally published in 1987 this book examines German governmental policy from 1969 1986 and explains this in terms of the political economic and administrative dynamics of the then Federal Republic The study includes analysis of the attitudes and the role of West German interest groups political parties public opinion the legislature and the federal states regarding European policy The book is based on extensive interviews as well as the authors familiarity with the institutions and key players involved It will appeal to students of German politics the EU and international relations Germany and the European Union Simon Bulmer, William E. Paterson, 2018-11-08 Winner of the UACES Best Book Prize 2020 The jury commented It is impossible to study or understand European integration without understanding Germany's role and place in this This book is therefore a must read This new textbook offers a path breaking interpretation of the role of the European Union's most important member state Germany Analyzing Germany's domestic politics European policy relations with partners and the resultant expressions of power within the EU the text addresses such key questions as whether Germany is becoming Europe's hegemon and if Berlin's European policy is being constrained by its internal politics The authors both leading scholars in the field situate these questions in their historical context and bring the subject up to date by considering the centrality of Germany to the liberal order of the EU over the last turbulent decade in relation to events including the Eurozone crisis and the 2017 German federal election This is the first comprehensive and accessible guide to a fascinating relationship that considers both the German impact on the EU and the EU's impact on Germany This book is the ideal companion for undergraduate and postgraduate students who are studying the European Union or German Politics from the perspectives of disciplines as wide ranging as Politics European Union Studies Area Studies Economics Business and History It is also an essential resource for all those studying or practicing EU policy making and communication Tamed Power Peter J. Katzenstein, 1997 Although Germany is larger than any other member of the European Union and plays a crucial role in the economic and political life of Eastern Europe its power is now funneled through the institutions of the European Union rather than erupting in a narrow power defined sense of national self interest Germany and the European Union Simon Bulmer, William E. Paterson, 2018-11-08 Winner of the UACES Best Book Prize 2020 The jury commented It is impossible to study or understand European integration without understanding Germany's role and place in this This book is therefore a must read This new textbook offers a path breaking interpretation of the role of the European Union's most important member state Germany Analyzing Germany's domestic politics European policy relations with partners and the resultant expressions of power within the EU the text addresses such key questions as whether Germany is becoming Europe's hegemon and if Berlin's European policy is being constrained by its internal politics The authors both leading scholars in the

field situate these questions in their historical context and bring the subject up to date by considering the centrality of Germany to the liberal order of the EU over the last turbulent decade in relation to events including the Eurozone crisis and the 2017 German federal election This is the first comprehensive and accessible guide to a fascinating relationship that considers both the German impact on the EU and the EU's impact on Germany This book is the ideal companion for undergraduate and postgraduate students who are studying the European Union or German Politics from the perspectives of disciplines as wide ranging as Politics European Union Studies Area Studies Economics Business and History It is also an essential resource for all those studying or practicing EU policy making and communication *Germany and East-Central Europe* Steve Wood, 2017-11-28 This innovative volume analyzes historical strategic and domestic political influences on the character and dynamics of the European Union's eastern enlargement Its main focus is on interactions between Germany Poland the Czech Republic and Hungary in political diplomatic commercial economic and socio cultural fields The book also examines the wider European and international contexts to show that as enlargement advanced we also witnessed an increase in the potential for conflict among EU members old and new Steve Wood provides an eclectic and topical appraisal which identifies the German state as the crucial actor in both the enlargement venture and parallel processes of bilateral reconciliation The book is recommended to those with interests in contemporary Germany Central and Eastern Europe and European integration German Unification and the Union of Europe Jeffrey J. Anderson, 1999-06-10 This book explores the effects of Germany's unification in 1990 on its policies toward the European Union **Germany and the European Union** Gisela Müller-Brandeck-Bocquet, 2022-10-26 This book aims to present a coherent picture of Germany's European policy during Merkel's chancellorship At the same time it traces the development of the EU in the period 2005-2021 Accordingly the European crises and the internal and external threats to the integration community are addressed as well as the jointly developed solutions Thus on the one hand the book shows what Germany was willing to do for Europe on the other it reveals how the EU was able to develop further as the most important point of reference for German politics and power *France, Germany and the European Union* Aparajita Endow, 2003 The 1980s And 1990s Witnessed Some Spectacular Events In Europe Changing The Geopolitical Landscape Of The Continent The EU On The Other Hand Was Progressively Becoming A Dominant Political And Economic Force Reaffirming Its Stance As The Most Successful Example Of Regional Integration The Fact That The Franco-German Core Has Been The Main Driving Force Behind The EU This Book Critically Examines The Nature And Dynamics Of Franco-German Role In The 1990s In Conditioning The Scope And Content Of European Integration This Book Will Be Of Interest To All Those Involved In International Studies Matters Of Regional Integration And Also European Union Studies Germany and the Common Foreign and Security Policy of the European Union A. Miskimmon, 2007-09-20 This study assesses the influence of German policy makers on EU policy and the impact of EU membership on foreign policy making at the national level The book concludes that limitations remain on the

