Myths of Termination Judy Leopold Kantrowitz, 2014-07-25 Psychoanalysis can make a huge difference in the lives of patients their families and others they encounter Myths have developed however about how psychoanalysis should end what patients experience and what analysts do These expectations come primarily from accounts by analysts in the analytic literature which are often perpetuated in an oversimplified form in teaching Patients perspectives are rarely presented In her book Judy Leopold Kantrowitz seeks to address this omission Exploring the accounts of 82 former analysands she illustrates the rich diversity of psychoanalytic endings and ways of maintaining analytic benefits after ending in presenting patients experiences Kantrowitz provides correctives for some myths about termination Myths of termination What patients can teach psychoanalysts about endings is not a book that seeks to refute or support any specific idea about a best way of ending analysis but rather to show that there are countless ways of having a satisfactory conclusion to the process Nor is the author espousing any particular analytic theory Kantrowitz sets out to show that an oversimplified view of psychoanalytic endings not only diminishes an appreciation of the diversity of psychoanalytic outcomes but may also interfere with the creativity of individual psychoanalysts In this book former analysands describe and illustrate how their analyses ended They reflect on the effect of non mutual endings due to external factors moving retirement illness or death or psychological factors wishing to avoid facing some issue the impact of post analytic contact and the ways in which they have held on to their analytic benefits after ending their analyses Myths of termination confronts and refutes the myths about the termination phase of psychoanalysis that are passed from generation to generation It is a refreshing and insightful study that will be welcomed by psychoanalysts psychodynamic therapists such as clinical psychologists social workers and others trained or in training to do clinical work

Manual of Regulation-Focused Psychotherapy for Children (RFP-C) with Externalizing Behaviors Leon Hoffman, Timothy Rice, Tracy Prout, 2015-09-25 Manual of Regulation Focused Psychotherapy for Children RFP C with Externalizing Behaviors A Psychodynamic Approach offers a new short term psychotherapeutic approach to working dynamically with children who suffer from irritability oppositional defiance and disruptiveness RFP C enables clinicians to help by addressing and detailing how the child s externalizing behaviors have meaning which they can convey to the child Using clinical examples throughout Hoffman Rice and Prout demonstrate that in many dysregulated children RFP C can Achieve symptomatic improvement and developmental maturation as a result of gains in the ability to tolerate and metabolize painful emotions by addressing the crucial underlying emotional component Diminish the child s use of aggression as the main coping device by allowing painful emotions to be mastered more effectively Help to systematically address avoidance mechanisms talking to the child about how their disruptive behavior helps them avoid painful emotions Facilitate development of an awareness that painful emotions do not have to be so vigorously warded off allowing the child to reach this implicit awareness within the

relationship with the clinician which can then be expanded to life situations at home and at school This handbook is the first to provide a manualized short term dynamic approach to the externalizing behaviors of childhood offering organizing framework and detailed descriptions of the processes involved in RFP C Supplying clinicians with a systematic individual psychotherapy as an alternative or complement to PMT CBT and psychotropic medication it also shifts focus away from simply helping parents manage their children s misbehaviors Significantly the approach shows that clinical work with these children is compatible with understanding the children s brain functioning and posits that contemporary affect oriented conceptualizations of defense mechanisms are theoretically similar to the neuroscience construct of implicit emotion regulation promoting an interface between psychodynamics and contemporary academic psychiatry and psychology Manual of Regulation Focused Psychotherapy for Children RFP C with Externalizing Behaviors A Psychodynamic Approach is a comprehensive tool capable of application at all levels of professional training offering a new approach for psychoanalysts child and adolescent counselors psychotherapists and mental health clinicians in fields including social work psychology and psychiatry
