*Franco-Irish Relations, 1500-1610* Mary Ann Lyons, 2015 An examination of the various dimensions political social and economic to the evolution of Franco Irish relations in the early modern period The period 1500 to 1610 witnessed a fundamental transformation in the nature of Franco Irish relations In 1500 contact was exclusively based on trade and small scale migration However from the early 1520s to the early 1580s the dynamics of normal relations were significantly altered as unprecedented political contacts between Ireland and France were cultivated These ties were abandoned when after decades of unsuccessful approaches to the French crown for military and financial support for their opposition to the Tudor regime in Ireland Irish dissidents redirected their pleas to the court of Philip II of Spain Trade and migration which had continued at a modest level throughout the sixteenth century re-emerged in the early 1600s as the most important and enduring channels of contact between the France and Ireland though the scale of both had increased dramatically since the early sixteenth century In particular the unprecedented influx of several thousand Irish migrants into France in the later stages and in the aftermath of the Nine Years War in Ireland 1594-1603 represented a watershed in Franco Irish relations in the early modern period By 1610 Ireland and Irish people were known to a significantly larger section of French society than had been the case a hundred years before The intensification of this contact notwithstanding the intricacies of Irish domestic

political religious and ideological conflicts continued to elude the vast majority of educated Frenchmen including those at the highest rank in government and diplomatic circles In their minds Ireland remained an exotic country They viewed the Irish in the streets of their cities and towns as offensive slothful dirty prolific and uncouth just as they were depicted in the French scholarly tracts read by the French elite This study explores the various dimensions to this important chapter in the evolution of Franco Irish relations in the early modern period MARY ANN LYONS is Professor of History at Maynooth University Republic of Ireland

**Moral Obligations and Sovereignty in International Relations** Andrea Paras,2018-12-07 How has contemporary humanitarianism become the dominant framework for how states construct their moral obligations to non citizens To answer this question this book examines the history of humanitarianism in international relations by tracing the relationship between transnational moral obligation and sovereignty from the 16th century to the present Whereas existing studies of humanitarianism examine the diffusion of such norms or their transmission by non state actors this volume explicitly links humanitarianism to the broader concept of sovereignty Rather than only focusing on the expansion of humanitarian norms it examines how sovereignty both challenges and sets limits on them Humanitarian norms are shown to act just as much to reinforce the logic of sovereignty as they do to challenge it Contemporary humanitarianism is often described in universalist terms which suggests that humanitarian activity transcends borders in order to provide assistance to those who suffer In contrast this book suggests a more counterintuitive and complex understanding of moral obligation namely that humanitarian discourse not only provides a framework for legitimate humanitarian action but it also establishes the limits of moral obligation It will be of great interest to a wide audience of scholars and students in international relations theory constructivism and norms and humanitarianism and politics
