**German Phrasebook** Franziska Buck, Anke Munderloh, 1997 Joining Lonely Planet's popular line of easy to use foreign language phrasebooks is German Presented in a logical thoughtful format with hints on pronunciation and grammar this phrasebook also covers Swiss and Austrian dialects and features a special section on how to remember vocabulary plus a quick find listing of key words and phrases *Pittsburgh Remembers World War II* Dr. Joseph F. Rishel, 2011-07-21

Enormous sacrifice on the battlefields and tireless effort on the homefront Pittsburgh answered the call to duty after the news of Pearl Harbor hit local airwaves that infamous afternoon With its high enlistment rates and booming war industries the city was instrumental in the Allied victory Duquesne University professor Joseph F Rishel has compiled the memories of seventeen residents who lived through the war years from GIs serving overseas to real life Rosie the Riveters who kept the mills and factories in operation From stories of daring in all theaters of combat and hardships at home to recollections of schoolchildren collecting scrap metal USO dances and wartime sweethearts Pittsburgh Remembers World War II celebrates the city's perseverance and patriotism INSCOM Journal, 1995 *Forthcoming Books* Rose Arny, 1997 *Lesser-Known Languages of South Asia* Anju Saxena, Lars Borin, 2008-08-22 The increasing globalization and centralization in the world is threatening the existence of a large number of smaller languages In South Asia some locally dominant languages e.g Hindi Urdu Nepali are gaining ground beside English at the expense of the lesser known languages Despite a long history of stable

multilingualism language death is not uncommon in the South Asian context We do not know how the language situation in South Asia will be affected by modern information and communication technologies Will cultural and linguistic diversity be strengthened or weakened as they become increasingly prevalent in all walks of life This volume brings together areas of research that so far do not interact to any significant extent traditional South Asian descriptive linguistics and sociolinguistics documentary linguistics issues of intellectual and cultural property and fieldwork ethics and language technology Researchers working in the areas of documentary linguistics and language technology have become aware of each other in the last few years and of how work in the other area could be potentially useful in furthering their own aims Similarly the insights of documentary linguistics are making their way into descriptive linguistics and sociolinguistics However the potential for synergy among these areas of research is almost limitless This volume provides the reader not so much with a do it yourself recipe for applying modern technology to the problem of language shift in South Asia today but rather with some basic knowledge about the problems involved and some directions from which solutions could be forthcoming a toolbox rather than a blueprint for helping to shape the linguistic future of South Asia

**Learning English and Chinese**

**as Foreign Languages** Wen-Chuan Lin, 2019-09-19 Learning English and Chinese is becoming increasingly important to the prospects of young people This book compares English as a Foreign Language teaching in Taiwan with Chinese as a Foreign Language education in England in order to highlight how classroom activities are embedded within multiple settings including ethnic or other social group cultures family and community resources and school visions or goals The book illustrates how in Taiwan different ethnic groups recognise access and value English language learning to varying extents Its findings illuminate why some ethnic groups are highly motivated to learn English and are able to gain privileged economic positions in the job market In England access to Chinese is marked by social class and the book argues that this could augment an educational apartheid that already exists in language teaching in secondary schools thereby exacerbating existing inequality
