Ehipsecond World War Pr:

The Origins of the Second World War Victor Rothwell, 2001 Victor Rothwell examines the origins of World War II from the flawed peace settlement in 1919 to the start of the true world war at Pearl Harbor in 1941 He asks many important questions Why did the cause of peace advance in the 1920s only to be stopped in its tracks and threatened with reversal by the Great Depression what was the nature of Nazi thinking about war foreign policy and the policy of appeasement that sought to accommodate the Third Reich without again going to war He also examines the events in the Far East at the time and draws a contrast between the role of the US and the Far East throughout the 1930s Copyright Libri GmbH All rights reserved

Allied Communication to the Public During the Second World War Simon Eliot, Marc Wiggam, 2019-11-14 In the Second World War the home fronts of many countries became as important as the battle fronts As governments tried to win and hold the trust of domestic and international audiences communication became central to their efforts This volume offers cutting edge research by leading and emerging scholars on how information was used distributed and received during the war With a transnational approach encompassing Germany Iberia the Arab world and India it demonstrates that the Second World War was as much a war of ideas and influence as one of machines and battles Simon Eliot Marc Wiggam and the contributors address the main communication problems faced by Allied governments including how to balance the free exchange of information with the demands of national security and wartime alliances how to frame war aims differently for belligerent neutral and imperial audiences and how to represent effectively a variety of communities in wartime propaganda In doing so they reveal the contested and transnational character of the ways in which information was conveyed during the Second World War Allied Communication during the Second World War offers innovative and nuanced perspectives on the thin border between information and propaganda during this global war and will be vital reading for World War II and media historians alike *The Story of the Second World War* Henry Steele Commager, 1998 **Forged in War** Warren F. Kimball, 1997-02-19 Analyzes the relationship between Roosevelt and Churchill *Many Kinds of Courage* Richard Lidz, 1980 A collection of personal narratives describing the London Blitz the attack on Pearl Harbor the Normandy invasion and other events of World War II
