Imagining America Alan M. Ball, 2004-09-09 In *Imagining America* historian Alan M Ball explores American influence in two newborn Russian states the young Soviet Union and the modern Russian Republic Ball deftly illustrates how in each era Russians have approached the United States with a conflicting mix of ideas as a land to admire from afar to shun at all costs to emulate as quickly as possible or to surpass on the way to a superior society Drawing on a wide variety of sources including contemporary journals newspapers films and popular songs Ball traces the shifting Russian perceptions of American cultural social and political life As he clearly demonstrates throughout their history Russian imaginations featured a United States that political figures and intellectuals might embrace exploit or attack but could not ignore Henry Ford John Cunningham Wood, Michael C. Wood, 2003

**Building a new New World** Jean-Louis Cohen, 2021-01-12 An essential exploration of how Russian ideas about the United States shaped architecture and urban design from the czarist era to the fall of the U S S R Idealized representations of America as both an aspiration and a menace played an important role in shaping Russian architecture and urban design from the American Revolution until the fall of the Soviet Union Jean Louis Cohen traces the powerful concept of Amerikanizm and its impact on Russia s built environment from early czarist interest in Revolutionary America through the spectacular World s Fairs of the 19th century to department stores skyscrapers and factories built in Russia using American methods during the 20th century Visions of America also captivated the Russian avant garde from El Lissitzky to Moisei Ginzburg and Cohen explores the ongoing artistic dialogue maintained between the two countries at the mid century and in the late Soviet era following a period of strategic competition This first major study of Amerikanizm in the architecture of Russia makes a timely contribution to our understanding of modern architecture and its broader geopolitics

**Loans and Legitimacy** Katherine A.S. Siegel, 2021-05-11 In 1919 the Soviet government directed Ludwig Martens to open a trade bureau in New York Before his deportation two years later Martens had established contact with nearly one thousand American firms and conducted trade in the face of a stiff Allied embargo His work planted the seeds for growing commercial ties between the U S and the U S S R throughout the 1920s Because the United States did not recognize the Soviet Union until 1933 historians have viewed the early Soviet American relationship as an ideological stand off Katherine Siegel drawing on public private and corporate documents as well as newly opened Soviet archives paints a different picture She finds that business ties flourished between 1923 and 1930 American sales to the Soviets grew twentyfold and American firms supplied Russians with more than a fourth

of their imports American businesses were only too eager to tap into huge Soviet markets Under the Soviets New Economic Policy and first Five Year Plan American firms invested in the U S S R and sold technical processes provided consulting services built factories and trained Soviet engineers in the U S Most significantly Siegel shows this commercial relationship encouraged policy shifts at the highest levels of the U S government Thus when Franklin D Roosevelt opened diplomatic relations with Russia he was building on ties that had been carefully constructed over the previous fifteen years Siegel s study makes an important contribution to a new understanding of early Soviet American relations *The Business of*
