E. have been added when encountered but rare plants have not been listed A literal translation of the scientific name has been given in the cases where a name of a plant in a particular language especially Spanish did not seem to exist or could not be found in the consulted sources The user will find this dictionary of considerable value as an aid to translation work

Elsevier's Dictionary of Plant Names and Their Origin ,2000-07-19 The dictionary contains about 30 000 vernacular and literary English names of plants plus a few American both wild and cultivated with their botanical name and a brief account of the names meaning if known It was conceived as part of the author s wider interest in plant and tree lore and ethnobotanical studies Knowledge of plant names can give insight into largely forgotten beliefs Why for example is or was the common red poppy known as Blind Man An old superstition has it that if the poppy were put to the eyes it would cause blindness Such names were probably the result of some taboo against picking the plant Similarly other names were likely to have been applied as a result of a country mother s warning to her children against eating poisonous berries For the warning carries more weight when the name given to the berry reinforces the warning Many such plants or fruits may be ascribed to the devil Devil s Berries for Deadly Nightshade is an example Names may also be purely descriptive and can also serve to explain the meaning of the botanical name Beauty Berry is an example it is the name given to the American shrub that belongs to the genus *Callicarpa* which is made up of two Greek words that mean beauty and berry Literary or book names have also been included in this dictionary as being a very important part of the whole Many of them provide links in the transmission of words through the ages Thor s Beard for example is a book name for houseleek and has never been used in the dialect But it highlights the legend that houseleek is a lightning plant and by reverse logic is a preserver from fire
