The Oxford Handbook of Christian Monasticism Bernice M. Kaczynski, 2020-09-29 The Handbook takes as its subject the complex phenomenon of Christian monasticism It addresses for the first time in one volume the multiple strands of Christian monastic practice Forty four essays consider historical and thematic aspects of the Catholic Eastern Orthodox Oriental Orthodox Protestant and Anglican traditions as well as contemporary new monasticism The essays in the book span a period of nearly two thousand years from late ancient times through the medieval and early modern eras on to the present day Taken together they offer not a narrative survey but rather a map of the vast terrain The intention of the Handbook is to provide a balance of some essential

historical coverage with a representative sample of current thinking on monasticism. It presents the work of both academic and monastic authors and the essays are best understood as a series of loosely linked episodes forming a long chain of enquiry and allowing for various points of view. The authors are a diverse and international group who bring a wide range of critical perspectives to bear on pertinent themes and issues. They indicate developing trends in their areas of specialisation. The individual contributions and the volume as a whole set out an agenda for the future direction of monastic studies. In today's world where there is increasing interest in all world monasticisms where scholars are adopting more capacious global approaches to their investigations and where monks and nuns are casting a fresh eye on their ancient traditions, this publication is especially timely.

Unrivalled Influence Judith Herrin, 2013-03-13 *Unrivalled Influence* explores the exceptional roles that women played in the vibrant cultural and political life of medieval Byzantium. Written by one of the world's foremost historians of the Byzantine millennium, this landmark book evokes the complex and exotic world of Byzantium's women from empresses and saints to uneducated rural widows. Drawing on a diverse range of sources, Judith Herrin sheds light on the importance of marriage in imperial statecraft, the tense coexistence of empresses in the imperial court and the critical relationships of mothers and daughters. She looks at women's interactions with eunuchs, the in-between gender in Byzantine society and shows how women defended their rights to hold land. Herrin describes how they controlled their inheritances, participated in urban crowds demanding the dismissal of corrupt officials, followed the processions of holy icons and relics and marked religious feasts with liturgical celebrations, market activity and holiday pleasures. The vivid portraits that emerge here reveal how women exerted an unrivalled influence on the patriarchal society of Byzantium and remained active participants in the many changes that occurred throughout the empire's millennial history. *Unrivalled Influence* brings together Herrin's finest essays on women and gender written throughout the long span of her esteemed career. This volume includes three new essays published here for the very first time and a new general introduction by Herrin. She also provides a concise introduction to each essay that describes how it came to be written and how it fits into her broader views about women and Byzantium.

Monastic Perspectives on Temporality Riitta Hujanen, 2023-08-07 In this book Riitta Hujanen explores temporality in the context of Catholic enclosed contemplative traditions. It investigates based on literature and other sources what enclosed contemplatives might say about temporality through their monastic journeys. What makes a young person decide to dedicate their life inside a cloister? Do contemplatives have a preference for eternity over temporal time? How does the enclosed contemplative life impact one's concept of time? How is time perceived towards the end of one's monastic journey? What is seen when looking back to the years in the

enclosed contemplative life What is experienced at the hour of death The answers to these questions illustrate a paradoxical dynamic in monastic journeys that cover a broad historical scope from the earliest monastic writers to contemporary sources

John Moschos' Spiritual Meadow Brenda Llewellyn Ihssen, 2016-05-06 John Moschos *Spiritual Meadow* is one of the most important sources for late sixth early seventh century Palestinian Syrian and Egyptian monasticism This undisputedly invaluable collection of beneficial tales provides contemporary society with a fuller picture of an imperfect social history of this period it is a rich source for understanding not only the piety of the monk but also the poor farmer Brenda Llewellyn Ihssen fills a lacuna in classical monastic secondary literature by highlighting Moschos unique contribution to the way in which a fertile Christian theology informed the ethics of not only those serving at the altar but also those being served Introducing appropriate historical and theological background to the tales Llewellyn Ihssen demonstrates how Moschos tales addresses issues of the autonomy of individual ascetics and lay persons in relationship with authority figures Economic practices health care death and burials of lay persons and ascetics are examined for the theology and history that they obscure and reveal Whilst teaching us about the complicated relationships between personal agency and divine intercession Moschos tales can also be seen to reveal liminal boundaries we know existed between the secular and the religious

Superior Women Jennifer C. Edwards, 2019-07-11 *Superior Women* examines the claims of abbesses of the abbey of Sainte Croix in medieval Poitiers to authority from the abbey's foundation to its 1520 reform These women claimed to hold authority over their own community over dependent chapters of male canons and over extensive properties in Poitou male officials such as the king of France and the pope repeatedly supported these claims To secure this support the abbesses relied on two strategies that the abbey's founder the sixth century Saint Radegund established they documented support from a network of allies made up of powerful secular and ecclesiastical officials and they used artefacts left from Radegund's life to shape her cult and win new patrons and allies Abbesses across the 900 years of this study routinely turned to these strategies successfully when faced with conflict from dependents or more local officials such as the bishop of Poitiers Sainte Croix's nuns proved adept at tailoring these strategies to shifting historical contexts turning from Frankish bishops to the kings of Frankia then to the Pope and finally to the King of France as former allies became unavailable to them The book demonstrates respectful cooperation between men and monastic women and more extensive respect for female monastic authority than scholars typically recognize Chapters focus on the cult's manuscripts church decoration procession jurisdictions between cult institutions reform and rebellion **Jonas of Bobbio and the Legacy of Columbanus**
