*Unequal Lives* Hilary Graham, 2007-09-16 With the compelling evidence that more redistributive universal welfare benefits and education provide the main escalator to reducing inequalities this is a timely and thought provoking book for all those concerned to reduce our societies embedded structural inequalities cumulative disadvantages and health inequalities Australian and New Zealand Journal of Public Health Unequal Lives is the book that we have all been waiting for In this skilfully crafted volume Hilary Graham makes the vital connection between health inequalities and social inequalities in a way that opens up new understandings of both concepts and consequences for policy Scholarly yet accessible this is a must read book for researchers policymakers and practitioners alike Margaret Whitehead WH Duncan Professor of Public Health University of Liverpool UK What is meant by health inequalities and socioeconomic inequalities What evidence is there to support the link between socioeconomic status and health Why do these links persist over time between and within societies and across people s lives What part do policies play in the persistence of social and health inequalities Unequal Lives provides an evidence based introduction to social and health inequalities It brings together research from social epidemiology sociology and social policy to guide the reader to an understanding of why people s lives and people s health remain so unequal even in rich societies where there is more than enough for all The book introduces the non specialist to key concepts like health inequalities and health inequities social class and socioeconomic position social

determinants and life course as well as to the key indicators of health and socioeconomic position. It provides a wealth of evidence on socioeconomic inequalities in health at both national and global level and explores how these inequalities persist as countries industrialise, patterns of employment and family life change and chronic diseases emerge as the big killers. Consideration is given to policy and its impact on inequalities within the UK, Europe and beyond, and an assessment made of health inequalities throughout the life. This new book from best-selling author Hilary Graham is of particular interest to students in sociology, social policy, health studies, health promotion and public health, as well as to social work and community nursing students and those working in the health and welfare fields. Occupational Outlook Quarterly, 2002     **Ageing, health and care** Christina R. Victor, 2010-07-01. The ageing of the population has enormous implications for the provision of and access to health care. Christina Victor's important textbook provides a comprehensive overview of the experiences of older people, chapters on physical health, mental health, disability and lifestyle, a thesis of current policy developments, the key debates on the future health of elders and an international up-to-date perspective. Written by a leader in the field, the book covers key questions such as the fitness of future older people, the widening inequalities in their health and whether health in old age is related to habits and behaviour in earlier life. Social Security Bulletin, 2007     Report on Perinatal Statistics for 2004, 1999     Nursing for Public Health: Promotion, Principles and Practice Paul Linsley, Roslyn Kane, Sara Owen, 2011-02-17.
