Jörgensen, 2011-12-01 2012 Best Book in the Humanities presented by the Mexico Section of the Latin American Studies Assn Examines the theory and practice of nonfiction narrative literature in twentieth century Mexico In the turbulent twentieth century large numbers of Mexicans of all social classes faced crisis and catastrophe on a seemingly continuous basis

Revolution earthquakes industrial disasters political and labor unrest as well as indigenous insurgency placed extraordinary pressures on collective and individual identity In contemporary literary studies nonfiction literatures have received scant attention compared to the more supposedly creative practices of fictional narrative poetry and drama In Documents in Crisis Beth E J rgensen examines a selection of both canonical and lesser known examples of narrative nonfiction that were written in response to these crises including the autobiography memoir historical essay testimony chronicle and ethnographic life narrative She addresses the relative neglect of Mexican nonfiction in criticism and theory and demonstrates its continuing relevance for writers and readers who in spite of the contemporary blurring of boundaries between fiction and nonfiction remain fascinated by literatures of fact a solidly informative book Revista de Estudios Hisp nicos This book examines traditional fact based genres autobiography chronicle essay ethnography memoir testimony and travel writing as undertaken by some of Mexico s best known writers Within a broad conceptual framework J rgensen engages with the work and does an excellent job Highly recommended CHOICE I can always count on Beth J rgensen s work for clearly written smart analysis of the Mexican cultural scene She is of course the author of an important study on Elena Poniatowska and is known for her deep knowledge of Mexican nonfiction writers cronistas She brings this strength to her new book as well where her deep familiarity and long interest in Mexican cultural forms lends her book an assured and confident grounding Debra A Castillo author of Redreaming America Toward a Bilingual American Culture Youth, Inequality and Social Change in the Global South Hernan Cuervo, Ana Miranda, 2019-02-25 This book gathers international and interdisciplinary work on youth studies from the Global South exploring issues such as continuity and change in youth transitions from education to work contemporary debates on the impact of mobility marginalization and violence on young lives how digital technologies shape youth experiences and how different institutions cultures and structures generate a diversity of experiences of what it means to be young The book is divided into four broad thematic sections a Education work and social structure b Identity and belonging c Place mobilities and marginalization and d Power social conflict and new forms of political participation of youth

Handbook of Children and Youth Studies Johanna Wyn, Helen Cahill, Hernán Cuervo, 2024-08-20 This second edition of the handbook gives a new scientific perspective to youth and childhood studies as multi scientific and interdisciplinary subjects which as such have not yet found their own framing in a particular discipline It provides theoretical and methodological key debates and issues that develop and add an understanding of childhood and youth research discipline from a broader perspective The Handbook on Children and Youth Studies draws on current thinking but also challenges theoretical and conceptual orthodoxies in the field drawing on interdisciplinary thinking and critical perspectives It focuses on childhood and youth to address the emerging consensus that the boundaries between childhood youth and adulthood are blurred The view that defining youth and childhood largely in terms of problem topics is out dated Instead the handbook focuses on 16 themes that are open to international perspectives and to different conceptual approaches Each theme is

edited by a pair of field editors thereby capturing a plurality of views The 16 themes as a starting point are globally timely and they need scientific debates on the boundaries between childhoods youth and adulthood This handbook will meet the needs of childhood and youth researchers and the academics in the field It recognizes the changing social context of the lives of children and young people while developing theoretical frameworks and discussing about the core substantive issues of Children and Youth Studies Democracy, Citizenship and Youth Itamar Silva, Anna Luiza Salles Souto Ferreira, 2009-08-30 What is the place of young people in society today This book presents a searching and comprehensive picture of youth demonstrating both its diversity and singularity and helping to dispel many of the myths discriminations stigmas and prejudices attached to this segment of society Drawing on a vast empirical research exercise including over 8000 interviews and 40 focus groups in eight metropolitan areas of Brazil this book explores the most important aspects of young people's social participation and the resulting challenges for public policy With clear resonance beyond Brazil this research is designed to inform youth policy strategies in the developing and developed world *New Approaches to Latin American Studies* Juan Poblete, 2017-09-13 Academic and research fields are moved by fads waves revolutionaries paradigm shifts and turns They all imply a certain degree of change that alters the conditions of a stable system producing an imbalance that needs to be addressed by the field itself *New Approaches to Latin American Studies* Culture and Power offers researchers and students from different theoretical fields an essential turn organized overview of the radical transformation of epistemological and methodological assumptions in Latin American Studies from the end of the 1980s to the present Sixteen chapters written by experts in their respective fields help explain the various ways in which to think about these shifts Questions posited include Why are turns so crucial How did they alter the shape or direction of the field What new questions objects or problems did they contribute What were or are their limitations What did they displace or prevent us from considering Among the turns included are memory transnational popular culture decolonial feminism affect indigenous studies transatlantic ethical post hegemony deconstruction cultural policy subalternism gender and sexuality performance and cultural studies **The Routledge Handbook to the History and Society of the Americas** Olaf Kaltmeier, Josef Raab, Mike Foley, Alice Nash, Stefan Rinke, Mario Rufer, 2019-04-12 The colonial heritage and its renewed aftermaths expressed in the inter American experiences of slavery indigeneity dependence and freedom movements to mention only a few aspects form a common ground of experience in the Western Hemisphere The flow of peoples goods knowledge and finances have promoted interdependence and integration that cut across borders and link the countries of North and South America together The nature of this transversally related and multiply interconnected region can only be captured through a transnational multidisciplinary and comprehensive approach The Routledge Handbook to the History and Society of the Americas explores the history and society of the Americas placing particular emphasis on collective and intertwined experiences Forty four chapters cover a range of concepts and dynamics in the Americas from the colonial period until the

