Moving Beyond the Crisis : Reclaiming and Reaffirming our Common Administrative Space Demetrios Argyriades,Gérard Timsit,2013-03-14 With the financial meltdown and the economic crisis in their fifth year already no one can any longer be in doubt about their exceptional gravity their truly global impact and their profound effects hurting vulnerable groups and the very poor especially As the world looks for an exit from this economic crisis the worst in eight decades the focus of attention is naturally on the causes the factors that account for its wide reach and severity as well as on strategies that might bring it to a closure The quest for exit strategies is at the very centre of the issues and concerns explored in the present volume produced by the IIAS Like the preceding volumes but even more emphatically this volume representing a collective endeavour of scholars and practitioners from many parts of the globe finds cause to lay the blame for our difficult predicament on the institutional deficit the policies the practices and values that have followed in the trail of a highly misleading and erroneous model of governance The Market Model of Governance as it is known sought to reform the structures and culture of administration and government in private sector ways While instrumental values like efficiency and effectiveness were raised and praised profusely those of democratic governance were discounted by comparison In particular integrity the rule of law and due process equity legality and public service professionalism suffered a steep decline in several parts of the world Likewise the invasion and the capture of public space inevitably led to an unprecedented surge of greed abuse and corruption that contributed directly to the crisis which is upon us Looking for exit strategies as its title aptly suggests the present volume offers a rich menu of ideas drawn from the current experience of all the world s main regions Not surprisingly two concepts stand out throughout the book as necessary correctives as well as pressing remedies to the world s ongoing malaise They call for the recapture of our common administrative space and the reaffirmation of the values and virtues appropriate for democratic governance To the IIAS none perhaps are more important than public service professionalism and none other can contribute more effectively to the reform and consolidation of sound institutions for national sub national global and regional governance For these reasons at this juncture the new volume like the others should be featured in every public library and become a vademecum of all scholars and practitioners of public administration

and politics around the world Beyond Piety and Politics Sabri Ciftci,F. Michael Wuthrich,Ammar Shamaileh,2022-05-03 How do ordinary men and women in Muslim majority societies create religion informed views of political topics such as democracy and economics Beyond Piety and Politics provides a groundbreaking approach to understanding the depth and variety of political attitudes held by people who consider themselves to be pious Muslims Using survey data on religious preferences and behavior the authors argue for the relevance and importance of four outlook categories religious individualist social communitarian religious communitarian and post Islamist and use these to explore complex and nuanced attitudes of devout Muslims toward issues like democracy and economic distribution They also reveal how intrafaith variation in political attitudes is not due simply to doctrinal differences but is also a product of the social aspects of religious association operating within political contexts By highlighting the dynamic societal and political implications of religious devotion Beyond Piety and Politics offers a fascinating new theoretical perspective on Islam and politics **Egypt** Rabab El Mahdi,Professor Philip Marfleet,2013-04-04 Egypt is at the axis of the Arab world With the largest population the largest industrial economy and the longest tradition of modern political activity it has profound influence across the region But there have been few attempts to understand contemporary Egyptian society in particular growing internal pressures for change and their implications for the Middle East and the wider world This book is the first for over 20 years to offer an accessible examination of contemporary issues in Egypt It offers the reader analyses of its politics culture and society including contributions by several Egyptian academics and activists This unique new book addresses the turmoil created by imposition of neo liberal economic policies the increasingly fragile nature of an authoritarian regime the influence of movements for democratic opening and popular participation and the impacts of Islamism The authors argue that Egypt has entered a period of instability during which the low intensity democracy embraced by the Mubarak regime faces multiple challenges including demands for radical change This unique new book assesses the ability of the state to resist the new movements and the latter's capacity to fulfill their aims **Development Centre Studies Development is back** OECD Development Centre,2002-10-08 The Organisation's Development Centre was founded in 1962 as one means to study and to try to confront the problems of comparative development and to relate them to experiences in the more advanced economies This book provides a compendium of that experience *US Economic Aid in Egypt* Dina Jadallah,2016-01-27 Economic aid is one of the cornerstones of the Egyptian American relationship and plays a significant role in promoting US policy objectives in the Middle East Focusing on the latter half of Hosni Mubarak's rule Dina Jadallah argues that through its aid policy the US has attempted to use a reforming and democratising narrative to transform Egypt into a stable market democracy that would be aligned with US interests in the region This aim has been pursued in conjunction with one that promoted a comprehensive warm peace with Israel By highlighting the opposition within Egypt to US aid Jadallah analyses the key issues that came to the fore during the 2010-11 protests in the country and led to the downfall of Mubarak Extending her analysis into the post

revolutionary period the author provides interviews with regime insiders and prominent critics inside state institutions and outside who actively challenged the regime This enables her to assess the different perceptions of US aid both under Mubarak and in the current political situation contributing to an incisive analysis of modern Egypt and its relations with its superpower ally in the region

Transnational Generations in the Arab Gulf States and Beyond Kyoko

Matsukawa,Akiko Watanabe,Zahra R. Babar,2023-12-01 This book examines the recent migration phenomenon in the Arab Gulf states for work and residence It sheds light on the transnationality of diverse groups of migrants from different generations and unpacks how migrants multiple senses of belonging orientations and adaptive strategies have shaped contemporary migration in the Gulf region In turn the analysis presented here shows how the Arab Gulf states citizenship and educational policies affect second generation migrants in particular Through a series of fine grained ethnographic case studies the authors demonstrate the ways in which these second generation migrants construct their identities in relation to their putative home country in the Gulf as well as their complex relationship to their parents countries of origin This is what underpins the deeply transnational character of their lives choices and notions of belonging While migration scholars often situate these groups as temporary this does not in fact capture the reality of temporariness for the migrants themselves their children or their dependants The result is a complex and ongoing construction of identity that shapes the way of life for millions of migrants Relevant to scholars of migration and international studies particularly focused on the Middle East Transnational Generations in the Arab Gulf States and Beyond is also of interest to social scientists researching student mobility in higher education intergenerational families identity politics and globalisation

Beyond Parliament Horman Chitonge,2015-08-25 In Beyond Parliament Horman Chitonge offers a unique combination of the conceptual dimensions with the practical examples of human rights discourse deployed as an instrument for social change in the global south He uses the right to water and the right to food to illustrate that human rights are never given on

a silver platter giving effect to human rights is always an outcome of a continuous struggle to protect human dignity and value To implement this view of human rights the book argues requires going beyond the parliamentary politics of recognising and acknowledging human rights in statutes and bill of rights to the radical democratic politics of giving effect to the recognised rights especially among the poor and marginalised

Beyond Progress Hugh De Santis, 1996-06 Argues that in a world of dwindling resources economic inequality and unremitting violence the belief in endless progress can no longer be sustained Asserts that we have arrived at a great historic divide in which the old modern order is giving way to an age of mutualism Draws on world history and the study of international relations to explore the emerging future in which new forms of social and political identity and regional associations and alignments will be needed to solve global problems Argues that mutualism will require a dramatical change in the way states international institutions corporations and local communities interact and that this transformation will be especially difficult for the United States
