*The Chinese Triangle of Mainland China, Taiwan, and Hong Kong* Alvin Y. So, Nan Lin, Dudley Poston, 2001-07-30 The Chinese triangle of mainland China Hong Kong and Taiwan constitutes one of the most dynamic regions in the world economy Since the late 1970s these three societies have experienced increasing economic integration however studies aimed at analyzing and explaining this integration have often overlooked the very important role social institutions have played in the shaping of this process To fill this gap this book adopts a systematic institutional approach designed to examine the different patterns of institutions in the three countries and to discuss how such social institutions as the economy gender social networks and the Chinese diaspora have exerted a profound impact on all three societies The chapters taken together argue that different patterns of institutional configuration have led to divergent paths of development and that this divergence will have significant implications on the prospects for Chinese national reunification in the twenty first century The Introductory chapter provides a historical discussion on the origins and the transformation of the Chinese triangle during the second half of the twentieth century The remainder of the volume is broken into four topics considered crucial for understanding the transformation of the Chinese triangle economic transformation gender social networks and the Chinese diaspora As globalization impacts the Chinese triangle studies that consider the issues from the perspective of social institutions will be increasingly important to

understanding the area as it develops in the world economy      *East Asian Economic Integration* Ross P. Buckley, Richard Weixing Hu, Douglas W. Arner, 2011-01-01 This book offers a fascinating exploration of the contradictions of East Asian economic integration a topic of enormous contemporary significance to observers of world political and economic affairs The collection provides an unusually rigorous and systematic treatment of this important topic drawing on contributions from an impressive array of experts It will provide a valuable resource for students scholars and other observers seeking deeper understanding of the contemporary dynamics and challenges of East Asian integration Kate MacDonald University of Melbourne Australia East Asia is a crucial part of the global economy This book analyses three key elements of East Asian economic integration trade investment and international finance The authors are leading experts in their fields Their book represents an important addition to the literature on a subject of fundamental importance both regionally and globally Bradley J Condon ITAM Mexico City This book analyses recent developments and likely future paths for trade and financial integration in East Asia It suggests a more coherent balanced way forward for regional economic integration and analyses implications for institution building in East Asia East Asia has achieved a high degree of intra regional trade investment and GDP correlation through an expanding web of free trade agreements and production networks However financially most regional economies are linked more closely to North America and Europe than to each other As trade integration has accelerated financial and monetary integration has not kept pace East Asian Economic Integration analyses potential reasons and remedies for this phenomenon through a multidisciplinary framework of law politics and economics This comprehensive book will appeal to researchers and students in political science international relations trade law international finance law and regional studies generally It will also be of great interest to regional      **WTO and the Greater China** Chien-Huei Wu, 2012-05-16 This book illustrates how the constitutional feature of the WTO allowing separate customs territories to become a Member brings about the coexistence of China Taiwan Hong Kong and Macau the Greater China in the WTO It examines the economic integration and the dispute settlement systems within Greater China It explores their interactions within the multilateral WTO framework their practices under the new genre of FTA and their policies in adopting trade defence measures against each other This book offers a good case study on the impact of WTO membership upon domestic reform and how it contributes to regional integration It also provides a comprehensive analysis on the existing provisions in the WTO agreements pertaining to judicial review      **New Thinking about the Taiwan Issue** Jean-Marc F. Blanchard, Dennis V. Hickey, 2012-06-12 The Taiwan question has long been considered one of the most complicated and explosive issues in global politics In recent years however relations between Taiwan and the Chinese mainland have improved substantially to the surprise of many In this ground breaking collection distinguished contributors from the US Asia and Europe seek to go beyond the standard recitation of facts that often characterizes studies focusing on the Beijing Taipei dyad Rather they employ a variety of theories as well as both quantitative and qualitative methodologies to analyze the ebbs

and flows of the Taiwan issue Their discussions clearly illuminate why there is a Taiwan Problem why conflict did not escalate to war between 2000 and 2008 and why cross Strait relations improved after 2008 The book further reveals the limits of realism as a device to gain traction into the Taiwan issue demonstrates the importance of taking into account domestic political variables and shows how theory can be used to advance the cause of better China Taiwan relations and to analyze the potential for future conflict over Taiwan New Thinking about the Taiwan Issue is essential reading not only for students scholars and practitioners with an interest in studying relations across the Taiwan Strait but also for any reader interested in economics international relations comparative politics or political theory      *Economic Convergence in Greater China* Chun Kwok Lei, Shujie Yao, 2008-12-08 Although China's economy has grown rapidly in recent decades there are still very large differences between the economies of mainland China and those of Hong Kong Macau and Taiwan This book considers how far economic convergence between these four territories has occurred and the prospects for increased convergence in the future      *The Dynamics of Beijing-Hong Kong Relations* Sonny Shiu-hing Lo, 2008-04-01 This book critically assesses the implementation of the one country two systems in the Hong Kong Special Administrative Region HKSAR from the political judicial legal economic and societal dimensions The author contends that there has been a gradual process of mainlandization of the HKSAR meaning that Hong Kong is increasingly economically dependent on the People's Republic of China PRC politically deferent to the central government on the scope and pace of democratic reforms socially more patriotic toward the motherland and more prone to media self censorship and judicially more vulnerable to the interpretation of the Basic Law by the National People's Congress This book aims to achieve a breakthrough in relating the development of Hong Kong politics to the future of mainland China and Taiwan By broadening the focus of the one country two systems from governance to the process of Sino British negotiations and their thrust building efforts this book argues that the diplomats from mainland China and Taiwan can learn from the ways in which Hong Kong's political future was settled in 1982 1984 This is a book for students researchers scholars diplomats and lay people      *Economic Reform And Cross-strait Relations: Taiwan And China In The Wto* Julian Chang, Steven M Goldstein, 2007-07-26 This book provides a discussion of the general impact of WTO membership on both sides of the Taiwan Strait and addresses the political and economic impact on cross Strait relations of common membership The book begins with an introduction which analyzes the state of cross Strait economic and political relations on the eve of dual accession to the WTO and briefly introduces the chapters which follow The first chapter discusses the concessions made by both sides in their accession agreements and is followed by two chapters which describe the manner in which the Taiwan economy was reformed to achieve compliance as well as the specific restrictive trade regime that was put into place to manage mainland trade The next two chapters deal with the implications of that restrictive trade regime for the Taiwan economy in Asia and with the nature of the interactions between the two sides within the WTO The final four chapters of the volume examine the impact of membership on four

