Phantom Limbs and Body Integrity Identity Disorder Monika Loewy, 2019-11-21 *Phantom Limbs and Body Integrity Identity Disorder* discusses the conditions of Phantom Limb Syndrome and Body Integrity Identity Disorder together for the first time exploring examples from literature film and psychoanalysis to re ground theories of the body in material experience The book outlines the ways in which PLS and BIID involve a feeling of rupture underlined by a desire for wholeness using the metaphor of the mirror box a therapeutic device that alleviates phantom limb pain to

Folk Illusions K. Brandon Barker, Claiborne Rice, 2019-04-22 Wiggling a pencil so that it looks like it is made of rubber stealing your niece's nose and listening for the sounds of the ocean in a conch shell these are examples of folk illusions youthful play forms that trade on perceptual oddities In this groundbreaking study K Brandon Barker and Claiborne Rice argue that these easily overlooked instances of children's folklore offer an important avenue for studying perception and cognition in the contexts of social and embodied development Folk illusions are traditionalized verbal and or physical actions that are performed with the intention of creating a phantasm for one or more participants Using a cross disciplinary approach that combines the ethnographic methods of folklore with the empirical data of neuroscience cognitive science and psychology Barker and Rice catalogue over eighty discrete folk illusions while exploring the complexities of embodied perception Taken together as a genre of folklore folk illusions show that people starting from a young age possess an awareness of the illusory tendencies of perceptual processes as well as an awareness that the distinctions between illusion and reality are always communally formed
