German Trauma Experiences And Reflections 1938 To 2001:

The German Trauma Gitta Sereny, 2001-09-06 Gitta Sereny is one of the world's most respected journalists and historians. This book gathers together the best of her writing on Germany from over sixty years. It amounts to an extraordinary portrait of the country and its people, how they have come to terms with their Nazi past both collectively and in specific instances, and how the burden of their guilt has altered the national identity. She writes about key individuals: Stangl, Speer, and the questions which their lives raise. The penetration and conviction of her writing throughout is startling, and she constantly reminds us why it is important to consider the questions she addresses: war guilt, Holocaust denial, and the temptations of obedience. **The German Trauma** Gitta Sereny, 2000

Law, Memory, and the Legacy of Apartheid Wessel Le Roux, Karin Van Marle, 2007

The Buchenwald Child William John Niven, 2007 At the notorious Buchenwald concentration camp, communist prisoners organized resistance against the SS and even planned an uprising. They helped rescue a three-year-old Jewish boy, Stefan Jerzy Zweig, from certain death in the gas chambers. After the war, his story became a focus for the German Democratic Republic's celebration of its resistance to the Nazis. Now Bill Niven tells the true story of Stefan Zweig: what actually happened to him in Buchenwald, how he was protected, and at what price. He explores the misrepresentation of Zweig's rescue in East Germany and what this reveals about that country's understanding of its Nazi past. Finally, he looks at the telling of the Zweig rescue story since German unification: a story told in the GDR to praise communists has become a story used to condemn them. Bill Niven is Professor of Contemporary German History at the Nottingham Trent University, UK.

On Perfection Jo Longhurst, 2013-01-01 Based on a 2012 symposium on Perfection held at the Whitechapel Gallery in East London, this book explores the ways in which artists engage with ideas of perfection, drawing on screenings, performances, and discussions. The symposium featured the work of an eclectic group of artists and writers who use photographic lenses of many kinds to create works that engage with or disrupt ideas of perfection. Framed from an artist's perspective and spanning a diverse range of artworks that question how these ideas shape our personal identities and our social and political systems, *On Perfection* considers the multifaceted nature of lens-based practices.

The Undercurrents Kirsty Bell, 2022-09-06 Humane, thought-provoking, and moving, this hybrid literary portrait of a place makes the case for radical close readings of ourselves, our cities, and our histories. *The Undercurrents* is a dazzling work of biography, memoir, and cultural criticism, told from a precise vantage point: a stately nineteenth-century house on Berlin's Landwehr Canal, a site at the center of great historical changes but also smaller domestic ones. The view from this house offers a ringside seat onto the city's theater of action. The building has stood on the banks of the canal since 1869, its feet in the West but looking East, right into the heart of a metropolis in the making, on a terrain inscribed indelibly with trauma. When her marriage breaks down, Kirsty Bell, a British American art critic adrift in her midforties, becomes fixated on the history of her building and of her adoptive city. Taking the view from her apartment window as her starting point, she turns to

the lives of the house's various inhabitants to accounts penned by Walter Benjamin, Rosa Luxemburg and Gabriele Tergit and to the female protagonists in the works of Theodor Fontane, Irmgard Keun and Rainer Werner Fassbinder. A new cultural topography of Berlin emerges, one which taps into energetic undercurrents to recover untold or forgotten stories beneath the city's familiar narratives.

Freedom James Walvin, 2019-09-03 In this timely and readable new work, Walvin focuses not on abolitionism or the brutality of slavery but the resistance of the enslaved themselves from sabotage and absconding to full blown uprisings and its impact in overthrowing slavery. Following Columbus's landfall, slavery became a critical institution across the New World. It had seismic consequences for Africa while leading to the transformation of the Americas and to the material enrichment of the West. It was also largely unquestioned. Yet within seventy-five years, slavery vanished from the Americas; it declined and collapsed by a complexity of forces that to this day remains disputed, but there is no doubting that it was in large part defeated by those it had enslaved. Slavery itself came in many shapes and sizes. It is perhaps best remembered on plantations but slavery varied enormously by crop: sugar, tobacco, rice, coffee, cotton, and there was enslaved labor on ships and docks, in factories and the frontier as well domestically. But if all these millions of diverse enslaved people had one thing in common, it was a universal detestation of their bondage. The end of slavery and the triumph of black freedom constitutes an extraordinary historical upheaval, one which still resonates throughout the world today.

