Egypt from Alexander the Great to the Arab Conquest H. Idris Bell, 1948 Egypt from Alexander the Great to the Arab Conquest Harold I. Bell, 1985-06 *Egypt, from Alexander the Great to the Arab Conquest* Harold Idris Bell, 1948 This collection of lectures discusses the science of papyrology as well as the interaction between Hellenism and Egypt and the decay of Hellenistic elements in Egypt *Alexander the Great and Egypt* Volker Grieb, Krzysztof Nawotka, Agnieszka Wojciechowska, 2014-09-01 This volume presents the papers of an interdisciplinary conference held in Wroclaw in 2011 dedicated to Alexander's expedition to Egypt as well as to his afterlife and legend tied to Egypt and Alexandria Regarding military aspects there are papers focusing on Egypt's strategic significance in 4th century Greek sources as well as on Alexander's conquest in comparison to earlier conquests of the land of the Nile Furthermore they re-examine the chronology of Alexander's stay in Egypt and discuss the founding of Alexandria e.g. by linking it with 4th century urban developments in the Eastern Mediterranean Since Alexander's policy in Egypt is in large part reflected by hieroglyphic inscriptions and papyri other contributions focus on his legitimation as a pharaoh his royal title as well as on Egyptian temples renovated on his order Alexander's expedition to Egypt and the East was also a powerful stimulus for the development of science in antiquity which is covered by papers on the mystery of the flooding of the Nile and the spread of astrology His afterlife and legend is presented in this volume by a nuanced position of Alexander in Ptolemaic ideology and art while further papers scrutinize and dismantle modern scholarly myths of Alexander's sarcophagus and his tomb in Alexandria Methodological approaches from different fields of scholarship such as Ancient History Classical Studies Egyptology and Archaeology are juxtaposed in this volume and may contribute not merely to the study of the Egyptian episode in the history of Alexander the Great The Last Dynasty Toby Wilkinson, 2025-04-08 One of the world's leading Egyptologists tells the rich and fascinating story of ancient Egypt's last dynasty Alexander the Great and Cleopatra may be two of the most famous figures from the ancient world but the Egyptian era bookended by their lives the Ptolemaic period 305-30 BC is little known In *The Last Dynasty* New York Times best-selling author Toby Wilkinson unravels the incredible story of this turbulent era bringing to life three centuries worth of extraordinary moments and charismatic figures Macedonian in origin and Greek speaking the Ptolemies presided over the final flourishing of pharaonic civilization Wilkinson describes the extraordinary cultural reach displayed at the height of their power how they founded new cities including Alexandria their great seaside residence and commercial capital mined gold in the furthest reaches of Nubia built spectacular new temples that are among the foremost architectural wonders of the Nile Valley and created a dazzling civilization that produced astonishing works of sculpture architecture and literature Stuningly he also shows how such expansionist ambitions led to the era's downfall The Ptolemaic period was a time when ancient Egypt turned its gaze westward in the process becoming the unwitting handmaid to the inexorable rise of Rome and the consequent loss of Egyptian independence Featuring a superb blend of first-rate scholarship and evocative
