**Ancient Egyptian Portraiture** Alessio Delli Castelli, 2024-12-09 Ancient Egyptian Portraiture History of an Idea concerns the origin nature and removal the unravelling and explanation of the impasse pertaining to the definition assessment and judgement of Ancient Egyptian portraiture Condensed in the syntagm different from ours this impasse arises from the polarisation and dichotomy of idealism and realism which characterise the three main Egyptological definitions of portraiture In offering a transcendental definition of art and portraiture that is anthropologically valid the overarching aim of this book is to challenge assessments of Egyptian art and portraiture based on historically particularistic concepts that are foreign to its cultural premises and development

**The Egyptian Elite as Roman Citizens** Giorgia Cafici, 2021-07-19 In The Egyptian Elite as Roman Citizens Giorgia Cafici offers the analysis of private male portrait sculptures as attested in Egypt between the end of the Ptolemaic and the beginning of the Roman Period Ptolemaic Early Roman portraits are examined using a combination of detailed stylistic evaluation philological analysis of the inscriptions and historical and prosopographical investigation of the individuals portrayed The emergence of this type of sculpture has been contextualised both geographically and chronologically as it belongs to a wider Mediterranean horizon The analysis has revealed that eminent members of the Egyptian elite decided to be represented in an innovative way echoing the portraits of eminent Romans of the Late Republic whose identity was surely known in Egypt

**Offerings to the Discerning Eye** Sue D'Auria, 2010 Egyptologist Jack A Josephson a writer and researcher in the tradition of the gentleman scholar has achieved broad recognition as an authority in Egyptian art history His lucid investigative analyses have probed and redefined the limits of inquiry expanded research parameters and broadened perspectives emphasizing the undeniable contributions of art history in an intra disciplinary framework This volume of collected essays is dedicated to Josephson by distinguished friends and colleagues a select roster including eminent established scholars in the field of Egyptology and rising stars of the younger

generation Josephson views Egyptian art history as a critical but neglected area of study and is a strong proponent of its reinstatement in the academic curriculum as an essential component in the formation of new cadres. The quality of the articles in this Egyptological medley is a tribute to the honoree and an affirmation of the esteem of his peers while the range of subjects and variety of themes addressed reflect the degree to which he has in his own scholarship undertaken to implement his ideal. **Thebes in the First Millennium BC** Julia Budka, Kenneth Griffin, Elena Pischikova, 2014-04-23

**Thebes in the First Millennium BC** is a collection of articles based mostly but not entirely on the talks given at the conference of the same name organised by the team of the South Asasif Conservation Project an Egyptian American Mission working under the auspices of the Ministry of State for Antiquities Egypt in Luxor in 2012. The organisers of the conference and editors of the volume Elena Pischikova, Julia Budka and Kenneth Griffin brought together a group of prominent scholars to share and discuss the results of their recent field research in the tombs and temples of the Twenty fifth Twenty sixth Dynasties in Thebes Abydos and Saqqara. This volume assembles current studies on royal and elite monuments of the Libyan Kushite and Saite Periods and places them in a wider context. This volume investigates such aspects of research as tomb and temple architecture burial assemblages religious texts paleography artistic styles iconography local workshops and archaism providing a new perspective to the current scholarship and future exploration of these topics. The volume is further enriched by the inclusion of chapters on the conservation and preservation of monuments representing the present day approach to the development of archaeological sites. *Wonderful Things: A History of Egyptology, Volume 3* Jason

Thompson, 2018-10-16. The discovery of ancient Egypt and the development of Egyptology are momentous events in intellectual and cultural history. The history of Egyptology is the story of the people famous and obscure who constructed the picture of ancient Egypt that we have today recovered the Egyptian past while inventing it anew and made a lost civilization comprehensible to generations of enchanted readers and viewers thousands of years later. This the third of a three volume history of Egyptology follows the progress of the discipline from the trauma of the First World War through the vicissitudes of the twentieth century and into Egyptology's new horizons at the beginning of the twenty first century. *Wonderful Things* affirms that the history of ancient Egypt has proved continually fascinating but it also demonstrates that the history of Egyptology is no less so. Only by understanding how Egyptology has developed can we truly understand the Egyptian past.

*Sesostris - Scheschonq - Sesonchosis*, 2024-07-29. Why Sesostris? Why does the classical antiquity tell stories about this Egyptian hero king of the second millennium BC? On which basis? The contributions of this conference volume try to systematically answer the question how these narratives come into being and grow. It is not a single historical king Sesostris. Rather the literary tradition of two millennia augments the story with the later Sheshonq kings makes Sesostris the international hero of demotic narratives and finally leads to the Greek Sesonchosis Romance which itself is widely received. All this takes place in an international cultural context. Warum gerade Sesostris? Warum werden ausgerechnet bei diesen

gyptischen Könige des frühen zweiten Jahrtausends v. Chr. in der Klassischen Antike Heldengeschichten erzählt Auf welcher Grundlage Die Beiträge dieses Tagungsbandes gehen systematisch der Frage nach wie diese Erzählungen entstehen und wachsen Es ist nicht ein einziger literarischer König Sesostrius Vielmehr reichert die literarische Tradition über zwei Jahrtausende den Stoff um die späteren Scheschonq Könige an macht Sesostrius zu einem internationalen Helden demotischer Erzählungen und führt zum griechischen Sesonchosis Roman All dies geschieht in einem internationalen kulturellen Rahmen

