Urban Transport Economics Hensher, 1977-07-07 **U.S. Government Research Reports**, 1962 **An Introduction to Geographical Economics** Steven Brakman, Harry Garretsen, Charles van Marrewijk, 2001-12-06 The need for a better understanding of the role location plays in economic life was first and most famously made explicit by Bertil Ohlin in 1933 However it is only recently with the development of computer packages able to handle complex systems as well as advances in economic theory in particular an increased understanding of returns to scale and imperfect competition that Ohlin's vision has been met and a framework developed which explains the distribution of economic activity across space This book is an integrated non mathematical first principles textbook presenting geographical economics to advanced students Never avoiding advanced concepts its emphasis is on examples diagrams and empirical evidence making it the ideal starting point prior to monographic and journal material Contains copious computer simulation exercises available in book and electronic format to encourage learning and understanding through application Uses case study material from North America Europe Africa and Australasia *Bookseller and the Stationery Trades' Journal*, 1970 *A Guide to Information Sources in the Geographical Sciences* Stephen Goddard, 1983-01-01 Geography is a wide ranging discipline and the number of information sources available is truly enormous These include printed books and journal articles maps satellite photographs archives statistical information and much else One particular problem facing geographers is that when one studies a foreign country information may be available only in the foreign country and difficult to obtain This book discusses the information sources available to geographers **Government-wide Index to Federal Research & Development Reports**, 1967 *Nordic Tourism* Colin Michael Hall, Dieter K. Müller, Jarkko Saarinen, 2009 Tourism is an increasingly important industry in the Nordic countries Denmark Finland Iceland Norway and Sweden that is integral to economic social and sustainable development Nordic Tourism is the first comprehensive and accessible introduction to tourism in the region and also includes case studies from leading Nordic researchers on specific destinations attractions resources concepts and issues **Library Association Record** Library Association, 1970 Proceedings of the 22d 33d annual conference of the Library Association in v 1 12 proceedings of the 34th 44th 47th 57th annual conference issued as a supplement to v 13 23 new ser v 3 ser 4 v 1

Re-framing Regional Development Philip Cooke,2013-01-17 Turbulence characterises the current global scene This book uses complementary theoretical approaches to understand and help prescribe policies to re frame the regional development problem in turbulent times These approaches are evolutionary complexity evolutionary economic geography emergence theory and resilience theory From below they address the four major crises creating a perfect storm for societies and economics involving the climate change crisis the energy crisis the banking and financial crisis and the global economic crisis This book analyses and proposes ways in which regional economies in particular are having to be reframed to address these crises First many must evolve in new ways possibly moving back from the service economy towards a new greener form of manufacturing of goods as well as services Accordingly regional economies are innovating in new ways Amongst these are the quest for relatedness within their own regional orbits and promoting modularity as a mode of analysis and a policy stance to stimulate innovation across industry and geographical borders Finally regional economies and societies are discovering that from a resilience perspective they must find answers to the higher levels of governance with which they increasingly struggle In this respect regional economies are in transition and regional processes are emergent The transition seeks to address the four crises involving re balancing re directing and re framing future policy and practice This book describes many of the novel framings involved in understanding the new ways in which this major task is being addressed in theory policy and everyday practice Creating Economic Growth M.
