## **Good Of Affluence:**

**The Good of Affluence** John R. Schneider, 2002 wealth incompatible with true Christianity In *The Good of Affluence* John R Schneider reopens the debate over the proper Christian attitude toward money arguing ultimately that Scripture does indeed provide support for the responsible possession of wealth This is a provocative book of Christian theology written to help people seeking God in a culture that has grown from modern capitalism By comparing classic Christian teaching on wealth with the realities of our modern economic world Schneider challenges the common presumption that material affluence is inherently bad Careful interpretation of Scripture narratives creation exodus exile and more also shows that abundance is the condition that God envisions for all human beings and that faithful persons of wealth are part of this plan Schneider believes that the wealth as blessing themes of the Old Testament are not to be spiritualized and do not run contrary to New Testament teachings but provide exactly the frame of reference for the incarnate identity life and teaching of Jesus who came to make real the messianic feast both in this age and in the age to come Through insightful engagement with the biblical text Schneider overturns some of the most cherished and unquestioned assumptions of influential Christian writers particularly Ronald Sider on modern capitalist affluence Yet Schneider's message is also finely balanced with the need for responsible Christian living He offers rich Christians biblical affirmation but also challenges them to a life shaped by an uncommon sense of stewardship and compassion Incisive thought provoking and biblically grounded *The Good of Affluence* is a superb resource for anyone students professors businesspeople general readers discussion groups wishing to grapple seriously with the subject of faith and wealth

**The Good of Affluence** John R. Schneider, 2002 A provocative book of Christian theology discusses the relationship between faith and money challenging the presumption that material affluence is inherently bad and carefully interpreting Scripture to show that prosperity is the condition that God envisions for all human beings provided that it is accompanied by stewardship and compassion

**Just Capitalism** Brent Waters, 2016-10-01 *Just Capitalism* is a Christian moral defense of economic globalization as a system that is well suited to provide the necessary material needs that are prerequisite for human community and flourishing Global based market exchange offers the development and distribution of the goods of creation for humans to enjoy and share Globalization also offers the most realistic and promising way of exercising a preferential option for the poor Waters argues that economic globalization and thus capitalism is a necessary condition for sustaining human life but not a sufficient condition for enabling human flourishing Even though globalization is generally compatible with Christian theological and moral claims and can realistically facilitate the well being of the human family it must be reoriented toward koinonia human community communication fellowships as the global economy's primary goal in order to help actualize human flourishing Readers will gain insight about how economic globalization and thus capitalism is good for the human family and can be made better by certain reorientations that are compatible with Christian moral values Waters provides a mature and civil counterargument against

knee jerk condemnations of economic globalization and capitalism      **Loving the Poor, Saving the Rich** Helen Rhee, 2012-11-01 The issue of wealth and poverty and its relationship to Christian faith is as ancient as the New Testament and reaches even further back to the Hebrew Scriptures From the beginnings of the Christian movement the issue of how to deal with riches and care for the poor formed an important aspect of Christian discipleship This careful study shows how early Christians adopted appropriated and transformed the Jewish and Greco Roman moral teachings and practices of giving and patronage As Helen Rhee illuminates the early Christian understanding of wealth and poverty she shows how it impacted the formation of Christian identity She also demonstrates the ongoing relevance of early Christian thought and practice for the contemporary church      *For the Love of Life* Erich Fromm, 2024-04-16 This poignant philosophy about the human capacity for love in the face of tragedy from the New York Times bestselling author is as relevant today as it was when it was first broadcast Transcribed from a series of recorded conversations streamed over German public radio in 1970 the profound ideas and thoughts collected in this volume represent a lifetime of the renowned psychoanalyst and social philosopher s explorations into human emotion and behavior throughout the twentieth century Insightful and provocative Erich Fromm meditates on the preoccupations that drive human action or inaction interweaving related ideas from such profound thinkers as Sigmund Freud Albert Camus and Karl Marx Here Fromm recognizes the links between rising contemptuous boredom and overwhelming overabundance He unravels the confusing mysteries of religious doctrines by examining the causes and motives behind our aggressive tendencies and revealing how dreams connect us all as a universal language Fromm s perspective offers a vivid portrait of our ever evolving social history and the difficulty of experiencing personal growth in a world driven by manufactured needs Despite all of modern life s trials *For the Love of Life* celebrates Fromm s belief in the human spirit to rise above tragedy and trauma through the bonds of family friendship and the transcendent power of love Includes a preface by Hans J rgen Schultz      *Bulletin of the Atomic Scientists* , 1972-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world      **Ecclesial Reform and Deform Movements in the South African Context** Ernst M Conradie, Miranda Pillay, 2015-05-01 **Ecclesial Reform and Deform Movements in the South African Context** is the fourth volume in a series on the interface between ecumenical theology and social transformation in the South African context Ecclesial movements are amongst the most significant drivers of social transformation The essays in this volume identify describe and assess a variety of ecclesial movements Such movements are often highly contested so that the same movement may be described by some as a reform movement and by others as a deform movement      **There's No Such Thing as Free Speech, and It's a Good Thing, Too** Stanley Eugene Fish, 1994 A consideration of the ideological gridlock paralyzing academic and political exchange in the nineties The author dissects the controversies over multiculturalism affirmative action canon revision hate speech and legal reform and takes

**The Copeland Reader** Charles Townsend Copeland,1926      **The Self-interpreting Bible** ,1896      **The New Testament** ,1909      The Case Against Paramilitary Policing Tony Jefferson,2023-03-31 In the late 1980s the conventional wisdom informing the policing of public order events was that of paramilitarism militarily trained and equipped units with a special responsibility to deal quickly and effectively with outbreaks of disorder The philosophy behind the paramilitary response suggested that the training discipline and specialization entailed ensured that the response was maximally effective and most in line with the tradition of impartial policing by consent The argument of this book originally published in 1990 demonstrates the reverse not only that police impartiality was chimerical and policing by consent was a viewpoint that did not include the consent of the routinely policed but that paramilitarism far from being maximally effective substantially contributed to the very problem it claimed to minimize The evidence for this argument is drawn from concrete analyses of a range of public disorder events political industrial and social a comparative look at similar work in USA and Australia and substantial fieldwork observations and interviews undertaken with a police special patrol group and its supervising officers Jefferson argues further that solutions need to be sought for public order policing in making the police politically accountable ensuring that such accountability is also just in accordance with the viewpoint of the routinely policed and in reversing the drift toward paramilitarism      **The Law Times Reports of Cases Decided in the House of Lords, the Privy Council, the Court of Appeal ...