**Proceedings of the XI International Congress of Egyptologists, Florence, Italy 23-30 August 2015** Gloria Rosati, M. Cristina Guidotti, 2017-10-18 Presents proceedings from the eleventh International Congress of Egyptologists which took place at the Florence Egyptian Museum Museo Egizio Firenze Italy from 23 30 August 2015 **Studies on Old Kingdom Reliefs and Sculpture in the Hermitage** Andrey O. Bolshakov, 2005 The book is the first complete publication of a relatively small but interesting collection of Old Kingdom monuments in the State Hermitage Museum St Petersburg Twenty two pieces are reproduced as black and white photographs and line drawings Among them are two statues fourteen reliefs and relief fragments five offering stones and a fragment of an ointment tablet several objects in museums of Cairo Copenhagen and Cambridge belonging to the same people are published as well Most of these monuments were never published or are known only through books and periodicals in Russian that usually are not available in Egyptological libraries Although the Hermitage pieces were acquired at antiquities dealers without any documentation their modern history is traced and in a half of cases either their provenance is reconstructed or related monuments are found A limited number of monuments allowed the author to discuss them to a much greater extent than it is common in museum publications and thus the book in spite of its structure of a catalogue virtually is a detailed study of various problems of Old Kingdom history and ideology Tutankhamun Martin Bommas, 2024-12-02 Over a century after his discovery this comprehensive biography of Tutankhamun explores a wealth of evidence including archaeological and ancient textual sources DNA analysis and CT scanning bringing to life a pharaoh who has remained elusive apart from his grandiose tomb treasures For the first time this

volume identifies the names of Tutankhamun's biological parents tracing the footsteps of his short life that was marked by genetic defects and physical deterioration. Between his early days and his untimely death, Tutankhamun previously Tutankhaten appears as a child of his time; he was torn between the cult of the Aten and the restoration of the cult of Amun, a campaign in which he personally played a leading role. Equipped with a thorough education, gifted with a brilliant mind and living mostly in solitude, readers will follow in detail how Tutankhamun secured the survival of the 18th Dynasty. This book traces Tutankhamun's involvement in processes which can still be felt in Egypt today. His complex personality is reconstructed based on archaeological evidence, some of which has never been discussed previously, and conclusions drawn from both scientific research and a deep understanding of the context in which he lived. By also considering the lives of those who were close to the teenage king, this book delivers a comprehensive source-based biography of an ancient Egyptian pharaoh. Complete with intensive references to international scholarship, visual sources, and maps, and excluding the tomb treasures created after his physical death, this book is a fresh and original approach to understanding the life, not afterlife, of the most popular pharaoh of modern times. Tutankhamun: A Biography is suitable for students, scholars, and non-specialist readers interested in the life of Tutankhamun as well as those working on ancient Egyptian history and religion, more broadly particularly that of New Kingdom Egypt.

**Ancient Egypt Transformed** Adela Oppenheim, Dorothea Arnold, Dieter Arnold, Kei Yamamoto, 2015-10-12. The Middle Kingdom ca. 2030-1650 B.C. was a transformational period in ancient Egypt during which older artistic conventions, cultural principles, religious beliefs, and political systems were revived and reimagined. *Ancient Egypt Transformed* presents a comprehensive picture of the art of the Middle Kingdom, arguably the least known of Egypt's three kingdoms, and yet one that saw the creation of powerful, compelling works rendered with great subtlety and sensitivity. The book brings together nearly 300 diverse works, including sculpture, relief, decoration, stelae, jewelry, coffins, funerary objects, and personal possessions from the world's leading collections of Egyptian art. Essays on architecture, statuary, tomb, and temple relief, decoration, and stela explore how Middle Kingdom artists adapted forms and iconography of the Old Kingdom, using existing conventions to create strikingly original works. Twelve lavishly illustrated chapters, each with a scholarly essay and entries on related objects, begin with discussions of the distinctive art that arose in the south during the early Middle Kingdom, the artistic developments that followed the return to Egypt's traditional capital in the north, and the renewed construction of pyramid complexes. Thematic chapters devoted to the pharaoh, royal women, the court, and the vital role of family explore art created for different strata of Egyptian society, while others provide insight into Egypt's expanding relations with foreign lands and the themes of Middle Kingdom literature. The era's religious beliefs and practices, such as the pilgrimage to Abydos, are revealed through magnificent objects created for tombs, chapels, and temples. Finally, the book discusses Middle Kingdom archaeological sites, including excavations undertaken by the Metropolitan Museum over a number of decades. Written by an international team of respected Egyptologists and Middle Kingdom specialists, the text

provides recent scholarship and fresh insights making the book an authoritative resource
