Developing and Managing High Quality Services for People with Learning Disabilities Mark Burton, Mike Kellaway, 2018-12-17 First published in 1998 This timely book describes the challenges that need to be met in bringing together health and social services into a partnership to create effective and responsive services It presents the reader with both conceptual frameworks and practical examples on how change can be managed and the momentum maintained towards the development of a quality service The authors present practical examples and reflect on what worked and what was not successful Over twenty writers staff and managers senior and junior qualified and unqualified describe focused work in particular areas which will be of interest to any service for this user group Throughout the emphasis is on how to deliver an accessible good quality service and how this can be

safeguarded in the future Fifty years after the establishment of the NHS and nearly twenty five years since the establishment of British Social Services departments this book articulates a modern practical and principled vision of community based services to vulnerable people Empowerment Kenneth McLaughlin,2016-01-08 Empowerment is a term in widespread use today and one that is often considered to be a self evident good Here McLaughlin explores its emergence in the 1960s through to its rise in the 1990s and ubiquity in present day discourse and interrogates its social status paying particular attention to social policy social work and health and social care discourse He argues that a focus on empowerment has superseded the notion of political subjects exercising power autonomously This innovative volume Discusses the relationship between concepts of empowerment and power as they have been understood historically Analyses changes in the conception and meaning of empowerment in relation to the shifting social and political landscape Acknowledges the positive impact empowerment strategies have had on those who have campaigned to be empowered and also on those who have saw their role as being to help empower others Highlights ways in which talk about empowerment can actually work in such a way as to further disempower those already marginalised Critically examining how empowerment has become embedded in contemporary social and political life this work offers a discussion of the term s multiple meanings what it actually entails and how it constructs and positions those being empowered and those empowering **Women And Social Policy** Christine Hallett,2018-10-08 Women and Social Policy is a major new textbook on women and social policy in Britain in the 1990 s Written by a team of leading academics the book provides an introduction to the key topics and issues in social policy as they directly affect women as both users and providers of welfare services All of the main social policy areas are covered employment poverty and social security housing education health the personal social services and community care The book also covers other issues such as race and domestic violence The book is published in association with the Social Policy Association Women and Social Policy Group *Social Skills for People with Learning Disabilities* Mark Burton,Carolyn Kagan,Pat Clements,2013-12-14 **Essentials of Nursing Children and Young People** Jayne Price,Orla Mc Alinden,2017-12-30 This innovative and student friendly textbook provides up to date information on the core content of child nursing courses and helps students understand how it applies to practice Covering all settings throughout including the acute and community ones it focuses on the importance of child and family centred care by having them directly involved through the use of voices and case studies This book provides a comprehensive framework for student knowledge development by including Activities and theory stop points to encourage students to develop their critical thinking skills Pointers to further reading resources including journal articles and videos for students to explore and build knowledge more independently A range of online resources including extra scenarios for lecturers to use in their teaching and MCQs for students to revise Essential reading for undergraduate nursing students specialising or wanting to specialise in children and young people nursing *Gender And The Professional Predicament In Nursing* Davies, Celia,1995-02-01 Gender and the

Professional Predicament in Nursing examines the ways in which our understanding of nursing is gendered and how our notion of nursing is connected to our idea of what it is to be a woman. It explores the implications this connection has for the status of nursing as a profession and re-examines some of the fundamental questions that the nursing profession has tried to address such as what is nursing care, who should do it, why is it so difficult to manage the provision of nursing care. Gender and the Professional Predicament in Nursing demonstrates that once nurses try to define and shape the nature of their work they are marginalized or silenced. Frequent descriptions of them as sentimental, divided or incompetent highlight the need to understand nurses' exclusion from policy debates and why their voices are so seldom heard. Celia Davies contends that in a society divided by gender, defining nursing as women's work is deeply contradictory. We value nurses but devalue nursing. She suggests that alongside the debates about managerial efficiency in the NHS we need another kind of debate about how we organize health and social care, about what we mean by professionalism and about the worth of caring work. This book is important reading for students of women's studies, nursing, allied professions in health and medicine, policy makers and human resource managers.

A Textbook of Social Work Brian Sheldon, Geraldine Macdonald, 2010-02-25 Where did professional social work originate from? How effective are social work interpretations in the lives of vulnerable people? *A Textbook of Social Work* provides a comprehensive discussion of social work practice and its evidence base. It strikes a balance between the need for social workers to understand the social, economic, cultural, psychological and interpersonal factors which give rise to clients' problems and the need for them to know how best to respond with practical measures. Divided into three parts, the text covers the history and of social work as a movement and profession in the first, and social work methods and approaches in the second. The final part looks at the major specialisms including chapters on Children and families, Youth Offenders and substance misusers, Social work and mental health, Disabled people, Older People. Providing a comprehensive guide to conceptual and methodological issues in social work and containing plentiful case studies and examples, this book is an essential read for social work students as well as a valuable resource for practitioners and academics.

Interprofessional Working in Health and Social Care Judith Thomas, Katherine Pollard, Derek Sellman, 2014-03-19 There will always be a need for professionals to work collaboratively if they are to provide the highest standard of care. Interprofessional working encourages practitioners to understand the roles of other professionals and to learn from each other as well as from service users and carers to ensure the full benefit of this collaboration is realised. It is an essential element of both education and practice for today's professionals. *Interprofessional Working in Health and Social Care* discusses the rationale, skills and conditions required for interprofessional working. In addition, it provides an overview of the roles and perspectives of different health professionals across a broad range of expertise: education, housing, medicine, midwifery, nursing, occupational therapy, physiotherapy, police, probation, radiography, social work and youth work. The second edition offers a broad variety of case studies from a range of fields and settings. Includes a new chapter dedicated to

interprofessional working with service users and carers Looks forward offering brand new content on new and emerging roles such as specialist paramedics and approved mental health practitioners This book is a valuable tool for students and practitioners across the health and social care discipline employing engaging case studies and reflective activities to support learning about interprofessional and interagency collaboration Erratum please note the term Approved Mental Health Practitioner has been used in error instead of Approved Mental Health Professional This will be corrected as soon as possible on the next reprint and the e book version has been corrected *Managing Care in Context* Jeanette Henderson, Dorothy Atkinson, 2003 *Managing Care in Context* looks at the different contexts in which care takes place and considers the impact of policy practice and organisational contexts on managers It explores the complexity and diversity of the management task and the role
