Artemis, Eve, and the Image of God Joseph A. Brennan,2024-10-09 What has gone so terribly wrong in Ephesus that Paul feels compelled to write the longest marriage code in the New Testament 1 Peter only has seven verses about marriage Colossians only has two Titus only has two Why does Ephesians have thirteen Did Paul wish to set in stone the nature of

gender relationships for all of time Was he trying to ensure the survival of the emerging church amidst harsh Hellenistic realities of hierarchic marriage Or did he have something else in mind This is a book about the Ephesians 5 marriage code the goddess Artemis Eve and the image of God in the believer It explores the adverse influence of Artemis upon the Ephesian believers thought world why Paul raises up Eve and Adam as the example of loving marriage 5 31 what Paul thought the image of God looked like in the believer and why some Ephesian believers thought differently Dr Brennan argues that the primary purpose behind Ephesians 5 21 33 was to evangelize non believing Ephesian onlookers to an ideal of marriage in Christ s new kingdom that far surpassed their personal experience in the first century Roman world and that Artemis was getting in the way

The 1959 Yellowstone Earthquake Larry Morris,2020-07-31 Experience the epic earthquake that shook up Yellowstone and the rescue effort that ensued At 11 37 p m on August 17 1959 a magnitude 7 5 earthquake rocked Montana s Yellowstone country In an instant an entire mountainside fractured and thundered down onto

the sites of unsuspecting campers The mammoth avalanche generated hurricane force winds ahead of it that ripped clothing from backs and heaved tidal waves in both directions of the Madison River Canyon More than two hundred vacationers trapped in the canyon feared the dam upstream would burst As debris and flooding overwhelmed the river injured victims frantically searched the darkness for friends and family Acclaimed historian Larry Morris tells the gripping minute by minute saga of the survivors who endured the interminable night the first responders who risked their lives and the families who waited days and weeks for word of their missing loved ones *Best Bike Rides Los Angeles* Wayne D. Cancian, 1990-08-31 In the last twenty five years Americans have gained considerable freedom in their personal lives Relationships are now more flexible and self development has become a primary goal for both men and women Most scholars have criticized this trend to greater freedom arguing that it undermines family bonds and promotes selfishness and extreme independence Francesca Cancian is more optimistic In this book she shows that many American couples succeed in combining self development with commitment and that interdependence not independence is their ideal In interdependent relationships love and self development do not conflict but reinforce each other *Love in America* compares traditional forms of marriage with these newer forms of close relationships Starting with the nineteenth century Cancian shows how gender roles became polarized with love which was identified with emotional expression no practical help being the responsibility of women while self development was regarded as a masculine concern These traditional images of love and relationships are still held by many Americans today even though as Cancian points out this can lead to marital conflict and individual stress and illness By contrast new images of love emphasizing self development for men and women and flexible androgynous roles began to emerge around 1900 accelerating in the 1960s She concludes that this trend to self development and androgyny will continue but that whether it will lead to more interdependent relationships or to more independence and isolation depends partly on economic and political changes in the wider society The evidence for Cancian's argument comes from sociological historical and psychological sources Her book will interest readers in these disciplines as well as appeal to a wide general audience **Feminist Mysticism and Images of God** Jennie S Knight, 2011-02-28 Feminist theologians often claim

that women's experience is their starting point. However, most feminist theology is remarkably void of analysis of particular women's experiences of imaging God. In this book, Knight provides practical recommendations to help people transform images in the context of religious practices. What difference does it make whether we picture God as an elderly white grandfather, a nurturing African American mother, or a stranger on the bus? Jennie Knight says our image of God affects how we see ourselves, how we worship, how we treat one another, how or whether we work for justice, and a host of other life practices. But after years of knowing intellectually that God transcends a specific human type, Knight still struggles to make an emotional connection with God in different forms. She suspects that that struggle is why many seminarians who wrote papers about the theology abandon nontraditional God images once they hit parish ministry, perpetuating the practice of seeing God as a European male on a throne and all the accompanying problems that such imagery creates. Knight believes that personal and critical reflection in the context of a supportive learning community combined with experiences of diverse images for the divine in worship can lead to profound changes in self-image, relationship with the divine, and agency in the world. This book aims to demonstrate why and how this transformation is both possible and necessary. The popularity of *The Shack*, *The Secret Life of Bees*, *Joan of Arcadia*, and other works with nontraditional God figures reveals a culture ready to embrace God in many forms. Knight examines how the church can do the same.

Bio-pics Ellen Cheshire, 2014-12-16

Bio-pics *A Life in Pictures* offers a series of case studies which throw light on this most unique of genres. Is the bio-pic a genre in its own right? Or are such films merely footnotes in other more traditional genres such as the western or costume drama, depending on the historical figure under scrutiny? Unlike other genre forms, bio-pics seemingly share no familiar iconography, codes, or conventions. They can be set anywhere and at any time. What links them is quite simply that the films depict the life of an important person. Through a carefully selected range of thematically linked English language bio-pics released since 1990, this book explores key issues surrounding their resurgence: narrative structure, production, subject representation, or misrepresentation, and critical response. The films under discussion are grouped around a profession: writers, singers, politicians, sportsmen, criminals, artists, allowing for comparisons to be drawn in approaches to similar subject matter.
