autobiographical reflections of prominent women school psychologists who are at or near completion of their careers It
demonstrates the varied and diverse journeys of these women in their own words The volume examines the ways in which
leading women in the field have evolved from primarily frontline service providers to full contributors at all levels of the
profession Chapters offer insights into school psychology movers and shakers and explores how many found a home in
academia where they became trainers of the next generation In addition chapters examine the opportunities and restraints
that these women leaders confronted across the years The book celebrates the success of these women and encourages both
women and men to pursue roles in the profession Women Leaders in School Psychology is an informative read for graduate

Active Transportation is a rigorous and comprehensive examination of the current research and interventions on active
transportation for children and youth As the travel behaviors of these groups tend to be highly routinized and their mobility
faces unique constraints such as parental restrictions mandatory school attendance and the inability to drive a motor vehicle
before late adolescence this book examines the key factors that influence travel behavior among children and youth providing
key insights into lessons learned from current interventions Readers will find a resource that clearly demonstrates how
critical it is for children to develop strong active transportation habits that carry into adulthood Discusses the correlates that
exist between children s active transportation using a social and ecological model Summarizes active transportation
interventions that show what works to increase non motorized modes of travel in children Describes the factors that

influence the implementation and effectiveness of interventions
