LEARNING CONTENT:

LESSON 1: Introduction Physical Education

THE MEANING OF PHYSICAL EDUCATION

Physical education has undergone many vicissitudes and several changes of direction in Philippine schools. Time was when physical education was considered as education of the physical, hence, a well-built physique was considered as a physically educated body. The activities then were such terms as "drill", "physical training" and calisthenics. This old concept of physical education would in all respects mean today as strengthening the muscles.

WHY PHYSICAL EDUCATION?

The newer and modern concept of physical education is that is education through physical activities. In modern physical education parlance, it is education through "movement", "Wunderlich (1967) says of movement: It provides sensory data. It broadens the perceptive horizon. It stimulates function and structure of all bodily organs. It is the means by which an individual learns about himself in relation to his ambient environment. What education through movement more particularly entails in addition is the taking of that culture-based family of activities and processes—games, dance, gymnastics, athletic sports and outdoor pursuits — as a means through which the teacher can help effect desirable outcomes, regardless of whether or not those activities have intrinsic worth of their own.

Physical education performs three functions: biologic integrative, and social. Biologic function refers to the enhancement of the individual's growth and development through body movement. Integrative function
