## Geography Of Peace:

*The Geography of the Peace* Nicholas John Spykman, 1944      *The Geography of the Peace* Nicholas John Spykman, 1969-01      **The Geography of the Peace** Nicholas John Spykman, Helen R. Nicholl, Yale University. Institute of International Studies, 1944      The Geography of Peace and War David Pepper, Alan Jenkins, 1985      **The Geography of War and Peace** Colin Flint, 2005 Our world of increasing and varied conflicts is confusing and threatening to citizens of all countries as they try to understand its causes and consequences This book takes advantage of a diversity of geographic perspectives as it analyzes the political processes of war and their spatial expression      Geographies of Peace Fiona McConnell, Nick Megoran, Philippa Williams, 2014-06-20 From handshakes on the White House lawn to Picasso's iconic dove of peace the images and stereotypes of peace are powerful widespread and easily recognizable Yet if we try to offer a concise definition of peace it is altogether a more complicated exercise Not only is peace an emotive and value laden concept it is also abstract ambiguous and seemingly inextricably tied to its antithesis war And it is war and violence that have been so compellingly studied within critical geography in recent years This volume offers an attempt to redress that balance and to think more expansively and critically about what peace means and what geographies of peace may entail The editors begin with an examination of critical approaches to peace in other disciplines and a helpful genealogy of peace studies within geography The book is then divided into three sections The opening section examines how the idea of peace may be variously constructed and interpreted according to different sites and scales The chapters in the second section explore a remarkably wide range of techniques of peacemaking This widens the discussion from the archetypal image of top down diplomatic state led initiatives to imperial boundary making practices grassroots cultural identity assertion boycotts self immolation ex paramilitary community activism and protective accompaniment The final section shifts the scale and focus to everyday personal relations and a range of practices around the concept of coexistence In their concluding chapter the editors spell out some of the key questions that they believe a geography of peace must address What spatial factors have facilitated the success or precipitated the failure of some peace movements or diplomatic negotiations Why are some ideologies productive of violence in some places but co operation in others How have some communities been better able to deal with religious racial cultural and class conflict than others How have creative approaches to sharing sovereignty mitigated or transformed territorial disputes that once seemed intractable *Geographies of Peace* is the first book wholly devoted to exploring the geography of peace Drawing on both recent advances in social and political theory and detailed empirical research covering four continents it makes a significant intervention into current debates about peace and violence      **Geographies of Peace and Armed Conflict** Audrey Kobayashi, 2013-09-13 This collection addresses the impact of armed conflict and explores pathways to peace across the world Topics range from geopolitics to the effects of armed conflict on the environment resources health children and transnational migration Others explore the social processes involved in post conflict situations

*The ^AGeography of War and Peace* Colin Flint, 2004-10-14 Our world of increasing and varied conflicts is confusing and threatening to citizens of all countries as they try to understand its causes and consequences However how and why war occurs and peace is sustained cannot be understood without realizing that those who make war and peace must negotiate a complex world political map of sovereign spaces borders networks of communication access to nested geographic scales and patterns of resource distribution This book takes advantage of a diversity of geographic perspectives as it analyzes the political processes of war and their spatial expression Contributors to the volume examine particular manifestations of war in light of nationalism religion gender identities state ideology border formation genocide spatial rhetoric terrorism and a variety of resource conflicts The final section on the geography of peace covers peace movements diplomacy the expansion of NATO and the geography of post war reconstruction Case studies of numerous conflicts include Israel and Palestine Afghanistan Northern Ireland Bosnia Herzegovina West Africa and the attacks of September 11 2001

**Making Geographies of Peace and Conflict** Colin Flint, Kara E. Dempsey, 2023-11-17 This book illustrates the diversity of current geographies ontologies engagements and epistemologies of peace and conflict It emphasizes how agencies of peace and conflict occur in geographic settings and how those settings shape processes of peace and conflict The essence of the book's logic is that war and peace are manifestations of the intertwined construction of geographies and politics Indeed peace is never completely distinct from war Each chapter in the book will demonstrate understandings of how the myriad spaces of war and peace are forged by multiple agencies some possibly contradictory The goals of these agents vary as peace and war are relational place specific processes The reader will understand the mutual construction of spaces and processes of peace and conflict through engagement with the concepts of agency the mutual construction of politics and space geographic scales multiple geographies the twin dynamics of empathy othering and inclusivity partitioning and resistance militarism The book discusses the intertwined nature of peace and conflict including reference to the environment global climate change borders technology and postcolonialism This book is valuable for instructors teaching a variety of senior level human geography courses including graduate level classes It will appeal to those working in political geography historical geography sociology of geographic knowledge feminist geography cultural and