Europeanization of German foreign and security policy and Germany's ability to play a leading role in military crisis management Germany's EU Policy on Asylum and Defence G. Hellmann, 2006-05-26 Integrating insights from foreign policy analysis integration theory and social theory and providing an in depth analysis of both refugee and security policy the book develops an innovative framework for analysis that is capable of accounting for an incremental de Europeanization in Germany's EU policy **Handbook of Agri-Food Law in China, Germany, European Union** Ines Härtel, 2018-01-09 This book offers a new and differentiated overview of Agri Food Law against the background of national and global integration of markets and compares for the first time important aspects of the agricultural environmental and food law of China and Germany the European Union In addition to the basics it discusses a wide range of issues such as the respective legal regulatory structures for food security food safety geographical indications of origin climate protection fertilizers plant protection products genetic engineering water protection soil protection land resources and organic farming In addition it addresses key environmental impacts and developments in order to create integrated value chains The increasing fusion of upstream and downstream areas is becoming apparent from primary production to the refinement and trade up level and even to consumption Agri Food Law is now productively taking these important developments into account with regard to the aforementioned countries Britain, Germany and the Future of the European Union C. Schweiger, 2006-11-28 Schweiger outlines the changes in British and German European policies which have been characteristic of a process of normalization in both countries Schweiger examines possible areas for cooperation between Britain and Germany on major European issues and the significance that such a working partnership could have within the enlarged EU Poland and Germany in the European Union Elżbieta Opilowska, Monika Sus, 2021-03-19 This book explores the political and social dynamics of the bilateral relations between Germany and Poland at the national and subnational levels taking into account the supranational dynamics across such different policy areas as trade foreign and security policy energy fiscal issues health and social policy migration and local governance By studying the impact of the three explanatory categories the historical legacy interdependence and asymmetry on the bilateral relationship the book explores the patterns of cooperation and identifies the driving forces and hindering factors of the bilateral relationship Covering the Polish German relationship since 2004 it demonstrates in a systematic way that it does not qualify as embedded bilateralism The relationship remains historically burdened and asymmetric and thus it is not resilient to crises This book will be of key interest to scholars and students of European and EU Politics German politics East Central European Politics borderlands studies and more broadly for international relations history and sociology **Germany and the European Community** Carl F. Lankowski, 1994 The end of the Cold War brought the collapse of the Soviet Union and the unification of the two German states This book sees Germany as the most powerful state in the continent and asks will Germany inevitably create a Germanized Europe The answer given by the essays in this volume is that the forces within the EC have created a framework which is too powerful to

be overawed by one member however strong The essays emphasize the dilution of national sovereignty that EC mechanisms have produced The areas the essays cover include the relationship between Germany and the European Monetary System and political networks and European networks

The Member States of the European Union Simon Bulmer, Christian Lequesne, 2013 This is a comprehensive and rounded thematic study of the EU member states The text provides detailed coverage of the principal member states and comparative studies of the smaller states as well as discussing the issue of enlargement and covering empirical themes

Germany, Europe, and the Politics of Constraint Klaus Goetz, Kenneth Dyson, 2003-10-16 These essays examine the Europeanization of the political system of the Federal Republic of Germany across the polity politics and public policy dimensions The book's 17 chapters focus on three key themes the challenge to the power of Germany to determine the course of the integrationist project and to shape European public policies the increasing constraints in the domestic political arena associated with Europeanization and domestic contestation over both the constitutive politics of the EU and specific policy choices This volume is essential reading for students of comparative European politics and German studies

Germany's Role in European Russia Policy Liana Fix, 2021-04-24 This book contributes to the debate about a new German power in Europe with an analysis of Germany's role in European Russia policy It provides an up to date account of Germany's Ostpolitik and how Germany has influenced EU Russia relations since the Eastern enlargement in 2004 partly along partly against the interests and preferences of new member states The volume combines a rich empirical analysis of Russia policy with a theory based perspective on Germany's power and influence in the EU The findings demonstrate that despite Germany's central role exercising power within the EU is dependent on legitimacy and acceptance by other member states

Western Europe in Transition Paul Michael Lützeler, 1986

Germany's European Diplomacy Simon Bulmer, Charlie Jeffery, William E. Paterson, 2000 The way Germany engages with the other states of the EU is often oversimplified and misunderstood This book offers a nuanced analysis of the German role in the EU using a novel approach which identifies German influence in the EU in terms of soft power Rather than pursuing interests at the expense of other states this book focuses on the creation of a milieu of multilateral cooperation in which Germany's diplomatic interests can flourish
