In every era, black inventors have made people's lives safer, more comfortable, more convenient, and more profitable. This inspiring comprehensive collection shines history's spotlight on these courageous inventors and discoverers. One by one, they persevered despite prejudice and obstacles to education and training. These stories show you how Benjamin Montgomery, born a slave, invented a propeller that improved steamboat navigation. Jan Earnst Matzeliger, the son of a Dutch engineer, invented a machine that revolutionized the shoe manufacturing industry. Madame C. J. Walker, born two years after the Civil War, emancipated her parents, invented a product that helped make her a millionaire. Dr. George E. Carruthers, an astrophysicist, invented the lunar surface ultraviolet camera spectrograph for Apollo 16. Dr. Jane Cooke Wright, a third-generation physician and pioneer in the field of cancer research, discovered a method for testing which drugs to use to fight specific cancers. Dr. Wright became the first woman elected president of the New York Cancer Society and the first African American woman to serve as dean of a medical college.
