Malik, 1996-11-13 Problems of governance in Pakistan are rooted in a persistently unclear and antagonistic relationship among the forces of authority ideology and ethnicity Based on theoretical and empirical research this book focuses on significant themes such as the oligarchic state structure dominated by the military and bureaucracy civil society Islam and the formation of Muslim identity in British India constitutional traditions and their subversion by coercive policies politics of gender ethnicity and Muslim nationalism versus regional nationalisms as espoused by Sindhi nationalists and the Karachi based Muhajir Qaumi Movement MQM **The Politics of Common Sense** Aasim Sajjad Akhtar, 2018-02-01 This work offers a refreshingly different perspective on Pakistan it documents the evolution of Pakistan s structure of power over the past four decades In particular how the military dictatorship headed by General Zia ul Haq 1977 1988 whose rule has been almost exclusively associated with a narrow agenda of Islamisation transformed the political field through a combination of coercion and consent production The Zia regime inculcated within the society at large a common sense privileging the cultivation of patronage ties and the concurrent demeaning of counter hegemonic political practices which had threatened the structure of power in the decade before the military coup in 1977 The book meticulously demonstrates how the politics of common sense has been consolidated in the past three decades through the agency of emergent social forces such as traders and merchants as well as the religio political organisations that gained in influence during the 1980s **Government and Politics in South Asia, Student Economy Edition** Robert Oberst, 2018-04-27 This book describes the countries of South Asia and examines the reason for their successes and failures It addresses the interrelationships among the states in the region and their roles in the international system and discusses the political development of the region **Government and Politics in South Asia** Robert C Oberst, 2018-04-19 This comprehensive but accessible text provides students with a systematic introduction to the comparative political study of the leading nations of South Asia India Pakistan Bangladesh Sri Lanka and Nepal The seventh

*The Dynamics of States* Klaus Schlichte, 2016-12-05 State domination in the non Western world is hallmarked by its constantly shifting character This stimulating book develops a new approach to the study of state formation and state erosion to explain dynamics that neither follow the pathways of development nor the rule of stagnation that dependency theory once suggested Carefully edited by Klaus Schlichte this book provides a fresh angle to the study of states with an attempt to overcome Weber with Weber The approach focuses on the historical authenticity of states and their institutional frameworks describing the trajectories taken as they react to the effects of changes in their international and local social environments The emphasis laid on the specific characteristics of individual states does not however lead to the theoretical difficulty of a new contextual relativism The conceptual design employs sociological categories developed by Max Weber Norbert Elias Michel Foucault Pierre Bourdieu and others

**Contemporary Pakistan** Veena Kukreja, 2003-02-24 Veena Kukreja provides a rare reasoned analysis of the political processes at work in contemporary Pakistan and an objective understanding of the problems and crises confronting the country The author points out that for 25 out of the 53 years of its existence the military has been the arbiter of Pakistan's destiny The military she maintains regards its dominance of Pakistani politics not only as a right but as a duty As a result state security has taken precedence over the need to create participatory political processes and institutions The book points out that the terrorist attacks of 11 September 2001 and the resulting US offensive in Afghanistan has put the military regime in Islamabad in a tight spot Caught between unyielding ulemas a faltering economy and American pressure to demolish militant networks in Pakistan these recent developments combined with the dangerous cleavage within Pakistani society could well push that country into another bout of instability and even anarchy The situation is made more complex by the nexus between terrorism and drugs **Breakdown in Pakistan** Masooda Bano, 2012-04-25 Thirty percent of foreign development aid is channeled through NGOs or community based organizations to improve service delivery to the poor build social capital and establish democracy in developing nations However growing evidence suggests that aid often erodes rather than promotes cooperation within developing nations This book presents a rare micro level account of the complex decision making processes that bring individuals together to form collective action platforms It then examines why aid often breaks down the very institutions for collective action that it aims to promote Breakdown in Pakistan identifies concrete measures to check the erosion of cooperation in foreign aid scenarios Pakistan is one of the largest recipients of international development aid and therefore the empirical details presented are particularly relevant for policy The book's argument is equally applicable to a number of other developing countries and has important implications for recent discussions within the field of economics Political Perspectives on the Muslim World Asaf Hussain, 1984-08-23 This study is designed to serve as

an introduction to the political situation of the Muslim World and to bridge the gap between theoretical and descriptive studies

**Historical Dictionary of Pakistan** Shahid Javed Burki, 2015-03-19 Pakistan is unlike most other countries in the emerging world. It is one of the two nations the other being the state of Israel founded on the basis of religion. Although it was created to provide a homeland for the Muslim community of British India in its original form it was able to accommodate only about half of the people of Islamic faith who lived in the subcontinent. Pakistan's birth in 1947 resulted in one of the largest movements of people in human history when some 14 million people left their homes with 8 million Muslims leaving India for what is now Pakistan and 6 million Hindus and Sikhs moving in the opposite direction. This was the first large scale incidence of ethnic cleansing the world was to witness. This fourth edition of Historical Dictionary of Pakistan covers its history through a chronology, an introductory essay, appendixes and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Pakistan.

**Legal Perspectives on Security Institutions** Hitoshi Nasu, Kim Rubenstein, 2015-07-24 Due to the continuing expansion of the notion of security, various national, regional, and international institutions now find themselves addressing contemporary security issues. While institutions may evolve by adjusting themselves to new challenges, they can also fundamentally alter the intricate balance between security and current legal frameworks. This volume explores the tensions that occur when institutions address contemporary security threats in both public and international law contexts. As part of the Connecting International with Public Law series, it provides important and valuable insights into the legal issues and perspectives which surround the institutional responses to contemporary security challenges. It is essential reading for scholars, practitioners, and policy makers seeking to understand the legal significance of security institutions and the implications of their evolution on the rule of law and legitimacy.

**Public Administration in the Third World** V. Subramaniam, 1990-06-26 This multi-author reference handbook gives a detailed, objective picture of the evolution, structure, and processes of public administration in representative Third World countries. Written by an international group of specialists with first-hand knowledge of the subject, it presents empirical studies of developing nations in Asia, the Middle East, North and Sub-Saharan Africa, the West Indies, and Latin America. The resulting data are shaped by the editor into a theoretical framework delineating the complex relationships of state, bureaucracy, and class in the Third World. Subramaniam's introduction provides a critical overview of development literature in the field. Each case study begins with an historical introduction and discusses the political, executive, and the administrative structures and processes. Among the specific topics covered are public enterprises, administrative departments, personnel, financial administration, and regional and local administrative units. The majority of the systems studied are affected by the unregulated power of public enterprises, the persistence of colonial legacies, and the elitism of the bureaucracy. The concluding section relates these common elements to the sociohistorical characteristics of the middle class.
