Ein Einzig Volk Von Brudern:

Deuteronomy in the Making Diana Edelman, Kåre Berge, Philippe Guillaume, Benedetta Rossi, 2021-08-23 A number of long standing theories concerning the production of Deuteronomy are currently being revisited This volume takes a fresh look at the theory that there was an independent legal collection comprising chs 12-26 that subsequently was set within one or two narrative frames to yield the book with ongoing redactional changes Each contributor has been asked to focus on how the core might have functioned as a stand alone document or if exploring a theme or motif to take note of commonalities and differences within the core and frames that might shed light on the theory under review Some of the articles also revisit the theory of a northern origin of the core of the book while others challenge de Wette's equation of Deuteronomy with the scroll found during temple repairs under Josiah With Deuteronomistic studies in a state of flux this is a timely collection by a group of international scholars who use a range of methods and who in varying degrees work with or challenge older theories about the book's origin and growth to approach the central focus from many angles Readers will find multivalent evidence they can reflect over to decide where they stand on the issue of Deuteronomy as a framed legal core **Deuteronomy and the**

Judaean Diaspora Ernest Nicholson, 2014-01-30 In *Deuteronomy and the Judaean Diaspora* Ernest Nicholson challenges the widely accepted view that Deuteronomy was the book of the law described in 2 Kings 22:3 as the basis of king Josiah's cultic reformation in 621 BCE He argues that the notice in this narrative that Josiah abolished the rural local altars throughout Judah and supposedly relocated their priests to Jerusalem is based upon a misreading Rather he contends Deuteronomy derived from thinkers and writers who lived among the Judaean exiles in Babylonia in the sixth century and in significant ways represents a break with pre-exilic Israelite religion occasioned by the urgent need to confront the challenges to national identity and cultural survival of the Judaean Diaspora community Leading features of the book such as its zealous monolatry its self-presentation as scripture its concept of the relationship with God as covenanted choice its pervasive fear of religious encroachment its character as oppositional literature these and other themes of the book suggest such a provenance Issues arising include for example information from Babylonian sources some of it new about the Judaean exiles how Israel is characterised in the book kingship evidence of the emergence of a body of prophetic scripture Two final chapters examine the Deuteronomistic History Joshua 2 Kings and show that contrary to some interpretations it is not historiography such as is represented by for example Herodotus Histories and that theodicy rather than an interest in the past as a field of critical study best describes its genre **Contemporary German Legal Philosophy** James E. Herget, 2017-11-15 James Herget

explains to American legal scholars and students the main points of the characteristic legal philosophy that has developed in the German speaking world since World War II After a historical introduction and overview he discusses critical rationalism discourse theory rhetorical theory systems theory and institutional legal positivism He concludes with a general assessment and appends biographical information Written for American legal scholars and students who traditionally are exposed only to

filtered versions of comparative legal traditions this volume introduces a new world of legal theory that resonates within the context of other contemporary disciplines and German intellectual history Law, Literature and Legal Counterfactuals Alexandra Juster, 2025-11-01 Based on the long established American law and literature movement the interdisciplinary research field of law and literature is also beginning to hesitantly establish itself in Europe The German Collaborative Research Centre SFB 1385 Law and Literature has provided an important impetus for this development The present work builds on the latter and aims to develop a contrastive interdisciplinary research method legal counterfactual that claims to offer a methodological basis for the further development of the young research field of law and literature The particular focus herein is on law in literature An overview of the heterogeneous research approaches in Italy France Belgium and Germany is first provided Thereafter the focus shifts to a theoretical examination of the methodological concepts of interdisciplinarity and counterfactuality on the one hand and the specific approaches to the text namely discourse and hermeneutics on the other Based on these theoretical building blocks the dividing lines between legal and literary studies are drawn in the first step to identify the resulting intersections in the second step the written text as a common working basis on the one hand and hermeneutics and discourse as a means of analysing texts on the other The legal discourse in the texts is methodically extracted and contrasted with the real world legal texts in a juxtaposing manner The aim of this counterfactual contrast is to determine the degree of correspondence between diegetic and real law To consolidate this method of legal counterfactuals five works of contemporary literature are tested and demonstrated in practice La d cision 2022 by Karine Tuil Sworn Virgin 2014 by Elvira Dones Unorthodox 2012 by Deborah Feldman Repenti 2017 by Claude Chossat and A Slap in the Face 2016 by Abbas Khider The selection of works is motivated by an interest in touching on different areas of law that have received little attention in interdisciplinary law and literature research to date such as French anti terror law the customary law of the Albanian Kanun Talmudic law Corsican feudal vendetta law and German asylum law **Schillers Werke** Friedrich Schiller, 1877 *Archaeology of Mind in the Hebrew Bible / Archäologie alttestamentlichen Denkens* Andreas Wagner, Jürgen van Oorschot, Lars Allolio-Näcke, 2023-04-27 Research into the Hebrew Bible Ancient Near East Philosophy and History have long considered whether thought in the cultural area of the ancient Middle East differs from that in the western Mediterranean The inclusion of neurobiology psychology brain research and evolutionary research will widen this horizon and allow new approaches This volume provides in depth insides into this Archaeology of Mind in 22 contributions

