Whitehead,1921 Opening a Mountain Steven Heine,2004-02-26 With the growing popularity of Zen Buddhism in the West virtually everyone knows or thinks they know what a koan is a brief and baffling question or statement that cannot be solved by the logical mind and which after sustained concentration can lead to sudden enlightenment But the truth about koans is both simpler and more complicated than this In Opening a Mountain Steven Heine shows that koans and the questions we associate with them such as What is the sound of one hand clapping are embedded in larger narratives and belong to an ancient Buddhist tradition of encounter dialogues These dialogues feature dramatic and often inscrutable contests between masters and disciples or between masters and an array of natural and supernatural forces rouge priests wild foxes hermits wizards shapeshifters magical animals and dangerous women To establish a new monastery to open a mountain the Zen master had to tame these wild forces in regions most remote from civilization In these extraordinary encounters fingers and arms are cut off pitchers are kicked over masters appear in and interpret each other's dreams and seemingly absurd statements are shown to reveal the deepest insights Heine restores these koans to their original traditions allowing readers to see both the complex elements of Chinese culture and religion that they reflect and the role they played in Zen's transformation of local superstitions into its own teachings Offering a fresh approach to one of the most crucial elements of Zen Buddhism Opening a Mountain is essential reading for anyone seeking to understand the full story behind koans and the mysterious worlds they come from **Occultism in a Global Perspective** Henrik Bogdan,Gordan Djurdjevic,2014-09-11 The study of the ideas and practices associated with occultism is a rapidly growing branch of contemporary scholarship However most research has focused on English and French speaking areas and has not addressed the wider spread and significance of occultism **Occultism in a Global Perspective** presents a broad international overview Essays range across the German magical order of the Fraternitas Saturni esoteric Satanism in Denmark sexual magic in Colombia and the reception of occultism in modern Turkey India and the former Yugoslavia As any other form of cultural practice the occult is not isolated from its social discursive religious and political environment By studying occultism in its global context the book offers insights into the reciprocal relationships that colour and shape regional occultism The Art of Fate Calculation Stéphanie Homola,2023-01-13 From housewives to students and high ranking officials people from all social backgrounds in China and Taiwan visit fate calculation masters to learn about their destiny How do clients assess the diviner's skills How does one become a fortune teller How is a person's fate calculated The Art of Fate Calculation explores how conceptions of fate circulate in Chinese and Taiwanese societies while resisting uniformization and institutionalization This is not only due to the stigma of superstition but also to the internal dynamic of fate calculation practice and learning **Light** ,1911 **The Earth Changes Survival Handbook** Page Bryant,1983 **The Geomancer's Handbook: Divination and Magic**

John Michael Greer, 2010-09-03 In the Geomancer's Handbook the renowned contemporary mage and geomancer John Michael Greer explains this ancient divinatory art clearly and succinctly allowing the practitioner quick mastery of this precise and accurate method of prediction. Because geomancy uses a good deal of astrological technique it is an excellent predictive method for astrologers without requiring the arduous effort necessary to learn traditional horary astrology. Greer combines teachings from traditional texts with his own deep knowledge of geomancy, distilling the essence of geomancy. A fascinating explanation of divinatory geomancy by the leading contemporary geomancer.
