M. Tsui (Author), 2023-12-01 How do public markets as ordinary as they seem carry the weight of a city's history How do such everyday buildings reflect a city's changing political social and economic needs through their yearslong transformations in forms functions and management Integrating architecture and history the book invites readers to go through the growth and governance of colonial Hong Kong by tracing the past and present of public markets as a study of extensive first hand historical materials As the readers witness the changes in Hong Kong markets from hawker pitches to classical market halls to clean modernist municipal complexes the book offers a new perspective of understanding the familiar everyday markets with historical contexts possibly unfamiliar to most studying markets as a microcosm of the city and a capsule of its history      *The Cosmopolitan Interior* Judy Neiswander, 2008 Judith Neiswander explains that during these years liberal values individuality cosmopolitanism scientific rationalism the progressive role of the elite and the emancipation of women informed advice about the desirable appearance of the home In the period preceding the First World War these values changed dramatically advice on decoration became more nationalistic in tone and a new goal was set for the interior to raise the British child by the British hearth Neiswander traces this evolving discourse within the context of current writing on interior decoration writing that it is much more detached from social and political issues of the day BOOK JACKET      Reconstruction Neal Shasore, Jessica Kelly, 2023-02-23 Commendation the Colvin Prize 2023 Society of Architectural Historians of Great Britain Reconstruction explores the impact of the First World War on the built environment examining the immediate and longer

term aftermath of the Great War on the architecture of Britain and the British Empire during the interwar years While much attention has been paid by historians to post war architectural reconstruction after 1945 the earlier developments of the interwar period 1919 1939 have been comparatively overlooked This volume reveals how the architectural developments of this period not only provided important foundations for what happened after 1945 they are also of real significance in their own right Sixteen essays written by leading and emerging scholars bring together new and diverse approaches to the period a period of reconstruction fraught with the challenges of modernity and democratisation The collection considers the complex effects of reconstruction on design discourse practice and professionalism and deals with the full spectrum of architectural styles and approaches privileging neither Modernism nor traditional styles like the neo Georgian It brings to the fore social and political histories of the built environment and makes important postcolonial interventions into the architectural history of British Imperialism at home and in its far reaches in Cairo South Africa Australia and India
