Koponen, 1993-07-30 This work presents a psychological analysis of the process of coming out for gay men in America since 1950 Koponen looks at the process as a series of steps in a hero's journey progressing from initial denial and anger to guilt bargaining and depression The stages of acceptance and integration of a gay identity represent the goal of the quest Providing the common ground on which to analyze the coming out process Koponen uses gay male relationships portrayed in six important American novels *Falconer* by John Cheever *City of the Night* by John Rechy *Giovanni's Room* by James Baldwin *The Beautiful Room Is Empty* by Edmund White *Dancer from the Dance* by Andrew Holleran and *Taking Care of Mrs Carroll* by Paul Monette This book not only is literary study but also is intended to help gay men reflect on their shared lived experiences Self help exercises on identifying and examining the stages of coming out are provided throughout the analysis

James Baldwin's Later Fiction Lynn O. Scott, 2002-02-28 James Baldwin's *Later Fiction* examines the decline of Baldwin's reputation after the middle 1960s his tepid reception in mainstream and academic venues and the ways in which critics have often misrepresented and undervalued his work Scott develops readings of *Tell Me How Long the Train's Been Gone* *If Beale Street Could Talk* and *Just Above My Head* that explore the interconnected themes in Baldwin's work the role of the family in sustaining the arts the price of success in American society and the struggle of black artists to change the ways that race sex and masculinity are represented in American culture Scott argues that Baldwin's later writing crosses the cultural divide between the 1950s and 1960s in response to the civil rights and black power movements Baldwin's earlier works his political activism and sexual politics and traditions of African American autobiography and fiction all play prominent roles in Scott's analysis

Modern American Queer History Allida Mae Black, 2001 In the twentieth century countless Americans claimed gay lesbian bisexual and transgender identities forming a movement to secure social as well as political equality This collection of essays considers the history as well as the historiography of the queer identities and struggles that developed in the United States in the midst of widespread upheaval and change Whether the subject is an individual life story a community study or an aspect of public policy these essays illuminate the ways in which individuals in various locales understood the nature of their desires and the possibilities of resisting dominant views of normality and deviance Theoretically informed but accessible the essays shed light too on the difficulties of writing history when documentary evidence is sparse or coded Taken together these essays suggest that while some individuals and social networks might never emerge from the shadows the persistent exploration of the past for their traces is an integral part of the on going struggle for queer rights