The Triumph of Propaganda Hilmar Hoffmann, 1996 Seeing German film during the Third Reich as a powerful and sinister tool for both indoctrination and escapist pacification analyses the pictorial and spoken language to identify the psychological techniques used in the various genres including news reels documentaries features and cultural films Two chapters focus on the role of flags and a *People and Land in the Holiness Code* Jan Joosten, 2014-09-03 This work proposes a reconstruction of the thought world underlying the Holiness Code Leviticus 17 26 It focuses on the notions of

people and land which are central to the way the law is presented in this corpus. Important themes treated include the sons of Israel, the resident alien, the call to holiness, the camp in the desert and the land as the property of the Lord. The conceptual universe of the Holiness Code is entirely dominated by the notion of the presence of the Lord in his sanctuary in the midst of his people. It is this presence which requires the Israelites to observe holiness and confers upon the land its particular status. The priestly conception of the relationship between God, people and land finds interesting parallels in the ideology of holy places evidenced in writings from the Ancient Near East.

The Maccabean Martyrs as Saviours of the Jewish People Jan Willem van Henten, 2021-11-22. This volume deals with the presentation of the so-called Maccabean martyrs and the elder Razis in 2 and 4 Maccabees, discussing the religious, the political as well as the philosophical aspects of noble death in these writings. It argues that the theme of martyrdom is a very important part of the self-image of the Jews as presented by the authors of both works. Eleazar the anonymous mother with her seven sons and Razis should therefore be considered heroes of the Jewish people. The first part of the book discusses the sources and the second part deals with the descriptions of noble death. This section of the book also offers extensive discussions of related non-Jewish traditions which highlight the political/patriotic dimension of noble death as described in 2 and 4 Maccabees.

Purity and Monotheism Walter J. Houston, 1993-02-01. The distinction between clean and unclean animals, probably originating in tensions between shepherds and farmers, is in the biblical laws of Leviticus 11 and Deuteronomy 14 transformed into an important theological principle. In this wide-ranging and elegantly written study, Houston argues that the avoidance of unclean foods is a mark of the exclusive devotion of Israel to one god. In a concluding chapter, it is suggested that the abolition of the distinction in early Christianity corresponds to the universal horizon of the new faith.

The Oxford Handbook of Biblical Law Pamela Barmash, 2019-10-10. Major innovations have occurred in the study of biblical law in recent decades. The legal material of the Pentateuch has received new interest with detailed studies of specific biblical passages. The comparison of biblical practice to ancient Near Eastern customs has received a new impetus with the concentration on texts from actual ancient legal transactions. The Oxford Handbook of Biblical Law provides a state-of-the-art analysis of the major questions, principles and texts pertinent to biblical law. The thirty-three chapters, written by an international team of experts, deal with the concepts, significant texts, institutions and procedures of biblical law, the intersection of law with religion, socio-economic circumstances and politics, and the reinterpretation of biblical law in the emerging Jewish and Christian communities. The volume is intended to introduce non-specialists to the field as well as to stimulate new thinking among scholars working in biblical law.
