Eighth Air Force At War:

The US Eighth Air Force in World War II William J. Daugherty, 2024-04-15 When America entered World War II in 1941 it was first left to the Army Air Forces to take the fight to Germany In January 1942 the US Eighth Air Force was created and ordered to England even though it was without men equipment or airplanes This is the story of Brigadier General Ira C Eaker s two years with VIII Bomber Command and later as commander of the Eighth as he worked to grow it into a force capable of striking German targets from above twenty thousand feet Initially promised one hundred airplanes and the men to fly them he soon discovered his bombers were often diverted to the North Africa and Pacific theaters Along the way Eaker faced other critical issues including atrocious weather heavy casualties and the absence of escort fighters Meanwhile the head of the Army Air Forces General Hap Arnold clashed with and criticized Eaker for not flying more missions with more airplanes Ultimately as the air war unfolded the war of words behind the scenes continued until the generals reached a point of irreconcilable differences and Arnold relieved Eaker of command In spite of this the Mighty Eighth Air Force continued to pummel the Germans Not once not even in the two absolute worst air battles of the war the Schweinfurt missions of 1943 each of which cost one of every four bombers and six hundred plus men for each mission did the Eighth ever turn back before reaching their target Not until after the first two years was there a fighter that could escort the heavy bombers the B 17s and B 24s even partway into Germany much less to targets near the Vienna border and return The story of the first two years of the Mighty Eighth Air Force in many senses presents an even stronger case for heroism dedication and simple self sacrifice than that depicting events in the final seventeen months Operations Analysis in the United States Army Eighth Air Force

in World War II Charles W. McArthur, 1990 *Operations Analysis in the United States Army Eighth Air Force in World War II* Charles W. McArthur, 1990 Operations research grew out of the application of the scientific method to certain problems of war during World War II This book tells the story of how operations research became an important activity in the Eighth Air Force It emphasizes the people involved in these historical events rather than the technical matters with which they dealt

Eighth Air Force Bombing 20-25 February 1944: How Logistics Enabled Big Week To Be Big Major Jon M. Sutterfield USAF, 2015-11-06 Eighth Air Force 8AF conducted the US s first thousand bomber raids against Germany in February 1944 recorded in history as Big Week Until that time the USAAF was not able to concentrate such firepower on the enemy in such a short period of time It took much effort to make Big Week big covering the spectrum of planning and execution activities dating back to the end of World War I that were adapted and flexed to be successful in a different context Indeed the depth and breadth of the preparations required to successfully execute Big Week on the scale intended is deserving of a closer examination Leadership from President Roosevelt to first line supervisors influenced 8AF logistics before February 1944 Major General Hugh J Knerr was the one man that stood out as the champion of USAAF logistics He influenced the concept of logistical operations in the ETO and more specifically put logistics on a level of importance equal to that of operations

within the United States Strategic Air Forces USSTAF He synchronized logistics with operations and strove for constant improvement by making organizational and process changes aimed at increasing logistical responsiveness effectiveness and efficiency The British provided tremendous host nation support including construction of new airfields skilled and unskilled labor support supply items and transportation The British host nation support 8AF received far surpassed what a cursory review of World War II history leads one to believe and serves as a model for US led coalition operations in the 21st century The US Merchant Marine and US Navy provided sealift of goods from the stateside depots to the theater The US Army provided supply support of common items and Air Service Command ASC provided technical and supply support Last but not least both civil servants and civilian contractors provided depot maintenance and in theater technical support

Mansfield,2024-04-16 When Howard Mansfield grew up World War II was omnipresent and hidden This was also true of his father s time in the Air Force Like most of his generation it was a rule not to talk about what he d experienced in war You re not getting any war stories from me he d say Cleaning up the old family house the year before his father s death Mansfield was surprised to find a short diary of the bombing missions he had flown Some of the missions were harrowing Mansfield began to fill in the details and to be surprised again this time by a history he thought he knew *I Will Tell No War Stories* is about undoing the forgetting in a family and in a society that has hidden the horrors and cataclysm of a world at war Some part of that forgetting was necessary for the veterans otherwise how could they come home how could they find peace *I Will Tell No War Stories* is also about learning to live with history a theme Mansfield explored in earlier books like *In the Memory House* which *The New York Times* called a wise and beautiful book and *The Same Ax Twice* said by the Times to be filled with insight and eloquence a brilliant book [Congressional Record](#) United States. Second World War which continues to challenge the idea that Allies specifically fought a moral war For Britain bombing became perhaps its principal contribution to the fighting as night after night exceptionally brave men flew over occupied Europe destroying its cities The Bombing War radically overhauls our understanding of the War It is the first book to examine seriously not just the most well known parts of the campaign but the significance of bombing on many other fronts the German use of bombers on the Eastern Front for example as well as much newly discovered material on the more familiar Blitz on Britain or the Allied campaigns against Italian cities The result is the author's masterpiece a rich gripping picture of the Second World War and the terrible military technological and ethical issues that relentlessly drove all its participants into an abyss Reviews Magnificent must now be regarded as the standard work on the bombing war It is probably the most important book published on the history of the second world war this century Richard J Evans Guardian Monumental this is a major contribution to one of the most controversial aspects of the Second World War full of new detail and perspectives hugely impressive James Holland Literary Review This tremendous book does what the war it describes signally failed to do With a well thought out strategy and precision it delivers maximum force on its objectives The result is a masterpiece of the historian's art The Times It is unlikely that a work of this scale scope and merit will be surpassed Times Higher Education What distinguishes Mr Overy's account of the bombing war from lesser efforts is the wealth of narrative detail and analytical rigour that he brings to bear Economist Excellent Overy is never less than an erudite and clear eyed guide whose research is impeccable and whose conclusions appear sensible and convincing even when they run against the established trends Financial Times Hard to surpass If you want to know how bombing worked what it did and what it meant this is the book to read Times Literary Supplement About the author Richard Overy is the author of a series of remarkable books on the Second World War and the wider disasters of the twentieth century The Dictators Hitler's Germany Stalin's Russia won both the Wolfson Prize for History and the Hessel Tiltman Prize He is Professor of History at the University of Exeter Penguin publishes 1939 Countdown to War The Morbid Age Russia's War Interrogations The Battle of Britain and The Dictators He lives in London *United States Army in World War II.: The European theater of operations ,1947* *The Boys in the B-17* T/Sgt James Lee Hutchinson EdS,2011-11-23 The author in flight gear after photo twelfth mission second Air Medal age nineteen He still wears lucky Air Cadet ring Hutch's third book contains short stories of boys on B 17 Flying Fortress crews in deadly missions with the Eighth Air Force in World War II and stories of his own teenage combat experiences as radio gunner on twenty missions with the Mighty Eighth Teenagers enlisted or were drafted trained and went into combat before they could legally vote or buy a drink They volunteered to fly in the Army's Air Cadet Program and became a part of the greatest air armada in the world Most of the gunners on a bomber crew were teenagers and the average age of officers was twenty four Veterans memoirs and diaries give amazing reports of fighter attacks flak damage and those who survived being shot down out to become Prisoners of War These youngsters manned the planes that bombed and destroyed Germany's
