Vacc, Larry C. Loesch, 2000 A textbook designed specifically to parallel and fulfill the eight core curriculum area standards of the Council for the Accreditation of Counseling and Related Educational Programs the primary framework for preparing counselors in the US Vacc counseling and educational development U of North Carolina Greensboro and Loesch counselor education U of Florida have updated and expanded the coverage for the third edition they do not mention when the first two were published Annotation copyrighted by Book News Inc Portland OR **Toward Effective Counseling and Psychotherapy** Robert Carkhuff, 2017-09-29 The field of counseling and psychotherapy has for years presented the puzzling spectacle of unabating enthusiasm for forms of treatment whose effectiveness cannot be objectively demonstrated With few exceptions statistical studies have consistently failed to show that any form of psychotherapy is followed by significantly more improvement than would be caused by the mere passage of an equivalent

period of time Despite this practitioners of various psychotherapeutic schools have remained firmly convinced that their methods are effective Many recipients of these forms of treatment also believe that they are being helped The series of investigations reported in this impressive book resolve this paradoxical state of affairs The investigators have overcome two major obstacles to progress in the past lack of agreement on measures of improvement and difficulty of measuring active ingredients of the psychotherapy relationship The inability of therapists of different theoretical persuasions to agree on criteria of improvement has made comparison of the results of different forms of treatment nearly impossible The authors have solved this intractable problem by using a wide range of improvement measures and showing that regardless of measures used in different studies a significantly higher proportion of results favor their hypothesis than disregard it Overall this book represented a major advance at the time of its original publication and is of continuing importance The research findings resolve some of the most stubborn research problems in psychotherapy and the training program based on them points the way toward overcoming the shortage of psychotherapists **Counseling and Psychotherapy** C. Counselor Supervision Loretta J. Bradley, Nicholas Ladany, 2001. This book represents a complete overhaul of a classic text for the twenty-first century. Loretta Bradley and new co-author/editor Nicholas Ladany have completely revised the material to reflect the most current research, theory, and practice available. In doing so, they have made *Counselor Supervision* 3e a cutting-edge model of multicultural supervision. Primary supervision theories are reviewed and critiqued with the intent of informing supervisor practitioners, counselor educators, and supervisor trainees. Case studies are used throughout the book to illustrate the application of these theories to the practical issues that supervisors regularly encounter. The authors also include a focused discussion on the importance of the supervisory relationship and its influence on supervision process and outcome. Important changes and additions to the new edition include integration of multicultural issues in supervision throughout the book, an examination of the ethical and advocacy issues in supervision, an innovative chapter devoted to understanding and conducting research in counselor supervision, new and relevant chapters on the supervision of school counselors, career counselors, and family counselors, an updated chapter on group supervision. *Counselor Supervision* is ideal for use as a textbook in counselor supervision courses.
