African American Authors, 1745-1945 Emmanuel S. Nelson, 2000-01-30 There has been a dramatic resurgence of interest in early African American writing Since the accidental rediscovery and republication of Harriet Wilson's *Our Nig* in 1983 the works of dozens of 19th and early 20th century black writers have been recovered and reprinted There is now a significant revival of interest in the Harlem Renaissance of the 1920s and in the last decade alone several major assessments of 18th and 19th century African American literature have been published Early African American literature builds on a strong oral tradition of songs folktales and sermons Slave narratives began to appear during the late 18th and early 19th century and later writers began to engage a variety of themes in diverse genres A central objective of this reference book is to provide a wide ranging introduction to the first 200 years of African American literature Included are alphabetically arranged entries for 78 black writers active between 1745 and 1945 Among these writers are essayists novelists short story writers poets playwrights and autobiographers Each entry is written by an expert contributor and provides a biography a discussion of major works and themes an overview of the author's critical reception and primary and secondary bibliographies The volume concludes with a selected general bibliography

Midcentury Quartet Thomas J. Travisano, 1999-12-29 In a February 1966 letter to her artistic confidant Robert Lowell Elizabeth Bishop tellingly grouped four

midcentury poets Lowell Randall Jarrell John Berryman and herself For Bishop always wary of being pigeonholed and therefore reticent about naming her favorite contemporaries it was a rare explicit acknowledgment of an informal but enduring artistic circle that has evaded the notice of literary journalists for more than forty years Despite the private nature of their dialogue the group's members Bishop Lowell Jarrell and Berryman left a compelling record of their mutual interchange and influence Drawing on an extensive range of published and archival sources Thomas Travisano traces these poets' creation of a surprisingly coherent postmodern aesthetic and defines its continuing influence on American poetry The refusal of this midcentury quartet as Travisano calls them to voice a formalized doctrine coupled with their intuitive way of working has caused critics to miss the coherence of their project Travisano argues that these poets are not only successors to Pound Auden Stevens and Eliot but postmodern explorers in their own right In forging their own aesthetic characterized here as a postmodern mode of elegy they encountered significant resistance from their immediate modernist mentors Allen Tate John Crowe Ransom and Marianne Moore Jarrell whom others of the group regarded as a critic of particular genius was first described as a postmodernist in a 1941 review by Ransom that Travisano cites as the earliest known use of the term In Jarrell's review of Lowell's *Lord Weary's Castle* six years later he named Lowell a postmodernist and identified traits among them the use of pastiche that are now considered by theorists such as Fredric Jameson as specifically postmodern And Bishop's inventiveness allowed her to adapt a self-exploratory mode often but imprecisely termed confessional to challenging forms such as the double sonnet villanelle and sestina Each of these poets suffered a devastating loss during childhood and lived through the twentieth-century disasters of the Great Depression World War II and the Holocaust and the cold war The continual tension in their poetry between subjectivity and form claims Travisano reflects the plight of the fractured individual in a postmodern world By arguing so sharply for the importance of this circle Midcentury Quartet is certain to redraw the map of postwar American poetry

Galenson, 2006 When in their lives do great artists produce their greatest art Do they strive for creative perfection throughout decades of painstaking and frustrating experimentation or do they achieve it confidently and decisively through meticulous planning that yields masterpieces early in their lives By examining the careers not only of great painters but also of important sculptors poets novelists and movie directors Old Masters and Young Geniuses offers a profound new understanding of artistic creativity Using a wide range of evidence David Galenson demonstrates that there are two fundamentally different approaches to innovation and that each is associated with a distinct pattern of discovery over a lifetime Experimental innovators work by trial and error and arrive at their major contributions gradually late in life In contrast conceptual innovators make sudden breakthroughs by formulating new ideas usually at an early age Galenson shows why such artists as Michelangelo Rembrandt C zanne Jackson Pollock Virginia Woolf Robert Frost and Alfred Hitchcock were experimental old masters and why Vermeer van Gogh Picasso Herman Melville James Joyce Sylvia Plath and Orson Welles were conceptual young geniuses He also explains how this changes our understanding of art and its past Experimental innovators seek and conceptual innovators find By illuminating the differences between them this pioneering book provides

vivid new insights into the mysterious processes of human creativity Anthology of Magazine Verse for ... ,1926 **Poetic Culture** Christopher Beach,1999 In *Poetic Culture* Christopher Beach questions the cultural significance of poetry both as a canonical system and as a contemporary practice By analyzing issues such as poetry's loss of audience the anthology wars of the 1950s and early 1960s the academic and institutional orientation of current poetry the poetry slam scene and the efforts to use television as a medium for presenting poetry to a wider audience Beach presents a sociocultural framework that is fundamental to an understanding of the poetic medium While calling for new critical methods that allow us to examine poetry beyond the limits of the accepted contemporary canon and beyond the terms in which canonical poetry is generally discussed and evaluated Beach also makes a compelling case for poetry and its continued vitality both as an aesthetic form and as a site for the creation of community and value Encyclopedia of American Poetry: The Twentieth Century Eric L. Haralson,2014-01-21 The *Encyclopedia of American Poetry: The Twentieth Century* contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics schools or periods of American verse in the century Entries fall into three main categories poet entries which provide biographical and cultural contexts for the author's career entries on individual works which offer closer explication of the most resonant poems in the 20th century canon and topical entries which offer analyses of a given period of literary production school thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States
