Flames flickered in her eyes as the blood of wicked men dripped from her incredible sword

Life At The Center Of The Energy Crisis: A Technologist's Search For A Black Swan George H Miley,2013-04-30 Life at the Center of the Energy Crisis A Technologist's Search for a Black Swan describes the story of the author's work and struggles in the field of energy research The author's experience in the field spans from work with Admiral Rickover and the Nuclear Navy to research with NASA designing propulsion for spacecraft to travel to Mars The book provides insights into the differences between nuclear research done during the Cold War by the two superpowers and offers a commentary on the flaws in each system with hope for change in the future The book also provides a look into the development of the nuclear engineering program at the University of Illinois from the author's years as a professor and an administrator      Heidegger's Platonism Mark A. Ralkowski,2011-10-27 Heidegger's Platonism challenges Heidegger's 1940 interpretation of Plato as the philosopher who initiated the West's ontological decline into contemporary nihilism Mark A Ralkowski argues that in his earlier lecture course On the Essence of Truth in which he appropriates Plato in a positive light Heidegger discovered the two most important concepts of his later thought namely the difference between the Being of beings and Being as such and the belonging together of Being and man in what he eventually calls Ereignis the event of appropriation Ralkowski shows that far from being the grand villain of metaphysics Plato was in fact the gateway to Heidegger's later period Because Heidegger discovers the seeds of his later thought in his positive appropriation of Plato this book argues that Heidegger's later thought is a return to and phenomenological transformation of Platonism which is ironic not least because Heidegger thought of himself as the West's first truly post Platonic philosopher      **The Swan House (The Swan House Series Book #1)**
