Vine, 2021-03-01 Larrikins Rebels and Journalistic Freedom is a cultural history of Australian journalism In a democratic nation where a free news media is not guaranteed Australian journalism has inherited what could be described as a Larrikin tradition to protect its independence This book mines Australian journalism's rebelliousness humor and distinct disrespect for authority in various socio historical contexts to explore its determination to maintain professional independence Beginning with a Larrikin analysis of Australian journalism's inherited Enlightenment tradition Dr Josie Vine takes the reader through the Colonial era's hardships Federation two World Wars the Cold War's fear and suspicion the swinging sixties a

Prime Minister's dismissal 1980's neo liberalism post 9/11 and finally provides a conclusive synthesis of current Australian journalism culture Throughout the book highlights the audacious iconoclastic and determined figure of the Larrikin journalist forever pushing boundaries to protect democracy's cornerstone freedom of the news media Book length histories of Australian journalism are still relatively rare but what makes this new arrival particularly welcome is the way in which it is structured around an exploration of the Larrikin paradox This refers to the fact that although Australian journalism may profess to be professional and reputable it can also be raucous unruly and disrespectful in pursuit of what it sees as its democratic purposes The Larrikin may be a uniquely Australian figure but the paradox is far from confined to Australian journalism not least because of the influence of erstwhile Australian Rupert Murdoch on journalism in the Anglosphere and this book should be of considerable interest to those concerned with the means whereby journalism performs its democratic Fourth Estate role in modern democracies This is an extremely very well informed and highly insightful work which ought to appeal equally to those interested in journalism and in Australian politics Julian Petley Professor Brunel University London UK

Legacies of Violence Robert Mason, 2016-12-01 Whether in the form of warfare dispossession forced migration or social prejudice Australia's sense of nationhood was born from and continues to be defined by experiences of violence Legacies of Violence probes this brutal legacy through case studies that range from the colonial frontier to modern domestic spaces exploring themes of empathy isolation and Australians' imagined place in the world Moving beyond the primacy that is typically accorded white accounts of violence contributors place particular emphasis on the experiences of those perceived to be on the social periphery repositioning them at the center of Australia's relationship to global events and debates

Shadows on the Track Jan McLeod, 2019-01-05 At Templeton's Crossing in October 1942 Private Nick Kennedy paused to write in his diary One wonders why all this strife should be these men in the prime of their life cut down like flowers As a young nursing orderly serving with the 24th Australian Field Ambulance Kennedy was unenviably well placed to reflect on the futility of war The Australian Army was woefully unprepared to fight a medical war in Papua and the soldiers paid the price Almost 30 000 soldiers suffered from illness and tropical diseases and an estimated 6000 were killed or wounded during the six month campaign These statistics have traditionally been represented as unavoidable consequences of fighting a war in a place such as Papua This book disputes that narrative Death and disease were inevitable outcomes but the scale of the suffering was not The medical challenges presented in Papua were extreme they were not insurmountable Shadows on the Track considers a wide range of issues that impacted on the health of the Australian soldiers before during and after the Papuan campaign was fought and won The strengths successes shortcomings and failures of the medical campaign are identified analysed and evaluated The focus on the front line medical personnel the men of the field ambulance units brings a new perspective to the battles of the Kokoda Track Milne Bay and the Beachheads Shining a light on these Australians who tended the sick mended the wounded and buried the dead in Papua makes stepping out of the shadows a little easier

Shelf Life Kim Humphery, 1998-07-27 Supermarkets in all their everyday mundanity embody something of the enormous complexity of living and consuming in late twentieth century western societies Shelf Life first published in 1998 explores the supermarket as a retail space and as an arena of everyday consumption in Australia It historically situates and critically discusses the everyday food products we buy the retail environments in which we do so the attitudes of the retailers who construct such environments and the diverse ways in which all of us undertake and think about supermarket shopping Yet this book is more than narrative history It engages with broader issues of the nature of Australian modernity the globalisation of retail forms the connection between consumption and self autonomy and the highly gendered nature of retailing and shopping It interrogates also the work of cultural critics and questions recent attempts to grasp what it means to consume and to be a consumer

Pilgrim JFK Miller, 2022-08-01 To walk the Kokoda Track is to undertake two journeys The first starts at Owers Corner and undulates through 96 kilometres of primary jungle over the Owen Stanley Range until you reach the village of Kokoda on the other side This journey is ordinarily taken in the company of others and with a backpack which you may hire a porter to carry for you if you wish The second journey began the moment you were born It brings to the track baggage of a different kind This you must carry yourself and the journey you must make alone So begins JFK Miller s account of his ten day jungle trek along Papua New Guinea s Kokoda Track The journey was effectively two journeys The external journey was the physical ten day trek over the track The internal journey was the emotional aspect including what Miller brought to the experience the mental illness of depression and what he gained from it

Matthew Flinders, Maritime Explorer of Australia Kenneth Morgan, 2016-03-24 This book provides a thoroughly researched biography of the naval career of Matthew Flinders with particular emphasis on his importance for the maritime discovery of Australia Sailing in the wake of the 18th century voyages of exploration by Captain Cook and others Flinders was the first naval commander to circumnavigate Australia s coastline He contributed more to the mapping and naming of places in Australia than virtually any other single person His voyage to Australia on H M S Investigator expanded the scope of imperial geographical and scientific knowledge This biography places Flinders s career within the

context of Pacific exploration and the early white settlement of Australia Flinders's connections with other explorers his use of patronage the dissemination of his findings and his posthumous reputation are also discussed in what is an important new scholarly work in the field Suburban Space, the Novel and Australian Modernity Brigid Rooney, 2018-11-15 Suburban Space the Novel and Australian Modernity investigates the interaction between suburbs and suburbia in a century long series of Australian novels It puts the often trenchantly anti suburban rhetoric of fiction in dialogue with its evocative and imaginative rendering of suburban place and time Suburban Space the Novel and Australian Modernity rethinks existing cultural debates about suburbia in Australia and elsewhere by putting novelistic representations of suburbs suburban interiors homes streets forms and lives over time in dialogue with the often negative idea of suburbia in fiction as an amnesic and conformist cultural wasteland Suburban space the novel and Australian modernity shows in other words how Australian novels dramatize the collision between the sensory terrain of the remembered suburb and the cultural critique of suburbia It is through such contradictions that novels create resonant mental maps of place and time Australian novels are a prism through which suburbs as sites of everyday colonization defined by successive waves of urban development are able to be glimpsed sidelong **Black Founders** Cassandra Pybus, 2006 Black Founders changes the way we think about the foundation of Australia In an evocative and compelling narrative distinguished historian and prize winning author Cassandra Pybus reveals how the settlement of Australia was a multi racial process from the outset Pybus has uncovered that our black founders were originally slaves from America who sought freedom with the British during the American Revolution only to find themselves abandoned and unemployed in England once the war was over BOOK JACKET
