Elusive Development Yusif A. Sayigh, 2002-03-11 The oil boom prompted a massive inflow of capital into the Arab region But whilst the investment this facilitated clearly had benefits for the region the developmental achievements of the boom decade are demonstrably unable to match the magnitude of the resources directed to development and the reasonable expectations invested in it Professor Yusif Sayigh draws a powerful and painful lesson from this experience applicable to other areas you cannot buy development it must be soundly oriented and sought with resolve by society's leaderships and a people enjoying a large measure of freedom and political participation *Palestine and the Palestinians in the 21st Century* Rochelle Davis, Mimi Kirk, 2013-10-07 Specialists on Palestinian politics history economics and society examine the continuities that bind the twentieth and twenty first centuries Recent developments in Palestinian political economic and social life have resulted in greater insecurity and diminishing confidence in Israel's willingness to abide by political agreements or the Palestinian leadership's ability to forge consensus This volume examines the legacies of the past century conditions of life in the present and the possibilities and constraints on prospects for peace and self determination in the future These historically grounded essays by leading scholars engage the issues that continue to shape Palestinian society such as economic development access to resources religious transformation and political movements The multidisciplinary essays in this volume portray a nation contemplating the possibility of stalemate hemmed in and searching for outlets to express its self determination Davis and Kirk divide the book thematically into three sections focusing broadly on colonialism and its effects politics and law in the Palestinian territories and the future of the Palestinian state and its place in the international system Publishers Weekly
