**Geography and Drug Addiction** Yonette F. Thomas, Douglas Richardson, Ivan Cheung, 2008-09-24 Making Connections Geography and Drug Addiction Geography involves making connections connections in our world among people and places cultures human activities and natural processes It involves understanding the relationships and connections between seemingly disparate or unrelated ideas and between what is and what might be Geography also involves connecting with people When I first encountered an extraordinarily vibrant intelligent and socially engaged scientist at a private dinner several years ago I was immediately captivated by the intensity of her passion to understand how and why people become addicted to drugs and what could be done to treat or prevent drug addiction Fortunately she was willing to think beyond the bounds of her own discipline in her search for answers Our conversation that evening which began with her research on fundamental biochemical processes of drug addiction in the human body evolved inevitably to an exploration of the ways in which research on the geographical context of drug addiction might contribute to the better understanding of etiology of addiction its diffusion its interaction with geographically variable environmental social and economic factors and the strategies for its treatment and prevention This fascinating woman I soon learned was Nora Volkow the Director of the National Institute on Drug Abuse as well as the granddaughter of Leon Trotsky *Library of Congress Information Bulletin*, 2003 **CIO**, 2001-12-01

**Diaspora and Citizenship** Claire Sutherland, Elena Barabantseva, 2013-09-13 This collection

of papers discusses the impact of diasporas on the articulations and practices of legal political cultural and social citizenship in their country of origin While the majority of current citizenship debates focus on the challenges and directions in which diasporic and migrant communities impact on the citizenship regime in their country of settlement the papers in this volume approach the study of citizenship from the perspective of the link between the sending state and its diasporic communities abroad The papers discuss the role of language religion kinship and other ethnic markers in diaspora politics and trace their implications for the articulations and practices of citizenship Through discussing cases across political and geographical spectrums and from different historical epochs the book broadens and enriches the debate on citizenship by demonstrating important ways in which diasporas impact on the delineation of citizenship regimes and the politics of national identity in their homeland This links to the continued use of language as an ethnic marker but also one which may be learned allowing a certain degree of choice and shifting affiliations amongst putative members of a diaspora This book was published as a special issue of Nationalism and Ethnic Politics **Saudi Aramco World** ,2003 Western Civilization: Since 1789 Jackson J.