present century The shared histories and dynamics of Inter American relationships are considered through pre Hispanic empires colonization European hegemony migration multiculturalism and political and economic interdependences Key concepts are selected and explored from different geopolitical disciplinary and epistemological perspectives Highlighting the contested character of key concepts that are usually defined in strict disciplinary terms the Handbook provides the basis for a better and deeper understanding of inter American entanglements This multidisciplinary approach will be of interest to a broad array of academic scholars and students in history sociology political science cultural postcolonial gender literary and globalization studies

Global Views of Adolescence Devin G. Thornburg, 2021-02-04 This book addresses what teachers and school leaders from a dozen countries see as the social and emotional strengths interests and needs of adolescents in their schools and communities how they innovate their programs and practices to respond to their students lives The book also describes how educators themselves benefit from social and emotional supports to be responsive Rather than assume that there are universal themes in adolescents lives the book is intended to illuminate the local contextual and powerful insights of educators daily working with students In many intentional respects each serves as an action research study with an effort to better the process and outcomes of their students growth and learning as well as to enrich the classroom The chapters are organized by themes ranging from challenges adolescents face in that particular locale to curriculum work that is project based transdisciplinary and tied to the communities where the adolescents live The voices of adolescents particularly with regard to their social and emotional development have been neglected in the literature Thus we know very little about their feelings and personal experiences as they progress through their schooling A book such as this will be beneficial in terms of providing a contribution to this field thereby increasing our understanding of the issues faced by adolescents across countries and cultures Peggy L Anderson Ph D Metropolitan State University of Denver The outstanding strength of this book is quite precisely its international scope here is an anthology that lives up to the claims made by its title Anyone interested in either adolescent development or Social and Emotional Learning in real world as opposed to abstract settings will appreciate the breadth of experience described Mokhtar El Maouhal Laboratoire de Recherche sur les Langues et la Communication

De Secundaria. Un Estudio De La Dinámica Cultural En La Construcción De La Vida Escolar María López Garcés, 2011-10-20 Ser Estudiante de Secundaria es el resultado de una investigación para doctorado enfocada al análisis de la dinámica cultural que se gesta en la escuela secundaria a partir de la participación de los estudiantes La perspectiva de ver la participación de los estudiantes es importante ya que desde la organización de la escuela son considerados como sujetos pasivos a quienes se dotar de conocimientos habilidades y destrezas y no se piensa en lo que aportan para la transformación de las prácticas en el interior del plantel Por lo que en este texto se concibe a los estudiantes como portadores de significados culturales que llevan a la escuela que ponen en juego en sus acciones y que están a la base de las negociaciones en torno a las actividades escolares en las que implícitamente participan Se plasman cuestiones relativas a la forma en cómo las culturas juveniles irrumpen en la cultura de la escuela para recobrar la heterogeneidad de la vida escolar En este sentido con este libro se pretende aproximar a maestros de secundaria estudiantes para maestro padres de familia y a lectores en general al conocimiento de cómo los jóvenes estudiantes de secundaria mediante sus relaciones prácticas participaciones y apropiaciones en la escuela construyen y re construyen constantemente la dinámica cultural La Doctora Mara López Garces es Licenciada en el área de Ciencias Naturales por la Normal Superior de México y obtuvo su Doctorado en Educación por la Universidad Pedagógica Nacional con Mérito Honorífico *En busca de las condiciones juveniles latinoamericanas* Sara Victoria Alvarado , Pablo Vommaro , Este libro no podrá ser más que la búsqueda inacabada de múltiples experiencias situadas El ser joven en el mundo contemporáneo se revela como un acontecimiento que transgrede el paisaje de las estigmatizaciones y los imaginarios instituidos Jóvenes que emergen desde otros lugares de acción y enunciación reinventan los escenarios políticos de la América invertida Un Sur en condición juvenil habita en la diversidad de voces y rostros que aquí se hacen audibles y visibles Ante la fuerza expresiva de sus manifestaciones la melancolía del no futuro se desvanece lentamente y la impronta nihilista del carácter finisecular de la juventud se transforma en artes de la existencia y en actos de re existencia Jaime Pineda Muñoz