sectors of the economy finance agriculture electronics and automobiles There is a post script which briefly covers developments since the chapters were completed Hong Kong Under Chinese Rule Warren I. Cohen, Li Zhao, 1997-05-28 A balanced analysis of a sensitive subject Hong Kong's future prospects **Taiwan's Impact on China** Steve Tsang, 2017-01-24 This book is about the basis and scope of impact that Taiwan a democracy with a population of around 23 million has on China the most powerful remaining Leninist state which claims sovereignty over Taiwan and has a population of over 1.3 billion It examines how Taiwan has helped China in its economic transformation but argues that the former exercises greatest influence through its soft power The expert and timely contributions in this book demonstrate how Taiwan exerts real influence in China through admiration of its popular culture be it in music or literature as well as its reach into politics and economics As mainland Chinese visit Taiwan they are most impressed with civility in everyday living based on a modernized version of the traditional Chinese culture However discussions in the book also reveal the limits of Taiwan's impact as the Chinese government tightly controls the narrative about Taiwan and does not tolerate any Taiwanese posing a threat to its monopoly of power Chinese (Taiwan) Yearbook of International Law and Affairs, Volume 31 (2013) Ying-jeou Ma, 2015-11-24 The Chinese Taiwan Yearbook of International Law and Affairs includes articles and international law materials relating to the Asia Pacific and the Republic of China on Taiwan This volume discusses issues on Cross Straits relations Hong Kong South China Sea disputes and Japanese cases relating to war compensation It provides a detailed account of the 2013 Guang Da Xing No 28 incident and Taiwan's participation in the International Civil Aviation Organization and free trade agreements with New Zealand and Singapore **The A to Z of the Hong Kong SAR and the Macao SAR** Ming K. Chiang,2015-10-30 This book examines how since about 2008 the economy of Taiwan has become ever more deeply integrated into the economy of China It goes beyond a consideration of trade and investment flows and discusses also the large population flows the growing integration of the two financial systems and the nature of the deep economic integration at the industry and firm level It considers the impact of growing economic integration on society and politics assesses how China Taiwan economic integration is affecting the East Asian region more widely and explores the implications for international relations including the United States dominance in the region Overall the book presents a comprehensive analysis of all the issues      *China's Hong Kong Transformed* Ming K. CHAN,2008-10-01 The impressive array of penetrating analysis and provocative interpretations afforded by this volume s 14 chapters sharpen appreciation of the ongoing transformations of China s Hong Kong since 1997 and the possibilities embedded in its journey toward an integrative merger convergence with the Mainland by 2047 A unique strength of this volume lies with the wide ranging views and divergent assessments offered by the chapter authors of different nationalities varied experience diverse academic professional disciplines and of competing ideo political persuasions Ten of them are leading academics economist historian legalist media scholar political scientist sociologist well published on Hong Kong topics while seven are seasoned practitioners on the cutting edge of Hong Kong s development as HKSAR official legislator Basic Law Committee member business leader think tank expert journalist and US diplomat Published by City University of Hong Kong Press      **Pax Sinica** Y.Y. Kueh,2012-10-01 The book confronts the popular conjecture of a Pax Sinica emerging to replace Pax Americana in the wake of global financial crisis It argues that by virtue of its overwhelming economic technological and military clout US hegemony will continue to prevail though increasingly less coherently as China s ascendance as a global power accelerates The argument is underpinned with analysis of different junctures in China s trajectory towards the status of economic giant from the tacit creation of the Greater China growth triangle and ordeal of the Asian Financial Crisis through the breakthrough with China s membership in the WTO and the subsequent large scale realignment of productive forces in the Asia Pacific region A chronological approach is combined with topical analysis focusing in particular on the interplay between economic imperatives and geopolitical dynamics Taken together the book provides a highly refreshing and coherent perspective for looking at China arising as a dominant Asia Pacific power with significant global implications As an interdisciplinary study it will appeal to scholars and academics as well as businessmen and government policy makers interested in Asian and global affairs and especially to students of economics politics international business and globalization studies Y Y Kueh is a Hong Kong based China expert He taught at The Chinese University of Hong Kong for over two decades served as Founding Director of Centre for Chinese Political Economy at Macquarie University Sydney and retired from Lingnan University Hong Kong as Chair Professor of Economics and Dean of Social Science Currently he is Senior College Tutor Honorary New Asia College The Chinese University of Hong Kong      *Regionalism in East Asia* Fu-kuo Liu,Philippe Regnier,2013-10-18 Regional
