*Elsevier's Dictionary of Civil Engineering* K. P. Bhatnagar, 1988-01-01      *Elsevier's Dictionary of Civil Engineering in English, German, Spanish and French* M. F. Gutierrez, 1991-01-01      **Information Sources in Engineering** Roderick A. Macleod, Jim Corlett, 2012-04-17

The current thoroughly revised and updated edition of this approved title evaluates information sources in the field of technology. It provides the reader not only with information of primary and secondary sources but also analyses the details of information from all the important technical fields including environmental technology, biotechnology, aviation and defence, nanotechnology, industrial design, material science, security and health care in the workplace as well as aspects of the fields of chemistry, electro technology and mechanical engineering. The sources of information presented also contain publications available in printed and electronic form such as books, journals, electronic magazines, technical reports, dissertations, scientific reports, articles from conferences, meetings and symposiums, patents and patent information, technical standards, products, electronic full text services, abstract and indexing services, bibliographies, reviews, internet sources, reference works and publications of professional associations. *Information Sources in Engineering* is aimed at librarians and information scientists in technical fields as well as non professional information specialists who have to provide information about technical issues. Furthermore, this title is of great value to students and people with technical professions.

**Elsevier's Dictionary of Civil Engineering** Marcos Feliciano Gutiérrez, 1991. This dictionary is essentially a consulting work dedicated to professionals in civil engineering: translators, importers and exporters, technical schools, faculties of engineering and exact sciences, teachers and professors, master builders, construction foremen and specialists who deal with the important flow of information written in English, German, Spanish and French on a great variety of subjects related to civil engineering and support disciplines. The dictionary embraces subjects such as construction, foundation techniques, geology, cost control, water resources, equipment and service, earth compaction, submerged tunnels, water supply, tunnel lining, tunnelling methods, computers, crushing and screening plants, explosives in construction, cranes, pumped storage schemes, site power, site lighting, supercranes, nuclear power plant tunnels for energy, power tools, piped natural gas, hydro construction, construction of pipelines, building of powerhouses, energy conservation, pumps, water treatment, bridge construction, dump trucks, dewatering systems, ceramic industry, structural clay products, blade shields, underground engineering, machine plants, technology of piling, soil stabilisation, construction machinery, dams, barrages, irrigation schemes, geothermal reservoirs, power plants, underpressure engineering, pressurized gas lines, concrete, water pipelines, generating plants, industrial plants, air tools, girder cranes, permeable membrane and so on.