The Buchenwald

Child Bill Niven, **A Jew Who Defeated Nazism** Ainslie Hepburn, 2022-03-18 Herbert Sulzbach 1894-1985 was an influential figure in Britain and Germany who made a remarkable personal contribution to Anglo-German reconciliation following the Second World War. Working with German prisoners of war in Britain in camps that included fanatical Nazis, he guided men of all ranks, including senior officers, to personal, educational and cultural achievements in preparation for peace and reconciliation. This graphic and moving account of an untold story shows where reconciliation and a new Germany were fostered. It is also a personal and family story and a microcosm of European history. Sulzbach was from an elite German Jewish banking family and educated in the ideals of the German Enlightenment. In the First World War, he served as a front-line artillery officer with the German Imperial Army. Defeat was a shattering disappointment and the economic depression ruined his business and the family banking fortunes. Sulzbach's life in Berlin with his artistic wife Beate was cushioned by wealth and the cultural life of the city, but National Socialism brought this to an end and he fled with Beate to exile in England where they were interned as enemy aliens. On release, Sulzbach served with the British army and found his calling as an interpreter and educator in POW camps where his work of denazification and re-education paved the way to reconciliation.

Reluctant Meister Stephen Green, 2014-11-15 The Euro crisis has served as a stark reminder of the fundamental importance of Germany to the larger European project But the image of Germany as the dominant power in Europe is at odds with much of its recent history Reluctant Meister is a wide ranging study of Germany from the Holy Roman Empire through the Second and Third Reichs and it asks not only how such a mature and developed culture could have descended into the barbarism of Nazism but how it then rebuilt itself within a generation to become an economic powerhouse Perhaps most important Stephen Green examines to what extent Germany will come to dominate its relationship with its neighbors in the European Union and what that will mean

Ripping England! Roger Rawlings, 2017-12-04 Examines an all too often neglected period of postwar British cinema and popular culture Ripping England investigates a fertile moment for British satire the period between 1947 and 1953 which produced the films Passport to Pimlico Kind Hearts and Coronets and The Lavender Hill Mob as well as the seminal radio program The Goon Show Against the postwar background of fading empire universal rationing and the implementation of a welfare state these satires laid the foundation for a new British cultural identity later fleshed out by the Angry Young Men the Movement poets the Social Realists and those involved in the satire boom of the 1960s which lives on even to this day The peculiarity of these satires and the British identity they shaped is better understood when seen in relief against postwar cinematic cultures of Italy France and the United States Roger Rawlings places postwar British film in the context of contemporaneous European national film movements and contrasts it with Hollywood's comedies and satires of the same period British satires of the late forties and early fifties held up a mirror to a nation that was in the throes of change moving from a colonial empire to an inward turning island culture Ripping England looks at the all too often neglected miracle of postwar British cinema and popular culture

West Germans and the Nazi Legacy Caroline Sharples, 2011-12-21 This book constitutes a new history of the complex memory cultures that persisted within post war West Germany examining the attitudes of ordinary people to the second wave of Nazi war crimes trials ushered in during the 1960s It explores responses to the prospect of continuing investigations the reception afforded to the defendants and the sheer resonance that such proceedings could generate within a local community

Drawing upon case studies from across the Federal Republic it bridges a gap between the current historiography and localised memory studies and analyses of war crimes trials Far from viewing the 1960s as an uncomplicated decade of change this book emphasises the range of voices that were competing to make themselves heard during this period whether they came from survivors groups crusading journalists and students or from former prisoners of war veterans organisations and the war widowed This diversity of opinion and experience enabled the persistence of silences distortions and mythologies that could afford some level of distance to be imposed between the perpetrators of the Nazi genocide and the ordinary West German population The process of coming to terms with the past was thus complicated and protracted England after the Great Recession P. W. Preston, 2011-11-03 An exploration of the recent financial crisis which argues that the hitherto dominant intellectual and policy paradigm of neo liberalism has been fatally weakened and will in due course be replaced The implications of the crisis for politico cultural identities and our sense of ourselves as members of an ordered society are explored
