*An Eighteenth-century Village* Philip Arthur Sauvain, 1979      **Lourmarin in the Eighteenth Century** Thomas F. Sheppard, 2019-12-01 Originally published in 1971 In the 1970s social historians of seventeenth century France began examining the social changes in the ancien régime in an effort to reconstruct the events leading up to the French Revolution Thomas Sheppard examines Lourmarin a mainly Protestant village with a small textile industry He seeks to answer a series of questions posed at the outset of the book What was daily life like in an eighteenth century French village How was village government organized To what extent did community leaders regulate village political life What effect did the Revolution have on life in the village Sheppard answers these questions with his archival work in Lourmarin He concludes his work with an investigation of the effects of the Revolution on life in Lourmarin following 1789      **Imagining the Past** Philip Sauvain, 1976      **Jewish Culture and Urban Form** Małgorzata Hanzl, 2022-09-26 Across a range of disciplines urban morphology has offered lenses through which we can read the city Reading the urban form when conflated with ethnographic studies enables us to return to past situations and recreate the long gone everyday life Urbanscapes the artefacts of urban life have left us the story portrayed in the pages of this book The notions of time and space contribute to depicting the Jewish Polish culture in central Poland before the Holocaust The research proves that Jewish society in pre Holocaust Poland was an example of self organising complexity Through bottom up activities it had a significant impact on the unique character of the spaces left behind Several features confirm this influence Not only do the edifices both public and private convey meanings related to the Jewish culture but public and semi private space also tell the story of long gone social situations The specific atmosphere that still lingers there recalls the long gone Jewish culture with the unique settlement patterns indicating a separate spatial order The Author reveals to the international cast of practitioners and theorists of urban and Jewish studies a vivid and comprehensive account This book will appeal to researchers and students alike studying Jewish communities in Poland and Jewish Polish society and urbanisation as well as all those interested in Jewish Polish Culture      *Mabiki* Fabian Drixler, 2013-05-25 This book tells the story of a society reversing deeply held worldviews and revolutionizing its demography In parts of eighteenth century Japan couples raised only two or three children As villages shrank and domain headcounts dwindled posters of child murdering she devils began to appear and governments offered to pay their subjects to have more children In these pages the long conflict over the meaning of infanticide comes to life once again Those who killed babies saw themselves as responsible parents to their chosen children Those who opposed infanticide redrew the boundaries of humanity so as to encompass newborn infants and exclude those who would not raise them In Eastern Japan the focus of this book population growth resumed in the nineteenth century According to its village registers more and more parents reared

all their children Others persisted in the old ways leaving traces of hundreds of thousands of infanticides in the statistics of the modern Japanese state Nonetheless by 1925 total fertility rates approached six children per women in the very lands where raising four had once been considered profligate This reverse fertility transition suggests that the demographic history of the world is more interesting than paradigms of unidirectional change would have us believe and that the future of fertility and population growth may yet hold many surprises

Burning and Building Brian Platt,2020-03-17 Soon after overthrowing the Tokugawa government in 1868 the new Meiji leaders devised ambitious plans to build a modern nation state Among the earliest and most radical of the Meiji reforms was a plan for a centralized compulsory educational system modeled after those in Europe and America Meiji leaders hoped that schools would curb mounting social disorder and mobilize the Japanese people against the threat of Western imperialism The sweeping tone of this revolutionary plan obscured the fact that the Japanese were already quite literate and had clear ideas about what a school should be In the century preceding the Meiji restoration commoners throughout Japan had established 50 000 schools with almost no guidance or support from the government Consequently the Ministry of Education s new code of 1872 met with resistance as local officials teachers and citizens sought compromises and pursued alternative educational visions Their efforts ultimately led to the growth and consolidation of a new educational system one with the imprint of local demands and expectations This book traces the unfolding of this process in Nagano prefecture and explores how local people negotiated the formation of the new order in their own communities

**Patrons and Adversaries** Caroline Castiglione,2005-02-03 The early modern Roman countryside was a site of contestation between great aristocratic families and an expanding papal political regime Rarely has the role of the inhabitants of this landscape the villagers been considered as part of that power struggle As Caroline Castiglione shows in this compelling revisionist work one Roman aristocratic family the Barberini was not squeezed out of governing by the extension of the papal bureaucracy but rather became increasingly engaged with it during the long eighteenth century Through their participation in the rural commune villagers in an extensive territory belonging to the Barberini became active participants in the governing of the countryside Villagers cultivated and exploited interference from the aristocratic family and the papal government but they also kept urban elites at bay defending their rights through the strategies of adversarial literacy Such literate practices drew on village mastery of local constitutions debates in the village assembly and brilliant use of the legal system of the papacy to thwart the designs of the Barberini Later villagers created and interpreted sources for themselves effectively challenging the elite monopoly on making and interpreting texts A lost world of increasingly savvy villagers irate nobles and exasperated bureaucrats emerges here in an engaging narrative that chronicles how seemingly marginalized villagers challenged the pragmatic control of the Roman countryside using texts and ideas that urban elites had exported to the countryside for other purposes

Negotiating Exclusion in Early Modern England, 1550-1800 Naomi Pullin,Kathryn Woods,2021-03-08 This edited volume examines how individuals and communities defined

and negotiated the boundaries between inclusion and exclusion in England between 1550 and 1800 It aims to uncover how men women and children from a wide range of social and religious backgrounds experienced and enacted exclusion in their everyday lives Negotiating Exclusion takes a fresh and challenging look at early modern England s distinctive cultures of exclusion under three broad themes exclusion and social relations the boundaries of community and exclusions in ritual law and bureaucracy The volume shows that exclusion was a central feature of everyday life and social relationships in this period Its chapters also offer new insights into how the history of exclusion can be usefully investigated through different sources and innovative methodologies and in relation to the experiences of people not traditionally defined as marginal The book includes a comprehensive overview of the historiography of exclusion and chapters from leading scholars This makes it an ideal introduction to exclusion for students and researchers of early modern English and European history Due to its strong theoretical underpinnings it will also appeal to modern historians and sociologists interested in themes of identity inclusion exclusion and community
