The American Geologist, 1888 **Field Geology** Frederic Henry Lahee, 1923 **Water** Jeremy J. Schmidt, 2019-04-01 An intellectual history of America's water management philosophy Humans take more than their geological share of water but they do not benefit from it equally This imbalance has created an era of intense water scarcity that affects the security of individuals states and the global economy For many this brazen water grab and the social inequalities it produces reflect the lack of a coherent philosophy connecting people to the planet Challenging this view Jeremy Schmidt shows how water was made a resource that linked geology politics and culture to American institutions Understanding the global spread and evolution of this philosophy is now key to addressing inequalities that exist on a geological scale Water Abundance Scarcity and Security in the Age of Humanity details the remarkable intellectual history of America's water management philosophy It shows how this philosophy shaped early twentieth century conservation in the United States influenced American international development programs and ultimately shaped programs of global governance that today connect water resources to the Earth system Schmidt demonstrates how the ways we think about water reflect specific public and societal values and illuminates the process by which the American approach to water management came to dominate the global conversation about water Debates over how human impacts on the planet are connected to a new geological epoch the Anthropocene tend to focus on either the social causes of environmental crises or scientific assessments of the Earth system Schmidt shows how when it comes to water the two are one and the same The

very way we think about managing water resources validates putting ever more water to use for some human purposes at the expense of others      *Guide to the catalogues of the reference library; with regulations for visitors, hints to readers and students, and rules for cataloguing* New South Wales state libr,1897      The Quiver.
