Political Stability in Tajikistan Raj Kumar Sharma, 2018-10-01 There are links between food security and political stability as was evident during the world food crisis of 2007-08. Food riots were witnessed in a number of countries contributing to political instability. There are a number of dimensions to the problem of food insecurity in Tajikistan. This book is an attempt to fill the academic void on Tajikistan especially pertaining to its food security. This work traces the history of agriculture and food production in Tajikistan from mid 19th century when it came under Russian rule. From its inception Tajikistan has been facing the geographic handicap as it is a mountainous country and only 7 percent of the total land is arable which limits its food production. This book is a detailed study of how Soviet economic geography introduced intensive cotton cultivation in Tajikistan at the expense of food crops. Soviet economic planners felt that a region with hot climate and large water resources should not attempt to grow grains but cotton. In the contemporary context this book focuses on how the state and international actors have responded to the food insecurity in Tajikistan. Most importantly the book also analyses the relationship between food security and political stability in Tajikistan. *The International Politics of Eurasia: v. 2: The Influence of National Identity* S. The contributors were chosen not only for their recognized expertise but also to ensure a stimulating diversity of perspectives and a dynamic mix of approaches. This is Volume 2 on National Identity and Ethnicity in Russia and the New States of Eurasia edited by Roman Szporluk. **Control and Subversion** Colette Harris, 2004-03-20 Control and Subversion investigates the relationship of gender to the inner workings of social control such as exposing ways in which post Soviet Tajikistan society threatens men's masculinity thereby bringing them to force family members into conformity irrespective of the suffering this may cause. Told through ethnographically collected life histories the book examines how masculine and feminine gender characteristics influence personal relationships and explores gender relations at their most intimate from the secret musings of adolescent girls through the painful experiences of young men to the trauma of sexual initiation. Although largely concentrating on contemporary life the book also discusses historical materials and Soviet influence on Tajik society. Control and Subversion is essential reading for anyone interested in Central Asia. Towards the Control of Oil Resources in the Caspian Region Mehdi Parvizi Amineh, 1999 This book provides an introduction to the current struggle for control of the energy reserves in the Caspian region Russia Iran Turkmenistan Kazakhstan and Azerbaijan An intense competition has arisen between the following various actors for control of these energy reserves the advanced industrialised countries especially the United States and Europe and their backed Transnational Corporations on the one hand and the main regional powers Russia Turkey Iran and also China and Pakistan on the other This struggle is a characteristic of the post Cold War competition for the control and security of the most needed natural resources oil and gas which are concentrated in only a few regions in the world This makes the Caspian region to one of the most important geo political areas in the post Cold War era The question of the routes for exporting oil and gas from this land locked area is central to the export of the Caspian energy resources It evolves around various conflicts between the different forces involved in the Central Asian and the Caucasian regions For example ethnic conflicts such as the war in Nagorno Karabakh in Chechnya the PKK issue in Turkey or the Taliban rule in Afghanistan At the same time however other problems such as lack of infrastructure and technology and finding a solution for the Caspian s legal regime could be obstacles for the possible construction of pipelines Further the United States does not want Iran to become a dominant power in the region and therefore would reject any route passing through this country Turkey would like any outlets to run through its own country The pipeline through Russia up until now is the only existing pipeline structure for the transportation of energy resources from the Caspian region Therefore Russia has a strong interest in and influence over any alternative route being discussed At the same time the United States want to prevent Russia from regaining domination over the former southern republics of Central Asia and Caucasus once ruled by the Soviet Union By analysing these and other important aspects this book helps us understand how they contribute to the problematic of conflict and co operation around the energy resources in the Caspian region This introductory book is written to meet the needs of undergraduate students interested in post Soviet politics in Central Asia and Caucasus and is suitable for the general public interested in the contemporary politics of this area
