the film industry He shows how a broad spectrum of religious forces have played a role in Hollywood from Presbyterians and Episcopalians to fundamentalists and evangelicals Drawing on personal interviews and previously untouched sources he describes how mainline church leaders lobbied filmmakers to promote the nation's moral health and perhaps surprisingly how they have by and large opposed government censorship preferring instead self regulation by both the industry and individual conscience It is this human choice noted one Protestant leader that is the basis of our religion Tensions with Catholics too have loomed large many Protestant clergy feared the influence of the Legion of Decency more than Hollywood's corrupting power Romanowski shows that the rise of the evangelical movement in the 1970s radically altered the picture in contradictory ways Even as born again clergy denounced Hollywood elites major studios noted the emergence of a lucrative evangelical market 20th Century Fox formed FoxFaith to go after the Passion dollar and Disney took on evangelical Philip Anschutz as a partner to bring The Chronicles of Narnia to the big screen William Romanowski is an award winning commentator on the intersection of religion and popular culture Reforming Hollywood is his most revealing provocative and groundbreaking work on this vital area of American society

Evangelicals and the Arts in Fiction John Weaver, 2013-04-06 This book is an exploration of how the relationship of evangelicals to the arts has been portrayed in fiction for the last century The author

argues that evangelicals are consistently seen as enemies of the arts by non evangelical writers The artist typically represented by a literal artist occasionally by a scientist or reluctant messiah typically has to fight for liberation from such cliched character types as the failed evangelical artist the rube or the hypocritical pastor Rather than resist the cliché of anti art evangelicalism the book contends that evangelicals should embrace it this stereotype is only hurtful so long as one assumes that the arts represent a positive force in human society This work built off the scholarship of John Carey does not make that assumption Surveying the current pro artistic views of most evangelicals the author advances the argument that evangelicals need to return to their anti art roots By doing so they would align themselves with the most radical artistic elements of modernism rather than with the classicists that the movement currently seems to prefer and provide space for themselves to critique how secular artistic stereotypes of evangelicals have economically and artistically marginalized the evangelicals community
