Ego Mankind's Inner Terrorist The:

The Ego-Mankind's Inner Terrorist! Gene Matlock, 2005-09 Gene Matlock says personal testimonies of reincarnation contact with spirits bilocation and all manner of psychic events are invalid as scientific proofs Most people aren't conscious of psychic experiences and events operating in their lives Gene says that we can and must provide our fellow humans with a common and collective memory of having lived before They don't need to remember any details of past lives but just the memory of having had repeated births and deaths Gene claims to have valid evidence that all of us remember having lived before Gene also traces the original meaning of God back to its North Indian roots telling how God reveals his/her existence through natural archetypes He says Christianity originated more than ten millennia ago in India as Krishtaya providing historical evidence He also explains carefully why religion can never be eradicated plus many other fascinating and little known facts Gene shows how anyone can break the Bible Code easily without computer assistance Within these pages is a simple instant Cabala for all people of all religions Christianity--Mankind's First Worldwide Religion! Gene Matlock, 2005-12 It is my hope that this book will help all humans understand just exactly what Buddhism Ketuloka or Krishtaya is and apply its principles according to the uniqueness and level of their respective understandings for the improvement of their lives Christianity Catholicism was mankind's first and oldest worldwide religion According to author Gene Matlock Christianity merely stepped into the shoes of an ancient existing worldwide religion of the same name The infant Church did not begin to call itself Christianity until two or three hundred years after it was established Before the Great Flood Krishtayana was brought to India from Eastern Siberia by a highly civilized Turkish tribe called Kurus or Krishtaya The Kurus were the world's first highly developed civilization predating India Egypt and Sumeria After conquering India the Kurus went on to conquer the world including Middle America The Caribbean Indians told the Spanish that their gods were the Kurus Rumi Nearly all the Indian tribes of both Americas will find their respective tribes Turkish and North Indian origins in this book But what happened to keep Turkey from receiving credit as the founder of all human civilizations as well as the first religion Christianity Mankind's First Worldwide Religion clears up many mysteries and shows that Jesus Christ really was all that Christians have been taught he was *Terror, Violence, and the Impulse to Destroy* John Beebe, 2003 Papers from the 2002 North American Conference of Jungian Analysts and Candidates These papers address the process of terror as it confronts us in international situations and in outbreaks of violence in homes and schools The thirteen contributors seasoned Jungian analysts and psychotherapists have often faced the reality of undermining destructiveness in their work with clients Here they offer their theoretical and therapeutic insights drawing from their experience of the psyche's healing resources to identify the consciousness we need if we are to survive and reverse the contagion of hostility This book provides an opportunity to learn what can inform the human spirit to prevail over the forces that threaten its integrity and compassion *On Fear, Horror, and Terror: Giving Utterance to the Unutterable* Pedro Querido, María

Sacred Jung Soul and Meaning in an Age of Change David Tacey presents a unique psychological study of the postsecular adding a Jungian perspective to a debate shaped by sociology philosophy and religious studies In this interdisciplinary exploration Tacey looks at the unexpected return of the sacred in Western societies and how the sacred is changing our understanding of humanity and culture Beginning with Jung's belief that the psyche has never been secular Tacey examines the new desire for spiritual experience and presents a logic of the unconscious to explain it Tacey argues that what has fuelled the postsecular momentum is the awareness that something is missing and the idea that this could be buried in the unconscious is dawning on sociologists and philosophers While the instinct to connect to something greater is returning Tacey shows that this need not imply that we are regressing to superstitions that science has rejected The book explores indigenous spirituality in the context of the need to reanimate the world not by going back to the past but by being inspired by it There are chapters on ecopsychology and quantum physics and using Australia as a case study the book also examines the resistance of secular societies to becoming postsecular Approaching postsecularism through a Jungian perspective Tacey argues that we should understand God in a manner that accords with the time not go back to archaic rejected images of divinity The sacred is returning in an age of terrorism and this is not without significance in terms of the explosive impact of spirituality in our time Innovative and relevant to the world we live in this will be of great interest to academics and scholars of Jungian studies anthropology indigenous studies philosophy religious studies and sociology due to its transdisciplinary scope It would also be a useful resource for analytical psychologists Jungian analysts and psychotherapists
