Elusive Child:

The Elusive Child Lesley Caldwell, 2018-05-08 Fuelled by agitation and panic about paedophilia child abuse violence and neglect on the one side and by children as violent murderers and killers on the other there has been an explosion of concern regarding the place care treatment and life of Children in Europe and beyond This broad ranging and provocative collection of papers a volume in the Winnicott Studies Monograph Series focuses on all factors pertaining to the child and childhood including the role that psychoanalysis has to play The book offers a unique and fascinating understanding of developmental issues from early infancy through latency and into adolescence from various psychoanalytic approaches The papers written by experts in the field examine closely all aspects of this fascinating subject from Freud to Winnicott from neo natal care to adolescence The contributors take into account issues such as fostering and adoption vital scrutiny of the role of the family and presentation of children in the media while all the time asking the salient question What is a child

Scars and Wounds Nick Hodgkin, Amit Thakkar, 2017-06-14 This book examines recent cinematic representations of the traumatic legacies of national and international events and processes Whilst not ignoring European and Hollywood cinema it includes studies of films about countries which have been less well represented in cinematic trauma studies including Australia Rwanda Chile and Iran Each essay establishes national and international contexts that are relevant to the films considered All essays also deal with form whether this means the use of specific techniques to represent certain aspects of trauma or challenges to certain genre conventions to make them more adaptable to the traumatic legacies addressed by directors The editors argue that the healing processes associated with such legacies can helpfully be studied through the idiom of scar formation rather than event centred wound creation

Braving the Erotic Field in the Psychoanalytic Treatment of Children and Adolescents Mary Brady, 2022-03-17 Braving the Erotic Field in the Psychoanalytic Treatment of Adolescents and Children is a groundbreaking collection of chapters by an international group of analytic authors The book addresses the general lack of psychoanalytic writing on working with erotic feelings in the consulting room when treating children and adolescents This lack is doubly odd given Freud's emphasis on childhood sexuality as well as the intensities of the adolescent body mind This book takes the view that the subtle interchange of feelings dreams narratives and images that arise when erotic feelings are in the fore is better conceptualized as an erotic field than with the binary of transference countertransference In contemporary psychoanalysis the idea that transference love offers the possibility of knowing the other in the deepest possible way is supplanting an attitude of suspicion Clinical work with small children to late adolescents will be offered including gay and gender fluid adolescents This book makes a decisive contribution to assist clinicians to brave the erotic field with children and adolescents

Dacia Maraini's Narratives of Survival Tommasina Gabriele, 2015-12-03 Dacia Maraini's Narratives of Survival Re Constructed focuses on Dacia Maraini's narrative from about 1984 to 2004 and makes substantive use of her interviews and essays While acknowledging the importance and ongoing

Darkness fell over the land pressed there by the heavy iron hand of Spain and the Inquisition You are the key to all of this The FarSeer's emerald eyes held his The red haired child of Great Harry of England must live and thrive and grow up to rule You must go to it in the mortal world and become its protector But I am a warrior not a nursemaid he said feebly At the publisher's request this title is sold without DRM Digital Rights Management

Traumatic Experiences of Normal Development Carl H. Shubs, 2020-02-24 Traditionally trauma has been defined as negatively impacting external events with resulting damage This book puts forth an entirely different thesis trauma is universal occurring under even the best of circumstances and unavoidably sculpting the very building blocks of character structure In Traumatic Experiences of Normal Development Dr Carl Shubs depathologizes the experience of trauma by presenting a listening perspective which helps recognize the presence and effects of traumatic experiences of normal development TEND by using a reconstruction of object relations theory This outlook redefines trauma as the breach in intrapsychic organization of Self Affect and Other SAO the three components of object relations units which combine to form intricate and changeable constellations that are no less than the total experience of living in any given moment Bridging the gap between the trauma and analytic communities as well as integrating intrapsychic and relational frameworks the SAO TEND perspective provides a trauma based band of attunement for attending to all relational encounters including those occurring in therapy Though targeted to mental health professionals this book will help enable therapists and sophisticated lay readers alike to recognize the impact of relational

encounters providing new tools to understand the traumas we have experienced and to minimize the hold they have on us

Gemma Miller, 2020-04-16 Child characters feature more numerous and prominently in the Shakespearean canon than in that of any other early modern playwright Focusing on stage and film productions from the past four decades this study addresses how Shakespeare s child characters are reflected refracted and reinterpreted in performance By adopting an interdisciplinary approach that incorporates close reading semiotics childhood studies queer theory and performance studies Gemma Miller explores how a close analysis of Shakespeare s child characters both in the text and in performance can reveal often uncomfortable truths about contemporary ideas of childhood as well as offer fresh insights into the plays Among the works and productions analysed are stage productions of Richard III by Sean Holmes and Thomas Ostermeier Jamie Lloyd s and Michael Boyd s stage productions of Macbeth and the films of Roman Polanski and Justin Kurzel Deborah Warner s stage production of Titus Andronicus and filmed adaptations by Jane Howell and Julie Taymor and stage productions of The Winter s Tale by Nicholas Hytner and by Kenneth Branagh and Rob Ashford and the ballet adaptation by Christopher Wheeldon

[Civil Sociality](#) Sally Anderson, 2008-04-01 Sally Anderson s book on sport cultural policy and civil sociality in Denmark has been a long time in coming but it s well worth the wait Based on many years of familiarity with Danish society and countless

hours of intensive fieldwork Dr Anderson provides us with a unique anthropological perspective on the process by which state cultural policy actively engages civil society in a quest to shape social relations in the public sphere The particular domain of policy and social activity is nonschool voluntary sport in its various forms By definition of course such activity takes place outside the regular Danish school curriculum but it is not for this reason any less educational Indeed although it is very broadly attended and institutionalized perhaps because Danish after school sport is not compulsory it is all the more compelling for children and youth and therefore more powerful in certain ways Indeed Dr Anderson has a signal talent for showing us how afterschool sport in Denmark both transmits and produces social knowledge and powerfully shapes social relations
