The Unaccountability Machine Dan Davies,2025-04-04 Longlisted for the 2024 Financial Times Book of the Year How life and the economy became a black box a collection of systems no one understands producing outcomes no one likes Passengers get bumped from flights Phone menus disconnect Automated financial trades produce market collapse Of all the challenges in modern life some of the most vexing come from our relationships with automation a large system does us wrong and there s nothing we can do about it The problem economist Dan Davies shows is accountability sinks systems in which decisions are delegated to a complex rule book or set of standard procedures making it impossible to identify the source of mistakes when they happen In our increasingly
