1979 1982 looks at the crucial role the building industry plays in the national economy not only as a major direct contributor to GNP but also its effect on a variety of areas from institutional finance to the DIY market The nature of this effect forms the theme of this study which examines and documents the interplay of new materials and technologies costs and the changing social and economic forces that affected decision making over what kinds of buildings to construct or indeed to knock down in which locations and when Rites of Power Sean Wilentz,1999-03-23 Collection drawn from the essays presented to and discussed by the Shelby Cullom Davis Center seminar from 1980 to 1982 Includes bibliographies and index **Guide to the Literature of Art History 2** Max Marmor,Alex Ross,2005 This bibliography supplements the greatest of modern art bibliographies Etta Arntzen and Robert Rainwater s Guide to the literature of art history ALA 1980 Preface **A Guide to Gothic Architecture** Thomas Francis Bumpus,1914 **Designs on Democracy** Neal Shasore,2022-08-22 Designs on Democracy examines a pivotal period in the formation of the modern profession of architecture in Britain It shows how architects sought to meet the newly articulated demands of a mass democracy in the wake of the First World War It does so by providing a vivid picture of architectural culture in interwar London the Imperial metropolis drawing on histories of design practice professionalism and representation Most accounts of this period tend to deal exclusively with the emergence of Modernism this study takes a different approach encompassing a much broader perspective on the liberal professional consensus that held sway including architecture s mainstream and its so called avant garde Readers will encounter a number of unexpected narratives episodes and projects from the British Empire Exhibition at Wembley to the rebuilding of Waterloo Bridge from the impact of the Great Slump to the passing of the first Architects Registration Act 1931 from Trystan Edwards s radical housing campaigns to the Londoners League s unorthodox preservationism Pulling in a range of evidence and sources periodicals exhibitions photographs and films alongside architecture it evokes architectural culture by listening carefully to the tenor of its discourse Architecture s public realm is thus analysed through sometimes surprising phrases manners to understand ideals of public propriety vigilance to explore public proprietorship slump to contextualise the emergence of public relations machine craft to understand the forging of public institutions The volume spans the excitable discussions about the reconstruction of the profession for a democratic age after WWI to reconstruction and planning following WWII providing an ambitious revision of how we can understand twentieth century architecture in Britain
